DEATHS FROM AUTO ACCIDENTS.
A total of 14,412 deaths from acci-
dents during 1923 caused by automobiles
and other motor vehicles, excluding
motorcycles, is shown in statistics
compiled by the census bureau covering
the death registration area of the

United States, which contains 87.6 per
cent of the total population. This total
represents a death rate of 14.9 per 100,
000 population, compared with 12.5 in
1922; 11.5 in 1921 and 10.4 in 1920.

California topped the list with a rate
of 32.6 deaths per 100,000 population,
and Wyoming was second with a rate of
24.1. Among 68 cities for which statistics
were gathered, Camden, N. J., led
with a rate of 35.4 and Scranton, Pa.,
was second with 29.2.

The statistics in which the death rate
from motor accidents was lowest was
Mississippi, where the number per 100,
000 was 4.4. Kentucky had the next best
record with a rate of 6.7. Among cities
where an estimate was possible, New
Bedford, Mass., was lowest with a rate
of 6.2 and Fort Worth, Tex., ranked
next with 6.3.

Figures by states with the total number
of killed and the rate per 100,000, in-
clude:
Florida 170 and 16.2; Georgia 259 and
8.6; Kentucky 166, and 6.7; Louisiana
158 and 8.5; Maryland 243 and 16.1;
Mississippi 78 and 4.4; North Carolina
258 and 9.6; South Carolina 119 and 6.8;
Tennessee 171 and 7.1; Virginia 200 and
8.3.

In the 68 cities listed there was a
total of 5,618 deaths. The number killed
and rate per 100,000 in these cities
include: Atlanta 55 and 24.7; Baltimore
131 and 16.9; Birmingham 49 and 25.0;
Memphis 46 and 27.0; Nashville 28 and
22.8; New Orleans 68 and 16.8; Nor-
folk 13 and 8.2; Richmond 26 and 14.4;
Washington 86 and 18.1.

The number of automobiles is increas-
ing daily, therefore the problem becomes
a more serious one from year to year.
We have not yet learned to cope with the
situation, but it is time something definite
were being done to make the people
realize the situation. Carelessness causes
most of the accidents, while disrespect
for the law causes many more.

It is practically impossible to pick up
a newspaper now without reading of a
fatal auto accident.

Milk is Nature's
Patent
MILK sounds like patent
medicine when all its virtues are cata-
logued. It is the oldest prescrip-
tion in the world—nature's pre-
scription for the building of
strong, healthy bodies; Nature's
revitalizer. Nature's maker of
rich, red blood. Nature's nerve
quieter. Nature's antidote for that
'tired feeling.'

Use more milk and be healthy.
You can always get it from us
and it is pasteurized, which
means Safe Milk.

Davis Again Declares for U. S.
Entry Into League of Nations

Washington, Oct. 20.—Democratic na-
tional headquarters here has received the
following statement by John W. Davis,
the party's Presidential nominee, reply-
ing to a direct question whether he favors
entrance of the United States into the
League of Nations.
'In my speech of acceptance opening
the Democratic campaign I expressed my
attitude on this question with complete
frankness. I said, speaking in the ab-
sence of terms of national interest, it was not
wise, or prudent, or safe that fifty-four
nations of the world should sit together
in conference on world affairs and Amer-
ica be absent.

'I said, while this nation could not
join the League of Nations helpfully un-
less and until the common judgment of
the American people supported such a
step, the day will come in my judgment
when we should see that both interest
and duty dictated the step.

'I do not believe that the League of
Nations is perfect, I do not believe that
it has assumed its final form. I be-
lieve in life and growth and custom and
habit. I am not concerned even about
the terms on which we shall appear at
the council table of the world.

'One of that appearance and out of
such conference in God's good time will
grow a friendly habit among men, the
custom of calm and reasonable discussion
and a proper yielding, not to force, not
to a super-state, not to command, but in
the language of the Declaration of Inde-
pendence itself: To a decent respect for
the opinion of mankind.'

MARRIED GIRLS UNDER 16

Chicago, Oct. 22.—All married girls in
Chicago under sixteen are to be com-
pelled to attend public school, says W.
L. Bodine, superintendent of compulsory
education of the board of education.
While Mr. Bodine admits that he dis-
likes to have to force husbands to get
their young wives off to school each day,
he says the man who marries a wife of
school age is the one who is responsible
for her attendance.

DINNER-STORIES

The Last Lap.
Dad: 'Stella, who sat on that newly-
painted bench in the garden?'
Stella: 'Harold and I.'

Profiting by Experience.
Kind Gentleman: 'You wouldn't be in
jail now if you had learned a business
and gone in for yourself when you were
young.'

Awkward.
North: 'Will you lend me ten dol-
lars? I am temporarily embarrassed.'

True to Type.
Alice: 'He looks very familiar.'

Hopeless Patients.
First Flapper: 'Say, what is an octo-
genarian, anyway?'
Next Flapper: 'Ad, I dunno. Why?'
First Flapper: 'Well, they must be an
awfully sickly lot, because whenever I
hear of one of them they're always dy-
ing.'

How Cuttle!
A dashing young heiress from Butte
found no suitable suitors to suit
Among Colonels and Majors.

Fair Motorist: 'Really, I didn't hit
you intentionally.'
Irrite Victim: 'What have you got
that bumper on your car for, if you
aren't aiming to hit some one?'

The boss was dictating to the new,
pretty and sophisticated stenographer.
Suddenly he stopped.
'Am I too fast for you?' he asked
anxiously.

Shapiro Turns on Coolidge for Failure
to Aid the Farmers.
Nashville, Tenn., Oct. 22.—Although
he said he has been a Republican, Aaron
Shapiro, general counsel for the National
Council of Co-operative Marketing
Associations, announced here that he
would support John W. Davis, the
Democratic Presidential nominee, this
year.

'The Coolidge Administration,' Mr.
Shapiro said, 'has shown an utter lack
of ability to deal with serious problems.
It has bungled the farm question. For
three and a half years it has had at its
command the great resources of the de-
partment of agriculture—sumcient in
themselves, without a single new law, to
deal with the marketing as well as the
production side of agriculture. It has
failed to meet this test. Now it talks of
investigating the farmer again. It is
folly.'

For the first time in the history of the
Reformed Theological Seminary of the
United States, at Lancaster, Pa., a girl
has become a student at the institution.
She is Miss Mary A. Dehant, of Han-
over, Pa. If the next general synod
grants women the right to become preach-
ers she probably will be the first to en-
ter the pupil of her denomination.
