To Protect The Dead

Everybody can not afford to erect elaborate and costly mausoleums of marble, but all who have the desire can secure equal protection for their beloved dead through the GALION

Metallic Grave Vault

When a casket is sealed within this vault before being placed in the earth, neither water nor air, vermin nor gnats have power to contaminate or harm the body in any way, and the cost of the protection is slight.

The Galion Vault may be inspected in our display room at any time.
