Result of the balloting of last Tuesday hung on a slender thread today. Returns which have been coming in very slowly at noon today gave a majority of 2,776 in favor of the measure, with the vote from 856 precincts unefficially tabulated. The vote was:

Por G1,147; Against 58,381.

Returns from the more populous counties showed good majorities in favor of the measure, but the rural counties in most instances voted against it. Surry scounty with a majority of 2,500 against it, and Yadkin with 1800 against, show the largest opposition majorities.

The majority against the port terminals bill had grown to 40,000 on the basis of a few additional returns received today. The vote in 1,293 precincts out of 1,736 in the state was: 107,064 for; and 147, 841 against.

New York, Nov. 8.—An avalanche of buying orders from all sections of the country poured into today's stock market, seneding more than 20 issues to new peak prices for the year in the first 15 minutes of trading on total transactions approximating 150,000 shares. Railroads led the advance, but spirited bidding also took place for the standard industrial shares.

Tonant House Burns on Farm Near Allen.

Allen, Nov. 8.—A tenant house on the farm of W. F. Hagler was completely destroyed by fire about 6:30 o'clock Thursday evening. The fire was caused by the explosion of an oil stove.

The house was occupied by Mr. and Mrs. Paul Mullis. Mr. Mullis had gone to his father's when the fire started. Mrs. Mullis, her day old baby, and sister-inlaw, Mrs. Ben Flowe, were the only ones in the house at the time. When Mrs. Flowe saw the fire was beyond control she carried Mrs. Mullis from the building, in the excitement both forgetting the baby.

Post and Flagg's Cotton Letter.
New York, Nov. 7.—An extremely active market and the approaching bureau have had a dampening effect on speculative activities in cotton today. The market has been a featureless affair except for some early strength on less favorable weather prospects and more encouraging drygoods news both here and abroad. The trade still bought on a scale down only, refusing as yet to follow any advances, which had a discouraging effect on early buyers, who liquidated later in the session, causing a moderate decline in prices. Sentiment on the floor is rather bearish, due to so, many large crop estimates being issued, but this is counteracted somewhat by better goods news and the steady absorption of contracts by the trade on the decilnes.

Raleigh, Nov. 8.—Six prisoners on "death row" at the State prison have received reprieves at the hands of Governor Morrison today, it was announced at the executive offices. The reprieves, it was stated, were granted in order that the governor may have time to grant hearings to the prisoners, and make final decisions in each case, when he returns from New York in about ten days.

The cases of those receiving the reprieves were as follows:

Albert Byrd, Lenoir county, found guilty of an attack upon a woman in May, 1924, and sentenced to be electrocated on August 6, last, but was reprieved from time to time until November 18 next, is now reprieved until December 5, 1925.

CAREFUL PROGRAM

At Meeting Friday Night the Final Plans in Preliminary

Extra Session at Present—
Tax Reduction Will Await
the New Congress,

(By the Associated Press)
Washington, Nov. S.—President Coolidge went forward today with his post-election plans, the first of which was in operation yesterday with the appointment of the commission to investigate agricultural conditions.

A conference of the commission, comprising eight representatives of farming interests drawn from viertually all sections of the country, is expected to be called for the middle of this month.

Mr. Coolidge is of the opinion that present needs would not warrant the calling of a special session of the new Congress before its regular meeting in December next year. Nor does he believe it feasible to bring up again with the present Congress, which passes out of existence March 4, the problem of tax reduction.

The meeting held Friday night in the Y. M. C. A. was a great success. Those at the head of the hotel project expressed themselves as being more than pleased at the excellent turnout and the splendid spirit that was manifested. The room was crowded with eager, earnest and loyal citizens determined to do this job and do it well. In the minds of those who know there is absolutely no doubt that this project, which is the biggest and most important ever undertaken by Concord, will go over in the biggest way that any project, no matter what its nature.

Friday evening, R. H. Keltner, of The Hockenbury' System, Inc., director in charge of the camperign, gave a detailed explanation of the main points concerning which the workers desired knowledge. He also gave instructions just how to proceed to insure success. From the attitude of the organization it was very evident that they were getting the information they desired and that they were anxious to receive the instructions given. The sales demonstration staged by G. L. Patterson, F. C. Niblock, L. M. Richmond and T. D. Maness was a great success. Tax Question Not Opportune.

The President's position on legislation problems has given after a day devoted largely to conferences with congressional leaders. Senate spokesmen frankly expressed the hope that the President would not call a special session, declaring the country had shown no desire for immediate additional legislation. Farm measures, if necessary, they declared, would be passed at the short session while another year would, in their opinion, develop the possibility of tax reduction.

Senator Reed, Republican, Pennsylvania, a member of the Senate finance committee, declared after a visit at the White House that tax reduction loomed as a possibility to the point of placing the surtaxes below the maximum of 25 per cent, recommended by Secretary Mellon at the last session. He declared publication of the tax returns, which he endorsed, had shown that the high surtax rates were futile as a means of collecting taxes from large incomes, the returns, he said, showing holders of fortune in many instances were investing in tax exempt securities rather than pay the high taxes. exempt securities rather than pay the
