A "Bicycle Nest" Located. Wilmington, N. C., July 21.—What is believed by the police to be a "bicycle nest" was located early yesterday morning by Officers Tom Hall and B. W. Jacobs. In the rear of the house where the "nest" was located the police say that they found about a dozen bicycles and more than a cart load of tires and equipment.

When the officers approached the house a young boy ran away and the police state that the woman who occupies the house told them that the boy had been bringing bicycles and equipment there for some time. The police expressed the boy had been changing the wheels from one frame to another in an effort to disguise them.

A check up on the serial number of the wheels was attempted by Lieutenant J. J. Moore but he stated that most of the figures were too dim to read and that the name plates had been removed thus making it a difficult matter to find the owners.

Arkansas Lady Says Mother Gave Her Cardui and She Had No More Trouble of This Kind.

Lamar, Ark.—Mrs. Edith Seeman, here, recently made the following statement describing her experience in the use of Cardui:

"I had pain in my back and sides; and sick headaches and my nose would bleed. I couldn't sit up at all.

"My mother gave me Cardui. I took about a half bottle and at this... I was able to get up and help with the work. Next time I took it again, and now, after taking two bottles, I do not have any trouble at all at this time. I gained, my skin cleared up, I am healthy and strong.

"My mother took Cardui for a weak, run-down condition. It did her more good for weakness and nervousness than any medicine she has ever taken. She took six bottles in all. We recommend it and certainly know its worth." The foregoing is one out of thousands of statements which have been received from users of Cardui, the woman's tonic. If you are a sufferer from womanly ailments, try Cardui. It may be just what you need. At your dealer's. NC-156

Summer Hints For Young Mothers

Acute Indigestion Is A Food Problem

It is hard on a child to suffer indigestion in summer.

Usually there is fever and vomiting, apt to be very prostrating. One way to prevent such attacks is to see to it that the child does not eat heavily when over-tired.

Often the trouble may be traced to improper food, which should be stopped immediately. As for treatment do not forget that in indigestion, the organs have quit operating, and the bowel is full of undigested food.

Don't worry about the stomach—it will empty itself. But give a good clearing out treatment. Liv-on-lax will do the work thoroughly.

Then put the child on a very light diet for a few days. You can get a good-sized bottle of Liv-on-lax at the drug store for 30c.
