New York, March 29.—Cotton advanced sharply at the opening today, first prices being 40 to 60 points net higher on active months, while January showed an advance of 70 points. Relatively firm Liverpool cables and unfavorable weather maps, and reiterated reports of an advancing spit basis in the South seemel are sponsible for the general covering.
There also was trade buying of near months. May sold at 27.91 and October at 24.40, or 55 to 68 points net higher. The buying of May was accompanied by reports that a large block of cotton had been sold yesterday for export out of the local stock. Realizing was heavy at the advance, however, and prices eased off 20 to 30 points from the best in the early 47.50 to 27.05. Uky 26.57. October

To Be Given at the State College Dur-ing the Summer School. (By the Associated Press.) Raleigh, N. C. March 29.–Plane art now being made to hold a short course for club boys at the State College some times during the summer school, it was announced at the office of the Extension Service of the State College and De-partment of Agriculture. It is thought likely that the course will be held at the same time that the short course is held for the grink. This course last held their respective home clubs. The is the expressed hope of those in charge of the boys' club work in the state, that each club will send at least one representative. Where there is an agent in a county the combined clubs of the area are expected to send be tween two and ten representatives. The requirements for entrance to this course, it was explained, are that the procentative must have been a member since April 1, and have kept a record of his work to the held under the course. **WANDERLIP TALKS**

Sydney Hears California Singer Across 6,000 Miles of Ocean. (By the Associated Press.) Sydney, N. S. W., March 29.—An Australian wireless enthusiast, A. E. Wright, of Scarborough, on the South Coast of New South Wales reports hav-ing heard clearly an announcement made. by a radio distributing company in Cali-fornin, 6,000 miles away. Following the announcement he heard piano music and a baritone solo. A soprano solo was proceeding when an induction compelled bim to close down. Many Australians using costly appa-ratus have been listening for American messages, and code signals have been logged, but Mr. Wright, with a two valve set, has established a remarkable record. If his long record of the reception of the signals is endorsed by a check state-ment to be obtained from California, it is believed a world's wireless record in telephony will be acknowledged.
