

### Long Lost Tablets of Moses Found in Part, Expert Believes

Vienna, May 7.—What are declared to be remnants of the original tablets bearing the Ten Commandments, written by Moses, have been deciphered by Prof. Hubert Grimme of the University of Munster.

“I was taken out of the Nile by the Egyptian Queen,” is the sentence written in the almost forgotten old Hebrew at the head of one of the tablets, which were found some time ago on the Plateau Serabit El Chudam, in the southwestern part of the Peninsula of Sinai by the English scholar Flinders Petrie. The tablets contain also the names of Joseph, Moses and Aaron.

In an article published in the Vienna Morgen Zeitung, Prof. Grimme, who deciphered the tablets from photographs, deplors the fact that so far only a portion of the tablets has been found and that no effort has been made to locate the remainder.

“Their discovery would be a greater contribution to the history of mankind than the unearthing of King Tutankhamen's tomb,” he declares. He adds that he is certain further excavations would locate three Mosiac Biblical documents which would prove that the word “Jehovah” is derived from the name of the Egyptian god “Jahu” and that the Hebrew name for God, “Shadei” is derived from the name of the Egyptian god “Saptu.”

### Iceland, Returning to Simple Life, Bars Clothing and Shoe Imports

Washington, May 7.—Iceland has decided to return to the simple life and test the primitive standards of living of the days before mankind let factories supply its needs.

Consul General Marion Leitcher at Copenhagen has just sent the Department of Commerce a report on the new law of the Icelandic Parliament, effective for two years, which greatly extends the list of articles prohibited from import.

Ready made clothing and shoes are barred. When present footwear stocks are exhausted the population will have to use Icelandic hairy sealskin shoes. Importation of nearly all dry goods is prohibited and homespun will soon be the vogue.

The exclusion list includes all kinds of bread, butter and margarine, cheese, salt pork, salt meat, pork, sausage, eggs, fruits, leather goods, oils, soap, furniture, pictures, films, watches, clocks, motorcycles, automobiles and all jewelry and novelties.

The law was adopted as one step to improve the value of the Icelandic crown.

## RADIO BROADCASTING NEWS

- (By Courtesy Radio Digest)
- Program for Thursday, May 24.**  
(By the Associated Press.)
- WSB Atlanta Journal (420) 8-9 classic concert; 10:45 organ.

  - CKY Winnipeg (450) 8 railway's program.
  - WCBD Zion (345) 7 musical.

#### Foot and Plague's Cotton Letter.

New York, May 6.—Trading interest is gradually drifting from the old to the new crop on the ground that the former is now a proposition for the actual trade to work out. It is believed that there is still a large unprotected cotton interest in July which might be obliged to stand severe punishment later unless helped out by the tender of what portion of domestic mill stocks may promise to prove superfluous but with the continued lethargy in the goods markets there are none as yet willing to try the experiment of driving shorts to cover. Traders on May have been comparatively light and readily taken by large exporting firm and the local stock has shrunk rapidly. If the stock should get to as low a point as now seems probable by the first notice day of July the situation would have little importance in the eyes of frightened shorts. The weather is better though night are still too cool in many parts of the belt and much re-

#### Planting will have to be done and the weather is reported early for duty.

There is, however, no serious anxiety felt as yet regarding the crop and the weather may very easily prove sufficiently favorable in the next six or eight weeks to bring about somewhat easier prices for those months. Any disappointment in that respect, however, would mean a quick expansion in the demand for new crops at advancing prices as it is well understood that requirements must be almost exclusively provided for, out of the crop. The foreign trade is reported holding a good many contracts already for those deliveries and ready to increase their holdings in easy periods around this level participating that experiences during the summer will serve to cause a possible sharp downward revision of the present rather optimistic views of the crop. The market is idle as a painted ship upon a painted ocean and waiting for fresh incentive. **POST AND FRAGG.**

#### Losses Life Trying to Save Drowning Friend.

Asheville, May 6.—After he had rescued another student from drowning, Ross Woodrow Wingate, 18, member of the senior class at Christ school near Arden, sank exhausted in the water above the power house dam yesterday afternoon and perished before aid could reach him.

Wingate was not an experienced swimmer, but when he heard the cries for help of the boy, and saw him struggling he plunged into deep water to rescue him. Wingate shoved the boy into shallow water where he was seized by other students. Wingate then sank to his death before the gaze of half a dozen of his comrades who were powerless to aid him. The body was found later but efforts at resuscitation failed.

Master Robert, the winner of this year's Grand National Steeplechase, was once a plough horse.

**SALES SERVICE**

We carry a complete stock of bumpers, piston rings, bearings, Spaton and Klaxon Horns, Motor Meters, shock absorbers, Gabriel Snubbers and practically everything in the accessory line. Call and see us.

#### DELANEY COMES BACK TO ATTACK

Defies Commissioner of Insurance to Indict or Sue Him For Libel. News and Observer.

Declaring that the Democratic party in North Carolina should not be burdened with a man who has Wade's ideas of the duties and responsibilities of a public officer, J. L. DeLaney, of Charlotte, champion of J. Frank Flowers for Commissioner of Insurance against Commissioner Stacey W. Wade in the primaries defies the commissioner to sue or indict him for libel in any court on his charges of misconduct on the part of the commissioner.

The reply of Commissioner Wade to the original charge that an amendment to the Blue Sky law increasing Mr. Wade's salary was slipped through the Legislature during the closing days and that Deputy S. F. Campbell secured a loan from a Charlotte concern which he was sent to investigate is characterized by Mr. DeLaney as a plea in confession and avoidance.

place, though he worked for years under a very discouraging handicap. He could have gone elsewhere and no doubt bettered his own chances for success, but refusing he devoted his splendid talents to the building just such a school as his church and a wide territory needed.

Now, that he is asking for a better equipment he ought to be favored with a generous response. This school deserves better than it has been receiving. The man who made it possible has made sacrifices innumerable to carry on the fine work he began some years ago under such discouraging conditions. Today the good people of the church should rally to his efforts and give the necessary funds for building the Institute on a bigger and a firmer foundation. We say the church should, we believe it will, we know it will. There are many friends of education outside the church responsible directly for this school who will also gladly give something to add to the fund.

It is with genuine pleasure that this newspaper adds its endorsement to the school, to the able superintendent and to this special plea being made in its behalf. We feel sure that its friends in Rowan will deal generously with it in its hour of need.

#### Would Make Lockwood Explain Statement.

Washington, May 6.—A demand that George B. Lockwood, secretary of the Republican National Committee, be called before a Senate committee and explain his attacks “on this body” was made in the Senate today by Senator Robinson, of Arkansas, the democratic leader.

The First Methodist congregation of Salisbury in a formal exercises burned a mortgage and note for \$20,000 that have been on the church building since it was erected seven years ago, and the building fund debt was declared cancelled. While the paper burned the congregation sang “Praise God from whom all blessings flow.”

USE THE PUSNY COLUMN—IT PAYS

**Quart of Water Cleans Kidneys**

Take a Little Salt if Your Back Hurts, or Bladder is Troubling You

No man or woman can make a mistake by flushing the kidneys occasionally, says a well-known authority. Eating too much rich food creates acids, which excite the kidneys. They become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood. Then we get sick. Rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys, or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, begin drinking a quart of water each day, also get about four ounces of Fac Salts also get about four ounces of Fac Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast, and in a few days your kidneys may act fine.

This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to flush and stimulate the kidneys; also to help neutralize the acids in the system, so they no longer cause irritation, thus often relieving bladder weakness.

Fac Salts is inexpensive; makes a delightful effervescent lithia-water drink which everyone should take now and then to help keep the kidneys clean and active and the blood pure, thereby often avoiding serious kidney complications. By all means have your physician examine your kidneys at least twice a year.
