HEARST SEEMS TO BE FAR FROM PLEASED

With the Choice of the Democratic Convention.-Miss Margaret Wilson Congratulates Davis In Person.

Carrier Bresser (By the Associated Press.)

New York, July 11.—There remains some wonder as to the position of William G. McAdco in the campaign. The New York World prints a front page story suggesting that Mr. McAdoo may form another party, possibly with the aid of W. R. Hearst, whose newspapers have indicated that the publisher is far from pleased with the choice of the Democratic convention. Mr. McAdoo has maintained silence since sending a telegram to Mr. Davis, limited in effect to the words "Please accept my congratulations." Some of Mr. McAdoo's friends who doubt the suggestion of a bolt, point out that Mr. Davis has received by wireless the congratulations of Bernard M. Baruch, a warm McAdoo supporter in the convention fight, Miss Margaret Wilson, Mr. McAdoo's sisterin-law, and other active McAdoo partisans. Miss Wilson was presented to Mr. Davis yesterday, and gave her congratulations in person.

New York, July 11.—Although he is not a member of any church, Governor Charles W. Bryan, vice presidential nominee of the Democratic party, wishes to be classed as a Baptist, he said last night when questioned as to his religious affiliations. Mrs. Bryan and the Governor Schildren are members of the First Baptist Church of Lincoln, Neb., and Governor Bryan attends this church regularly with them, he said.

Governor Bryan's parents were Baptists, and the Governor was brought up in that religion, although he never formally affiliated with any church. The vice presidential nominee is a believer in what the chirch statas for, he said, but he is not a modernist.

Mr. Cox's first move was to throw a few more votes to Gov. Smith, hoping later to trade on them. His real fight, however, was on hehalf of John W. Davis.

He believes Mr. Davis should be the Democratic nominee and tried to get friends of other minority candidates to agree. His setback came almost immediately when he found he could not deliver his own State's delegation to Davis.

On the ninety-third ballot most of the Ohio delegates divided their votes among Gov. Smith, Senator Ralston and Senator Underwood.

In an eleventh-hour effort to swing Ohio's forty-eight votes to Davis, Cox conferred with the delegates before the

the convention rejected him.
In conversation with several supporters last evening Mr. Smith referred

Senator Ralston sent the following telegram to Mr. Davis:

"Mrs. Ralston joins me in warmest of congratulations to you and Mrs. Davis on your nomination for President. I shall do all I can for your election."

Senator Ralston expects in a few days to state at length his view on the Democratic platform and candidate.

Says Gompers In No Danger.

New York, July 10.—Samuel Gompers, president of the American Federation of Labor, is at the Hotel Shelbourne, cloney Island, to get the advantage of the salt air and rest and is in no danger of a serious illness, said W. G. Roberts, chairman of the federation's legislative committee, tonight.

"Mr. Gompers attended two conferences today," said Mr. Roberts, "and came here upon the advice of his physician to get the benefits of the salt air. He has had a nurse ever since he was at Lenox Hill hospital where he went some weeks ago for treatment for a general breakdown. There is nothing a larming in his condition."

Mr. Gompers is 74 years old and has been president of the federation since 1882. Concerning the part Smith played in making possible the selection of Davis, both the Governor and his friends prefer to have the convention's own record speak. It eloquently reveals, they believe, that Mr. Smith saved the party from inevitable disaster by preventing the nomination of William G. McAdoo.

On July 4th the McAdoo forces stood at their Marne when they pushed their vote of 530—within striking distance of a majority. If they could get a majority they proposed to make a powerful play to abrogate the two-thirds rule. They appealed to the Glass delegation from Virginia to join them, but the delegation stuck to Glass. For the next four ballots the McAdoo field marshals managed by one device or another to keep their strength around the same level while they used all the powerful arguments at their command to induce the Virginia delegation to come over.

But the effort was in vain. The Virginia delegates stuck to Glass when a turn of their 24 votes would have given a majority of the convention to McAdoo and possibly jerked the key from the log jam and permitted the McAdoo to the trush on to victory.

From that point the McAdoo vote steadily declined under the battering of the big drive of the coalition and only recovered some of its former strength when, spurred on by McAdoo himself, his workers raised its level again just before he released his delegates.

Every convention has its "inside story" of how it happened. This is the accepted explanation of how it happened in 1924.
