

Solons May Be Able To Finish Work This Week

The House Will Start Action On Port and Ship Bill Tonight and Speedy Action Is Expected.

LOCAL MATTERS MAY BE DELAYED

May Reach Agreement to Put Them Over Until January—Senate Finishes Its Biggest Task.

(By the Associated Press) Raleigh, Aug. 18.—With the prospects of being able to finish their work by the end of this week if agreement can be had to let local legislation go over until January, the North Carolina General Assembly today was in recess until 8:30 o'clock tonight.

The Senate was expected to receive the sinking fund amendment tomorrow and to give it its final reading on Thursday. In view of the fact that the matters for which the extra session was called will be disposed of this week, leaders today thought it probable that some kind of an agreement could be reached to adjourn at the end of this week.

One measure that gave prospect of a fight is "to come up this session, the bill for the reorganization of the courts for this session. An agreement has been reached to refer the matter to a commission composed of Chairman Frank Page, of the highway commission; Secretary of State W. N. Everette; Attorney General James S. Manning; Commissioner of Revenue, R. A. Doughton; and Chairman W. T. Lee, of the Corporation Commission.

Treasury Launches Drive to "Sell" Dollar Coin To Public

Washington, Aug. 16.—Aiming at saving more than \$1,000,000 wasted annually through mutilation and subsequent reissue of paper money, the government tonight launched a campaign to "sell" silver dollars to the public.

The United States Treasury will try to put into circulation from \$40,000,000 to \$50,000,000 silver dollars in addition to the approximate \$300,000,000 now in the hands of the public.

It is the Treasury's plan to invite the assistance of other government departments, banks and civic organizations throughout the country in acquainting the public with the desirability of accepting silver dollars as an auxiliary to the paper dollar. Acting Secretary of the Treasury declared.

The government during the last few years has been issuing an average of \$450,000,000 in paper dollars annually. The life of a paper dollar was described as about six months, costing a cent and a half each for issue. Silver dollars practically have an unlimited life and for every one issued in place of a paper dollar the government saves three cents a year.

PLANNING TO REFUEL PLANES AT SEA WHEN THEY HOP OFF AGAIN

Since No Landing Place Can Be Found at Angmagssalik the Planes May Be Carried On to Southern Greenland.

PROPOSED FLIGHT IS DANGEROUS ONE

But Air Service Officials Believe Planes Can Make It.—Will Have Oil Ship at Sea For the Airmen.

(By the Associated Press.) Washington, Aug. 18.—Plans are being made to re-fuel the army's world fliers at sea, if such a course becomes necessary in their projected \$25-mile hop from Reykjavik, Iceland, to Frederikshavn, Greenland.

A message today from the advance party to the army air service told of the proposal, and brought official confirmation of abandonment of the long search for a substitute landing place on the southern tip of Greenland.

"Angmagssalik seems hopeless because of ice," said the dispatch. The date of departure from Iceland was said to be uncertain. The proposed flight would comprise 12 hours in the air, considered here not an excessive test of the capacity of the planes, but yet one which necessitates extreme precautions.

Establishment of a floating base to re-fuel the planes is one of these precautions, officials said, since allowance must be made for possible adverse winds. Every confidence was expressed that the long jump would be executed safely.
