

More Than Forty Persons Dead in Storm Alabama and Other States

And at Least Twice as Many Injured.—Storms Struck Parts of Alabama, Mississippi and Louisiana.

LIGHTNING INJURES YOUTH FATALLY

Two Families Wiped Out at Empire, Ala.—Victor Cook and Family Killed When Home Was Demolished.

Athens, Ga., May 27.—A series of tornadoes sweeping through Mississippi, Alabama and Louisiana last night and early today took a known toll of 48 lives and caused injury to upward of 70 persons, and wrought thousands of dollars damage to farm and buildings, according to advices reaching here today from various sections of those states.

Reports continued to come in fragmentarily, and it is feared that the death toll and list of injured will reach greater proportions, as more definite advices are available when telegraph and telephone communication has been restored.

Several Killed Near Laurel. Laurel, Miss., May 27.—Victor Cook and several members of his family were killed when their home east of Bay Springs was demolished during a wind storm last night, reports received here said. Miss Sara Bass and a Miss Robinson were killed when the storm struck Collins.

Eight Injured Near Gadsden. Gadsden, Ala., May 27.—Eight persons were injured, a number seriously, in a storm that struck White Sulphur Springs community, seven miles from Gadsden, early today.

Two Families Wiped Out in Alabama. Empire, Ala., May 27.—Two families were practically wiped out in the Owens mining camp, three miles from here, early today, when ten persons were killed and fifteen injured in a storm that struck while they slept. In the home of Billie Robbins eight persons were killed. Mrs. John Hays and a young woman named Abbott met death in the Hays home. John Hays was so badly hurt that it is believed he will die. Several houses were demolished.

Eleven Deaths at Jackson. Jackson, Miss., May 27.—Eleven persons were killed, 24 others injured, and heavy property damage caused by a series of storms which swept over sections of Southern Mississippi late yesterday and last night. Reports from Brookhaven today stated that eight persons were killed at Johnson Station, 12 miles from there, and 12 others injured, when a tornado hit the town last night.

An unconfirmed report also stated that the storm had caused heavy property damage at Summit.

Three negroes were killed and 12 persons injured in the first tornado reported, which late yesterday demolished 11 buildings on the plantation of W. H. Swain, 15 miles east of Greenville.

Seven Members of One Family Killed. Meridian, Miss., May 27.—Seven members of the John Broadway family were killed in a storm that struck Brewer, a few miles from here, early today. The dead were: Mr. and Mrs. Broadway, a married son, his wife and child, an unmarried son, and a boy. Nedie Anderson was killed at Devoe.

At Least 17 Dead in Mississippi. New Orleans, May 27.—At least 17 dead and 50 injured was the toll of the storms which swept through Mississippi last night.

Two Year Old Baby Blown Away. Nashville, Tenn., May 27.—A special dispatch to the Banner from Athens, Ala., says a tornado struck Limestone County Monday night, killing 7 persons east of Ellamont. The family of Will Collins were all killed. A two-year-old baby was blown away.

METHODIST BAN ON AMUSEMENTS LIFTED

Northern Methodists Take This Action by a Vote of 5 to 1.

(By the Associated Press.) Springfield, Mass., May 27.—The Methodist ban on amusements except those "which cannot be used in the name of the Lord Jesus" was lifted today by a 5 to 1 vote of the Methodist Episcopal General Conference here. A minority report forbidding theatre attendance on Sundays, specifying dancing and immoral theatre performances, was tabled, 400 to 205.

State Delegations Allocated to Hotels for New York Convention.

(By the Associated Press.) New York, May 27.—George F. Mara, director of arrangements for the Democratic National Convention here next month, has completed the selection of hotel headquarters for delegates and alternates from the District of Columbia and the 54 states and territories.

The list represents the final and official allocations. It includes several revisions from the temporary assignments heretofore announced from time to time. All hotels are in the heart of the mid-Manhattan district and are easily and quickly accessible from Madison Square Garden, the convention auditorium.

The North Carolina delegations will have headquarters at the Pennsylvania Hotel.

Quarrel With Dad Then Takes Poison. Chicago, Ill., May 26.—Dramatically holding a vial of poison before her classmates in the eighth grade of a public school here this afternoon, Genevieve Solars, 14, swallowed the contents. "I quarreled with my father," she cried, "and I want to die." Her condition is critical.

SERIES OF STORMS MAKES WIDE HAVOC

More Than Forty Persons Killed Monday Night in Three Southern States, Alabama, Mississippi, and Louisiana.

(By the Associated Press.) More than 40 persons are known to have been killed and at least twice as many injured, some seriously, by a series of storms that struck in Alabama, Mississippi and Louisiana last night and early today. In one instance a youth was probably fatally injured by lightning.

The dead and injured: Empire, Ala.: 10 dead, 15 injured. Bay Springs, Mississippi: several dead. Collins, Mississippi: 2 dead. Union, Mississippi: 8 injured. Monroe, Louisiana: 1 injured. Johnson, Mississippi: 8 dead, 12 injured. Greenville, Mississippi: 3 dead, 12 injured. Ellamont, Alabama: 7 dead. White Sulphur Springs, Alabama: 8 injured.

COTTON MILL MEN MEET AT ATLANTIC CITY Prepare to Agitate for Higher Protective Tariff on Cotton.

(By the Associated Press.) Atlantic City, N. J., May 27.—The American Cotton Manufacturers' Association, in convention today, prepared to agitate for higher protective tariff on cotton. Importations have curtailed operations in domestic mills, the delegates declared.

The goal toward which the association is working is to make the cotton industry in the South independent with its own dyeing, bleaching, finishing and mercerizing plants, and even with its own facilities for manufacturing machinery.

Salt Beds of Utah Make Natural Auto Speedway.

(By the Associated Press.) San Francisco, May 27.—The opening of the Victor Highway, the shortest transcontinental route from New York to San Francisco, this year, will make available for motorists what is considered a perfect road, the great salt beds along the Wendover Cutoff in Utah. The salt beds are level and absolutely "non-skid." They were formed by the same process as the Great Salt Lake.

During the rainy season a foot or more of water covers the beds, but in summer the water evaporates, leaving an area of many square miles on which tourists test out the racing qualities of their machines. The salt is several feet thick and comparatively pure.

The inaccessibility of the salt beds heretofore prevented their use for racing. Some years ago, however, Tedd Tourlaff set a record of 120 miles an hour on them. Racing men here say there is practically no limit to the speed that might be made on the salt beds. They predict that the opening of the Wendover Cutoff will make them great proving grounds for racing cars.

From the highway approaches will lead to the beds at frequent intervals.

Sleeping Sickness Increasing Rapidly in Great Britain.

(By the Associated Press.) London, May 27.—Sleeping sickness is rapidly increasing in this country, and 640 cases were notified by doctors in the first three weeks of April against 468 in March, 217 in February and 75 in January.

While investigations into the cause of the disease are being carried out by the Medical Research Council, doctors admit they do not know either a cure or any means of preventing the spread. Large towns appear to be more affected than rural districts and the disease seems to spread westward.

A medical officer of health says from one-fourth to one-half of the patients die and not many of the remainder have, so far, completely recovered.

Voting Since 1860, Civil War Veteran Is Found Ineligible.

(By the Associated Press.) Seattle, May 27.—E. W. Binn, 86, of Seattle, who voted for Abraham Lincoln twice and who has cast his ballot for every Republican presidential candidate since 1860, has recently found out that he is not a citizen and cannot vote for a candidate this fall.

When Binn went to register the clerk of a Seattle registration office found that he was born in England, that he was not naturalized, though he had voted since 1860, and that, which he thought his father was a naturalized citizen of the United States, he could not produce a copy of his father's naturalization papers. Binn's father died 30 years ago.

Two Men to Hang For Attack on 82 Year Old Woman.

(By the Associated Press.) Macon, Ga., May 27.—Judge James B. Park today sentenced Wade Johnson and Jarrett Benford, of Milledgeville, to hang on June 27th, for attacking an 82 year old woman of Jones county on the night of May 18th.

Gertrude Baker Found. Chicago, May 27.—Gertrude Baker, the 16 year old academy student, thought to have been the victim of kidnappers, since her disappearance last Wednesday, was found last night keeping house in a stable-keeper's apartment.

Four New Methodist Bishops

The Methodist General Conference, meeting at Springfield, Mass., elected these bishops of the church: (above) Rev. George A. Miller, superintendent, Central American Mission, Panama; Rev. George R. Grose, president, De Pauw University, Greencastle, Ind.; (below) Rev. Titus Benton Thorburn Bailey, Calcutta, India.

BISHOP REFUSES TO SANCTION MARRIAGE

Dr. Grant and Mrs. Lydig Break Their Engagement Because of It.

New York, May 27.—The engagement of Mrs. Rita de Acosta Lydig to the Rev. Dr. Percy Stickney Grant, rector of the Church of the Ascension, which was announced in 1921, has been broken as a result of Bishop William T. Manning's continued refusal to give his consent to the marriage.

Announcement of the severance was made by Mrs. Lydig Sunday in this brief statement to the newspapers: "Mrs. Lydig and Dr. Percy Stickney Grant announce the breaking of their engagement, owing to Bishop Manning's refusal to give his consent to a marriage in the Protestant Episcopal Church."

Rumors of the engagement of the rector and Mrs. Lydig, who for many years has been a communicant of Dr. Grant's church and active in its charitable activities, were followed by formal announcement in August, 1921. The announcement caused wide interest because of Mrs. Lydig's social prominence and the fact that Dr. Grant has been for some years among the best of friends of the ministers of the Episcopal Church aligned with the Modernist group.

The withholding of Bishop Manning's consent to the marriage is in accordance with a strict canon of the Episcopal Church, which prohibits the re-marriage of a divorced person except under special conditions. Mrs. Lydig's divorce from Philip M. Lydig was obtained in Paris in 1919 on grounds that did not meet the requirements of the Protestant Episcopal Church.

Mrs. Lydig's first husband was W. E. D. Stokes, to whom she was married in 1895. By the terms of her divorce from Mr. Stokes, she received the custody of her son, W. E. D. Stokes, Jr., whom she subsequently relinquished to Mr. Stokes soon after her marriage to Mr. Lydig in 1902. Some time later, however, the younger Stokes returned to his mother.

THE COTTON MARKET

Opened at an Advance Today of From 2 to 5 Points.

(By the Associated Press.) New York, May 27.—Relatively firm Liverpool cables and unsettled early weather may be reflected in an opening advance of 2 to 5 points in the cotton market today.

July contracts sold up to 29.95, and October to 27.00 right after the call, the general list showing net advances of 10 to 15 points. Considerable realizing was encountered, however, with some selling here for Southern account, sufficient to ease prices off in the early trading to about last night's closing quotations. The market was barely steady around 10:30 o'clock. Opening quotations were: July 29.80; October 27.00; December 28.20; January 26.05; March 26.17.

The Laundrymen at Columbia.

(By the Associated Press.) Columbia, S. C., May 27.—Addresses by A. W. Cummings, of Dunkirk, N. Y., President of the Laundry Owners National Association, and C. N. Brown, of Asheville, N. C., member of the executive board of the national organization, submission of reports, and election of officers, were on the program here today as members of the Carolina, Georgia and Florida Laundry Owners Association opened the final session of their 18th annual convention.

In America there are now about 200 women ordained to the ministry.

Senate Committee Makes Formal Report on the World Court Plan

(By the Associated Press.) Washington, May 27.—Adoption of the Senate Foreign Relations Committee's world court plan would enable President Coolidge to "promptly conclude with the states now adhering to the court a simple, direct and reasonable agreement," the committee majority declared today in its formal report.

"In reporting this resolution," the report said, "the committee has taken affirmative and favorable action upon the recommendation of President Harding and President Coolidge, that we should adhere to the court, but not to the League of Nations."

"The resolution accepts the court as an established institution, and confirms the

STATE SEEKS TO CONTROL ABANDONMENT OF FARMS

Land Settlement as a State Controlled Project in South Carolina.

(By the Associated Press.) Columbia, S. C., May 27.—Land settlement as a state controlled project, to offset the boll weevil and the migration of the negro from the cotton fields, has been investigated by a commission appointed by Governor Thomas G. McLeod, of South Carolina, but must wait on legislation by the general assembly next year for an actual beginning, according to chairman of the South Carolina land settlement commission.

The former chief executive, appointed by Governor McLeod to head the commission, said the situation in this state exists in varying degrees throughout the south.

Dr. W. W. Long, director of the extension department of Clemson College, in pointing out the need for a state-wide survey, said reports revealed an "alarming situation" under which farm lands were being deserted and their occupants leaving, as many as 9,000 white families leaving the farms in one year.

Factors playing a part in the steady reduction in number of farms were given by him as the advent of the boll weevil, which reached the peak of its dominance over the cotton crop in South Carolina during the three years in question, and the resulting migration to the north of both white and negro laborers.

The rural situation as affected by agricultural conditions was steadily growing worse, Mr. Long said. It was felt that it would be impossible to get private capital to undertake to put colonization schemes into operation, unless the state led the way.

The land settlement commission first went to California and Wisconsin where the problem was discussed with the commissions of those states. Later a tour included Utah and other states. The policy of California, however, attracted the special interest of the commission.

Under the California plan, Mr. Manning stated, farmers were established in groups resembling small townships where they were given the benefits of efficient supervision and advice on agricultural matters, as well as long term credits with which to finance their farms.

Social contacts, community houses, diversions, churches and schools were provided for them.

Phelan to Present McAdoo's Name. Chicago, May 27 (By the Associated Press).—James D. Phelan, of San Francisco, former Senator from California, has been selected to place the name of Wm. G. McAdoo before the Democratic National Convention at New York, it was learned here today. He is Mr. McAdoo's personal choice.

Postal Salary Increase Bill Passed by the Senate.

(By the Associated Press.) Washington, May 27.—Carrying the Borah amendment for full publicity of political contributions during the progress of campaigns, the Postal Salary Increase bill was passed today by the Senate.

Hope for Early and Favorable Decision From President.

(By the Associated Press.) Washington, May 27.—Republican organization leaders were hopeful today that President Coolidge would make an early and favorable decision on the tax reduction bill sent to him yesterday by Congress.

SIX ARE KNOWN TO BE DEAD IN HOTEL FIRE AT NEWARK, NEW JERSEY

Windsor Hotel Destroyed Today.—Firemen Say Other Bodies Are Probably Buried in the Debris.

HOTEL HOUSED 100 MEN LAST NIGHT

Policeman Reported Seeing Three Men Come to a Fire Escape Door (Only to Be Enveloped in the Flames).

(By the Associated Press.) Newark, N. J., May 27.—Six men are known to have died in a fire today which destroyed the Windsor Hotel. Firemen said other bodies might be in the debris. The hotel housed 100 men last night.

A policeman reported seeing three men come to a fire escape door, only to be enveloped in flames. The hotel was a four story frame structure, with automobile tire shops on the street floor. A dense black smoke hampered the firemen.

Many of the roomers are believed to have been connected with a circus which is showing here.

MR. MARSHALL TAKES A FLING AT COUNTRY

Too Many Preachers Legislating and Too Few Legislators Praying.

Chicago, May 26.—Thomas R. Marshall, former vice president, last night asserted he was "for every proposition for preventing war, but in spite of this I am not a pacifist," in an address before the Sunday evening club, at which members of the G. A. R. were guests.

He compared the pacifists of today to those in the North prior to the Civil War. "If the pacifists had had their way then, the negro would probably be in slavery today," he said.

"I want peace, but I want America to be in a position to preserve her institutions, home, civilization and rights," he told his audience. He deplored destruction of battlefields and the disbanding of regiments.

"The trouble with America today," he continued, "is there are too many preachers legislating and too few legislators praying."

Treaties, documents, constitutions and conventions will not bring peace, he said. It will take something more than documents to bring peace. Our democracy rests upon fine thinking, fine living, judgment and conscience of the men and women. Get right with God and help other people do the same and there will be no more war in the world.

The model citizens today is the man who can successfully evade the laws. We did not have many laws when we started the government. I'd like to operate on the body politic and remove several thousand laws and leave only the 10 commandments and the golden rule that we started with.

"You send your fools to Washington and keep the wise men at home to white-wash fences. I have no objection to the man who knocks on the door, but when he gets in I want him to quit knocking."

"Old fashioned homes are giving way to flats and 'divvers'." Mr. Marshall said, adding, "but the young people of today are no worse than we were in our youth. It's just a different kind of fun. If you have any fault to find with them," he concluded, "blame yourself, you brought them up."

With Our Advertisers.

Efford's Removal Sale is still going big, but yet you have a big stock to select from. Mail orders filled.

You will find many graduation specials at Starnes-Miller-Parker Co.'s, both for girls and boys. See ad for list.

With every purchase of \$1.00 or over the S. S. Brown Shoe Co. will give one 25-cent ticket to the Pastime Theatre free. All the season's newest styles in shoes.

Octagon soap, 5 cents Thursday and Palmolive soap 5 cents Friday at the Piggly Wiggly.

Nunnally's candy with school colors, \$1.75 and \$3.50 at Gibson Drug Store. Free for graduation presents.

Porch shades are a summer time necessity. H. B. Wilkinson can supply you. Lee annuals for everybody at the Richmond-Flowe Co.

The savings habit is a great thing to instill into a child. See new ad. of the Citizens Bank and Trust Co.

The Parks-Bell Co. has just received a wonderful line of commencement dresses and a beautiful line of sport wear.

The May Bargain Festival at Robinson's will end next Saturday—only four more days.

Dogs in Alaska Stampede When Planes Roar Overhead.

(By the Associated Press.) Nenana, Alaska, May 27.—Mushers on the Nenana-McGrath overland trail are experiencing difficulties with their sled dogs since the advent of the planes flying in interior Alaska. When the planes following the trail appears overhead, the dogs stampede. The dog mushers are petitioning to have the air route changed to avoid these weekly canine riots. They often put half the rolling stock of the dog trains out of commission, and leave freight scattered along the trail for miles.

Ten Pages Today Two Sections

Kidnapped and Murdered

Here is a picture of Robert Frank, the 14-year-old son of a Chicago millionaire, who was found murdered after he had been kidnapped and ransom demanded.

PHYSICIAN ANNOUNCES BRAND NEW ANESTHETIC

Dr. Hasley, Tulane, Discovers Propylene Gas, Similar to Ethylene.

New Orleans, La., May 26.—Discovery of a new anesthetic was announced tonight by Dr. John T. Hasley, professor of pharmacology and therapeutics at Tulane University, in a paper read before the New Orleans Medical Society.

The anesthetic is propylene gas, contained in some natural gas, and which Dr. Hasley and his laboratory assistants, Chapman Reynolds and Harold R. Cook, the three of whom discovered its properties, but can be manufactured from mineral oils. Dr. Hasley's announcement came after several months of laboratory work by his assistants and himself.

"Propylene is similar to ethylene, the discovery of whose anesthetic properties, announced last year in Chicago, was hailed with enthusiasm by the medical profession, and resulted in its extensive use in thousands of surgical cases," said Dr. Hasley. "Propylene, it is believed, possesses distinct and striking advantages over its sister gas ethylene, which has itself been found to be for most purposes superior to any other anesthetic."

"As soon as it is possible to obtain the gas in sufficiently large quantities, its actions will further be studied in the Tulane laboratories, and if these further experiments justify it, its use upon humans will follow promptly."

Dr. Hasley stated that the apparent superiority of propylene was due to the fact that it was effective even though considerably diluted with oxygen. An anesthetic depends for its usefulness upon its possible administration in sufficient strength to obtain complete anesthesia without injury from the poisonous properties of the gas, he pointed out. Oxygen when administered mixed with the gas and it is therefore essential that the anesthetic itself be of sufficient strength to bring about complete unconsciousness, even when inhaled considerably diluted with oxygen. Propylene, he said, is so much more powerful than ethylene that a more complete anesthesia may be obtained without the necessity of supplying the patient with too little oxygen.

While it follows, he said, that with its greater strength its toxicity must be greater than that of ethylene, numerous experiments have indicated that it is not sufficiently toxic to be unsafe.

Man With Diamonds Released By Police.

Greensboro, May 26.—Investigation of the case of G. Custalio, New York man, arrested here when he was trying to sell diamonds on the street, revealed nothing incriminating and the man was released today.

Communication with New York authorities was had, and revealed that he has been arrested a number of times and held for investigation, after his gaudy selling activities, but nothing illegal was found.

The man had clippings from newspapers in his possession showing arrests and following releases.

Police said he had about ten thousand dollars worth of diamonds in his pocket when he was arrested.

Spanish Anti-Kissing League To Stop Feminine Lip Salutes.

(By the Associated Press.) Madrid, May 27.—Kissing is going out of favor among Spaniards. The league against the promiscuous kissing of children, formed some years ago, has decided to extend its efforts and to start campaign against the kissing prevalent among women when they meet or take leave of each other.

The leaders of the movement assert that much hygienic good has been done by the restriction of the osculation of children, and they express the opinion that women generally will welcome a similar measure for, as they argue, most instances, kissing does not mean friendship.

Death Expected From Lightning Stroke.

Monroe, La., May 27.—Vester Carr was struck by a bolt of lightning during a storm yesterday, and is expected to die.

GEORGE JOHNSON HELD IN CHICAGO IN ROBERT FRANK CASE

Man by That Name Driving a Gray Automobile Arrested.—Latest Development in Frank Mystery.

THIS NAME WAS SIGNED TO LETTER

Demanding Ransom of \$10,000 For Return of Robert Franks—Search for Typewriter Being Made.

(By the Associated Press.) Chicago, May 27.—Arrest of a man known as George Johnson, driving a gray automobile, was the latest development in the investigation today of the kidnapping and death of Robert Frank. The name George Johnson was signed to the ransom letter received by Jacob Franks, demanding \$10,000 for the return of his son.

The prisoner was driving the same make of automobile seen near the private school attended by young Franks at the time he started home from school. The prisoner lives in the Hyde Park district, where the Franks family lives.

Search for the typewriter on which the ransom letter was typed and for the clothing of the boy still was being continued today. The hearing was to be held this afternoon on application for a writ of habeas corpus on behalf of two instructors of the private school who have been detained by the police for questioning since Saturday.

The prisoner, known as Johnson, although his name is Adolph Pulitz, said he was not surprised by his arrest. "I expected it. Everybody with a gray car is being taken in," he said. He said he knew nothing of the Franks case, and that he was about to leave for Iowa. On the afternoon of the kidnapping, he said, he was motoring with a young woman.

MOTION TO REPORT THE FORD BID DEFEATED

Norris Bill to Operate Muscle Shoals Reported by Senate Agriculture Committee.

(By the Associated Press.) Washington, May 27.—The Norris bill for government operation of Muscle Shoals was reported today by the Senate agriculture committee by a vote of 11 to 4.

A motion to report the Ford bid was defeated 11 to 5. On the Norris bill, Senators Caraway of Arkansas, and Ralston of Indiana, both voted present.

Senator Harrison, democrat of Mississippi, champion of the Ford proposal, declared after the executive session that the committee's action meant that a vote could be taken in the Senate on both the Ford and Norris bills.

How 25 Per Cent. Cut Affects Earned Income.

Washington, May 27.—Earned income tax provisions in the conference bill start at the first bracket, while the House started at the middle bracket. If a man has a \$5,000 net earned income he is entitled to 25 per cent. reduction on all. Practically the same thing applies if it amounts to \$10,000 or less, actually earned.

If, however, his income attains to even one dollar more than \$10,000, he is only entitled to the reduction on \$5,000 of this and the 25 per cent. rebate is not given.

In other words, the first \$5,000 are deemed to be earned, and if the taxpayer has an income of \$10,000 or any other amount he gets the 25 per cent. on the \$5,000.

Baron Raps Three Modern Inventions.

London, May 27.—Baron Sumner, one of the British Law Lords, is not strong for applied science. In an address to the British Science Guild today he virgoriously denounced three of its modern triumphs.

They were the gramophone, which "has corrupted the musical sense of England and America for nearly a generation," the moving picture, which "does little except stimulate the passions and act as a soporific for the human mind," and the motor car, "that which I know nothing that has done more to increase a feeling of jealousy and dislike between the classes."

President Signs Rogers Bill.

(By the Associated Press.) Washington, May 27.—Signature by President Coolidge of the Rogers bill, recognizing the diplomatic and consular services, was announced today at the White House.

A persimmon that will not pucker the mouth has been found in Japan.
