Dr. Chas. Richmond, Speaking at Trinity College, Defends Prohibition Laws.

(By the Associated Press)

Ducham, June 4.—Dr. Charles Alexander, president of Union College, Schenectady, N. Y., today attacked Dr. Nicholas Burray Butler's stand on the prohibition question in an address at the commencement exercises of Trinity College here.

"To say that the 18th amendment has been imposed on the majority by a fanatical bloc is simply silly," he declared. "Every man who knows anything about the public opinion outside his own four corners knows that general sentiment is in favor of the present law. If this is not so, why do the politicians including Butler agree that a wet plank in the platform would mean defeat for any party that was stupid enough to put it there?

States Can Be Found to Act Against It.

Washington, June 3.—Senator Oyesman, who spoke and voted against the child labor amendment, was state child labor amendment when it was submitted to them. He said he would feel absolutely certain that as many as 13 states could be got to reject the amendment if it could be submitted directly to the people through constitutional conventions, for by that method the people would come to understand the nature of the amendment. In that way it would be the only question under discussion and the members of the convention would meet. knowing what the people wanted.

However, the amendment will not go to constitutional; conventions but to state legislatures whose members will be elected without regard to whether they are for or against the, amendment, said the senator. The fast is, he continued, the amendment will not figure at all in the campaign and the proponents of it do not intend that it shall. They want the people to forget that Congress ever passed it.
