IN AND ABOUT THE CITY

DIPLOMATS AND ROAD BUILDERS STOP HERE

Great Fleet of Automobiles Carrying Distinguished Guests Stopped at King Tut Station.

The forty or more South American diplomats, engineers and road builders who are making a study of road building in North Carolina as the guests of the North Carolina highway commission made a brief visit to Concord yesterday afternoon.

The great fleet of automobiles carrying the distinguished guests rolled into Concord shortly after 4 o'clock and they were directed by city officials and members of the county highway commission to the King Tut station where refreshments were served to them.

The visitors were enthusiastically greeted along the route that led through this city, and while there was no formal reception for them here numbers of persons lined the highways leading into and from the city.

Frank Crowell, manager of King Tut station No. 1, where the fleet was halted for refreshments, offered service de luxe to the members of the party. Ice cold coca cola, ice cream and sandwiches were served in abundance, and in addition there were huge tanks of ice water.

The party stopped in Concord en route from Salisbury to Charlotte. In the Rowan city the party was entertained at lunch and in Charlotte the party spent the night.

Co-operative Marketing.

Agricultural matters control all business. So declared the bankers of the State at their recent meeting at Asheville, and through the recommendation of their agricultural committee they voted, what the farmer needs, as the bankers see the situation, is better organized marketing facilities.

The Southern Manufacturers Association at their recent meeting in Atlantic City, endorsed co-operative marketing as best calculated to further the joint interests of manufacturer and farmer. The business men of the country everywhere are with the movement.

For the purpose of securing the co-operation of the business men of Concord and the members of the Co-operative Association of Cabarrus county in a campaign of the county for securing additional members, in order that the great work will be accomplished for which the State Association was formed and which our bankers, manufacturers and business men generally see to be so necessary, Mr. L. B. Blalock, general manager of the State Association, will address our citizens on Saturday, June 14, at two o'clock p. m.

Kannapolis Defeats Swift.

Kannapolis, June 7.—Kannapolis defeated the Swift Company's team of Charlotte here today by a 5 to 3 score.

The game was replete with the fielding miscues of both clubs. Only one earned run was credited to each team. Balowsky started on the mound for Swift but was wild and was replaced in the third inning by Bass, who hurled creditably the remainder of the game holding the home club to four hits.

Champion was on the mound for Kannapolis and pitched effectively excepting the first three innings when Swift garnered six hits for three runs. Dell, the former Danville second baseman, was on short for the visitors and fielded excellently. This is Swift's fourth defeat at the hands of the Kannapolis club. Today's game makes the fourteenth straight victory for the home club. Any team desiring baseball games are asked to get in touch with the local management.

Boys Camp in Blue Ridge Very Best.

The Y. M. C. A. camp for the junior age boys is to be one of the best in this state. The water is as clear and pure as can be for swimming. The drinking water is undoubtedly the best to be had anywhere. The tents will be floored and two or three make-shift shacks will be erected out of timber to take care of the youngsters in case of rain storms that might get too severe for comfort in the tents. There will hardly be any of these heavy rains at this time of the year. The mess hall will be a wooden shelter open all around the sides, and the meals will be served in regular fashion on tables erected for that purpose. The cook will be the best to be had, in order that the boys that the boys can be fed properly and that they may turn their thoughts to fun and sport instead of trying to help do the cooking. All boys that are interested should see Mr. Denny at the Y. M. C. A. this week. The boys will be carried up in trucks, and their baggage will be carried likewise. Every boy will be as safe as he would at home, and will derive benefit from the outing. Ten days for ten dollars. Get your name on the roll now. The boys leave June 10th and return the 20th.
