**Deliveries of Ford Cars and Trucks in April Over 211,000.** Detroit, Mich., May 24.—Retail sales of Ford cars and trucks in the United States rose to 211,410 during April, a substantial increase over the record-breaking deliveries of March, the Ford Motor company announced here today.

At the same time, it was stated that sales of Fordson tractors, which have been steadily increasing since the first of the year, exceeded 12,000 in April. Further, in the high-price car field, sales of Lincoln cars, which are produced by a division of the Ford Motor company, reached a new monthly record with a total of 702 retail deliveries. During the first four months of the present year Lincoln sales showed an increase of approximately 55 per cent over the same period a year ago, the company says.

While the sales figures of the company graphically illustrate the constantly growing popularity of the Ford products, they likewise present an optimistic business outlook.

A review of the sales records shows that for two years retail deliveries of Ford cars and trucks in the United States have exceeded 100,000 a month, the company says, while for nine of the months March and April this year carried sales for each of those months considerably over 200,000.

**When You Want a Car or Cab For Any purpose call 392. Our service is yours.** Peck's Taxi Service. 26-21-p.

**La Follette-Wheeler Team is Still Figured On.** Washington, May 26.—"Robert M. La Follette (Republican) candidate for President and Burton K. Wheeler (Democrat) for Vice-President."

That independent bi-partisan ticket will enter the field in the political sweepstakes if a movement started by a group of Progressive Republicans and Democrats is successful in persuading the Montana Senator to take second place on the ticket, it was learned today from a responsible source.

The movement has been balked temporarily by the refusal of the Montana Senator to accept the place picked for him, but those behind it have not abandoned hope of a final decision by Wheeler to run.

**Daughter Born to Mr. and Mrs. Harold Lloyd.**

A daughter was born Saturday to Mrs. Harold Lloyd, wife of the screen comedian, and herself known on the screen as Mildred Davis.

Reports from the Los Angeles hospital at which the newcomer made her debut said Mrs. Lloyd was "doing splendidly."

M. Anatole France, the celebrated novelist who has just passed his 80th birthday, has always shown a keen interest in boxing.

# IN AND ABOUT THE CITY

## CHAUTAQUA CLOSSES WITH A DELIGHTFUL PROGRAM

**Patrons Assured Another Fine Program For 1925.**

Saturday proved to be one of the best of the five days of high class entertainments offered during Chautauqua week. The entire week was so exceptionally good that each day seemed the best. The last day was no exception to the experience along this line. At 3:30 a fairly full tent greeted the Hawaiians. Their music, their actions and their looks for the most part, added to the reality of the entertainment. In all this they were "simply wonderful" as was stated by a number of the pleased hearers.

Following the prelude for the afternoon Miss Virginia Slade gave a very remarkable presentation of the story "Within the Law." Her work was extremely artistic. The characters stood forth in a remarkable way. The play was in four acts and required her impersonating sixteen characters, most of them very difficult to present. Her stage manner, is happily such that her audience "accepts" her the moment she steps forward. She worked under quite a handicap since her work was of such a different nature to that of the Hawaiians who immediately preceded her. Yet she overcame that and held her audience, large and small alike throughout the entire presentation.

The night program by the Hawaiians was the real thing. They were delayed considerable time owing to the rain which ran under the tent though not through it. When they did begin they faced a full tent of really interested people. During this program the music and one of the other attractions of the afternoon were helped along by some exceptional scenic effects. The clouds were seen floating in front of the ever present moon. At times the water of the Pacific were shown in front of the island. Also a volcano could be seen in the distance emitting fire and lava. We doubt if there is a better and more spectacular performance on the chautauqua program anywhere and that is saying much.

At the beginning of the night's program a few moments were taken by the platform manager in which the last few minutes were presented for the contract for 1925 assuring the people of Concord and vicinity another series of entertainments that will please all and offend none. Members of the Woman's Club sponsored the movement that will bring the Chautauqua back next year.

**Narrow Escape From Death.** Mr. and Mrs. Ben H. Ellis and three children of Bessemer City, had a narrow escape from death on Saturday night, when the Ford which Mr. Ellis was driving, collided with a Buick sedan driven by Raymond Herrin, of Concord.

Mr. Ellis and his family were on their way to Kannapolis to spend Sunday with S. M. Ford, father of Mrs. Ellis, and had reached the slight curve just at the Jackson Training School, when they met the Buick sedan, traveling in the opposite direction. The cars met almost head-on, the front of the Ford being badly demolished, while the Buick turned over in the ditch. Mr. Ellis was badly bruised and received several cuts, while Mrs. Ellis was cut about the head and face. The children escaped without injury.

Raymond Herrin, driver of the Buick, was placed under arrest and brought to Concord.

**Will of Rev. H. M. Blair is Filed For Probate.** Greensboro, May 24.—The will of the late Rev. Hugh M. Blair, formerly editor of The North Carolina Christian Advocate, filed for probate here, bequeaths to the finance board of the Methodist Episcopal church, south, \$1,000, the interest to be used for the fund for aged preachers, widows and orphans of preachers.

His home here was bequeathed to his widow during her lifetime, at her death to go to their daughter, Mrs. Eva Harrell. The widow was also left \$500.

**Staley and Rowan For Cook.** Salisbury Post.

The Press says that Staley county has a warm spot for Mr. James P. Cook, who is a candidate for State Auditor, and will give him a good vote, to paper expressing the wish that he might get one hundred per cent of the county's vote. Not likely that this will be any ways near possible, but Mr. Cook will undoubtedly get a very large vote in Staley, as he will in Rowan, a close neighbor. The larger the better.

It has been estimated that something like 7000 athletes completed in the various provincial and sectional competitions held in India to choose the team of eight men which is to represent that country in the Olympic Games.

The average annual crop of a coconut tree is 60 nuts.

## Death of Theo. W. Morrison.

D. Baker Morrison received a telegram from Texarkana, Arkansas, Saturday afternoon announcing the death of his brother, Thomas W. Morrison, which occurred of heart trouble in Texarkana early that morning. Mr. Morrison was 38 years of age. He was born and reared in this county, and left here 33 years ago. He is well remembered by many of our older people, having had a position for some time with Cannon & Fetter Co. He lived in Austin, Texas, for ten years, and moved 20 years ago to Texarkana, where he had since lived and where he was manager of the clothing department of O'Day & Aheas.

Mr. Morrison leaves besides his brother, two sisters, Mrs. E. P. Penick, of Austin, and Mrs. J. P. Morrison, of this county.

It is expected that the body will arrive here tomorrow morning at 10:23 o'clock, and the interment will take place at Rocky River cemetery at 11:30.

## Another Victory For J. T. S.

The Jackson Training School team made it two straight on Saturday afternoon by defeating the Flowe's Store team by the score of 2 to 1, in a well played game.

It was a pretty pitchers' battle between Russell and Bost with a slight advantage in favor of the former. Several times the visitors had men on bases but Russell tightened up and kept them from scoring. Besides holding Flowe's to three hits he caused eleven men to tan.

Bost also pitched well for the visitors, allowing four hits and striking out nine. Timely hitting by Hobby and Rogers was responsible for the Training School's runs.

**Industrial "Y" Work Far-Reaching.** During the past month each of the "Y" industrial clubs have been entertained at a banquet at the Y. M. C. A. These banquets were a series of get-together frolics for the boys and girls in the "Y" clubs and were planned and put on by Mr. Blanks and Harry Lee Johnston for the purpose of bringing these youngsters closer to the Y. M. C. A. and giving them a general good time. On each of these occasions each of the club members had a splendid time playing games, taking part in all kinds of stunts and contests, and besides this each time they have enjoyed a fine supper.

All these suppers were prepared and served by the good ladies of the Central Parent Teachers' Association, and to them we owe many thanks for their kindness.

The first banquet was given the Orangutangs, White Eagles and the Red Birds, of the Hartwell Mill school, when they met at the "Y" on the evening of April 1st. Several musical numbers were given by Miss Millicent Ward while supper was being served. Miss Lorraine Blanks entertained the boys and girls with several readings, after which games and stunts were played. Very fine talks were made by Prof. Robertson, Rev. J. C. Rowan and Prof. Osborne.

Mr. Rowan recited some negro dialect which amused the children very much. The next get-together was held on Tuesday evening, April 8th, when the Eagles and Blue Birds of the Brown Mill school were entertained. The Brown Mill school faculty was present with the club members. The evening was featured by music and readings by Miss Lorraine Blanks; games, and several splendid talks by Rev. L. A. Thomas and E. J. Haywood and Prof. Joyner, principal of the school.

On April the 15th the Wildfires of No. 2 school met at the "Y" to celebrate the same occasion. About twenty-five fellows were present. Very fine talks were made by Meers, W. A. Foll, J. L. Petrea and D. B. Coltrane, which the boys enjoyed immensely.

**Indecent Lawmaking.** Some years ago Congress, under the domination of a group of busybodies, passed the Mann "White Slave" act to prevent women from being sent from State to State for immoral purposes. This law, so far as is known, did not break up the White Slave traffic. But it did make it possible for cunning women to reap a harvest by blackmailing men who had gotten into their clutches. That is its chief effect today.

**The Heart of the Nervous System.** Teacher: "No, children, smoking should never be indulged in. It has an evil effect on the nerves. Explain why it is, William."

William Wisacre: "Well, a feller worries so much about gettin' caught doin' it."

## A Great Lesson.

Staley News-Herald. That was a great lesson taught in the play, "Love on Six Cylinders," given at the Chautauqua tent Wednesday night. It was true to life. Many a man has mortgaged his home, which represented years of savings, for an automobile, only to find the machine an endless expense and the cause of him losing his home. It is all right for one who may be able to own an automobile, or possibly in some cases it may be all right for a man to mortgage his home to purchase one, provided he uses it for legitimate business purposes, or moderately, for recreation; but this thing of driving at all over the country every night and practically all day every Sunday, just merely for the sake of driving, is simply a crazy idea, and is doing this country more injury than most people might think.

If you own an auto and you can afford it, and want to do so, drive it when and where you please. That's all right. But unless you have plenty of money, use your machine for business purposes if it helps you to accomplish more or to produce more, but don't go crazy and burn gas all day every Sunday going nowhere. It's too expensive and may mean the start toward a complete failure in life.

The Philadelphia Athletics have set the record for consecutive games lost this season.

## PETERSON WELL IN THE LEAD

**Sampson Candidate for Commissioner of Labor and Printing Gratified at Imminent Progress of His Campaign.**

O. J. Peterson, the veteran teacher and editor, who is a candidate for Commissioner of Labor and Printing, was in Concord today and expressed himself as much gratified at the almost unanimous support accorded him by the representative citizens of the east and the counties of the central section in which he has been.

So far as can be determined by the attitude of the voters, great and small, seen in eastern counties, he feels that he has the overwhelming support of that section. In a score of counties, Mr. Peterson says, he found only three professed supporters of the present incumbent, while practically all the other men seen assured him of their hearty support. Among the backers of the Sampson man in that section of the State are such men as the Connors, Finch, Lucas, Wilson; J. O. Carr, Judge Roundtree, Wilmington; A. D. Ward, Judge Gulon, ex-Congressman C. T. Thomas, and J. B. Dawson, New Bern; John A. Gates, Dr. J. Vance McElhannon, Capt. Jas. D. McNeill, Fayetteville; but to name them all would be to call largely the roll of the more prominent men of the eastern counties.

In the central section, the limited time he has been able to give to the several counties has not enabled him to meet the people generally, yet the support accorded him is most gratifying, and it has been only the exceptional man who has failed to espouse his cause. At Greensboro, the Greensboro Patriot, edited by ex-Mayor T. J. Murphy, has come out strongly endorsing the man from Big Blue Land, as have quite a number of other papers in the central section of the State.

On the whole, Mr. Peterson feels that he is well in the lead of such of his opponents and that in many counties he will have a great majority over the combined vote of all. Peterson is running on his own merits and the justice of his claims. He is a college graduate, taught a score of years, and has given eleven years to real editorial work, having to the line without regard to personal consequences. He has devoted the past seven years to editing the Sampson Democrat and says that the very fact that he has successfully operated a Democratic paper in that rock-ribbed Republican county is evidence of both his good Democracy and of his business ability.

One of the most significant services Mr. Peterson has rendered the State was in the exposure of the pension graft last year, which has resulted in a purging of the pension lists of the hundred counties which, according to a recent statement of State Auditor Druhan, has saved one dollar out of every six of the Confederate pension funds in the State.

Vote for Peterson and be sure he will both appreciate your support and if elected serve the people with the highest efficiency and as economically as possible.—Political Advertising.
