(By the Associated Pyrass)

New York, Aug. 27.—The cotton market opened steady today at an advance of 10 to 20 points. Renewed covering, combined with some trade buying and local support was promoted by relatively steady Liverpool cables and apprehensions that the weekly review of the weather bureau would comment unfavorably on crop prospects in parts of Texas and Georgia. Private reports of showers in Texas, however caused some selling on the opening advance. After selling at 25,08, October contracts eased off to 24.87 under realizing and Southern selling, presumably in the way of hedging. Opening prices were: October 25,00; December 24,65; January 24,62; March 24.89; May 25,03.
