Held on Kidnapping Charge.
Asheville, May 14.—A negro woman giving her name as Nora Moore and her age as 27 and who admits that she has used the name of Dorothy Marshall, is being held in jail here on charges of kidnapping Henry Peters from his home in Cleveland, Ohio, made by the boy's mother, Mrs. Chris Peters. The negroess admits, it was said, that she took the boy away from his home but claims that it was to save him from the brutal treatment of his mother, who was a white woman whose husband was a negro. The police say that the boy bears no sign of negro blood. The woman will be held pending further information.

Hunt's Washington Letter

BY HARRY B. HUNT
NEA Service Staff Writer.

WASHINGTON, D. C. — Al Smith's presidential boom is developing stronger than expected. Immediately after the death of Charles F. Murphy, the Tammany boss, it was thought Smith's chances had been ruined. But it doesn't look so now.

Murphy built fences higher than even Smith's friends realized. The dead, some say Smith is in a better position now than if Murphy had lived because his candidacy is less involved by Tammany.

Supporters of William Gibbs McAdoo who do not want Smith even if they can't have McAdoo remain confident of their ability to hold more than one-third of the convention votes indefinitely, thus forcing a compromise.

The suggestion is heard in some quarters that the fate of former Governor McCray of Indiana, who has been sentenced to prison for ten years, injured the presidential chances of Samuel M. Ralston.

It is true they are of different parties, but the consensus of opinion here is that McCray has given Indiana Republicanism such a black eye that Democrats are practically certain to carry the state anyway, thus making it unnecessary to nominate a Hoosier for the purpose of transferring the state from the doubtful to the Democratic column.

THE indications at present are that the navy's present state is to be subject to much investigation for a long time to come. Probably it is too late to get anything done with the present appropriations bill.

Recent reports by high naval officials disclosed that the fleet is in far worse a state than anyone, except those on the inside, realized. Experts say that the claim made that America is on a ratio of one compared with Japan's three is exaggerated, but it is believed here that the basis of three and a half to three is not far wrong.

Secretary of Navy Willbur doesn't take kindly to these revelations, probably on account of the administration's talk of further disarmament. But recent leaks make further exposure difficult to forestall.

INVESTIGATIONS by senatorial committees have been progressing so long that they are getting to be a bit stale. But they continue nevertheless.

Senate office building operators, now call their floors something like this:

"Main floor—land fraud hearings;
"Second floor—world court and Wheeler indictment;
"Third floor—Oil hearings and Muscle Shoals;
"Fourth floor—Daughterly investigation!"

A Scotchman who had been in this country about two months went to a movie show with a friend. In the news reel were views from the wilds of Maine, one of which was a close-up of a moose. Turning to his friend, the Scotchman said:

"I dinna ken what you beastie is."
His friend explained that it was an American moose.
"A moose?" queried the Scotchman, surprisedly. "Aweel, I dinna want to meet an American rat then!"
