

MRS. BUZZI FACES SECOND TRIAL. Beautiful Woman to Stand Trial for the Second Time.

New York, Dec. 1.—Saved from the electric chair by the granting of an appeal, after months spent in the death house at Sing Sing prison, Mrs. Anna Buzzi, who has been described as the most beautiful woman ever convicted of murder in New York City, was arraigned in the Bronx County Supreme Court today to stand trial for the second time upon the charge of which she was once convicted and sentenced to die.

Mrs. Buzzi was to have been put to death at Sing Sing last August, but some weeks before the date set for her electrocution she was saved by the action of the Court of Appeals in reversing the verdict of the trial court. Late in June she was removed from the death cell and returned to the Bronx County jail, where she has been confined while awaiting the beginning of her second trial.

The crime of which Mrs. Buzzi was convicted and sentenced to death was the murder of Frederick Schneider, wealthy Bronx contractor, with whom she had lived for eight years. Schneider, who was the builder of the world's largest apartment house, was found dead in his automobile on a lonely road on February 26, 1923, with two bullets in his brain. Mrs. Buzzi, the following day, was held as a material witness. Then William Turc, her brother-in-law, declared Mrs. Buzzi had quarreled with Schneider, and had requested Turc to get her a pistol, saying "If I can't have Fred no one else will."

Evidence was introduced at the trial tending to show that Schneider had affected a reconciliation with his wife and was about to return to her, and that his furnished the motive for the murder. Throughout the trial Mrs. Buzzi declared her innocence, and openly charged Turc with the murder.

The case of Mrs. Buzzi and her sentence to death attracted country-wide attention because so few women have been convicted of first degree murder in New York, despite the fact that many have been tried on such a charge. Since electrocution superseded hanging as the death penalty in New York State the electric chair has numbered only two women among its many victims. The first was Martha Place, who was put to death in Sing Sing twenty-five years ago and the second was Mary Farmer, who

was electrocuted at Auburn Prison in 1906. Two women, convicted before the electric chair was installed in Sing Sing, were hanged. Harriet Dixon, a negress, was sentenced to death in New York City in 1920, but her sentence was commuted to life imprisonment by Governor Smith.

FATALLY INJURED WHEN BIG BUCKET FELL ON HIM

Youth at Work on Dam at Badin Is Crushed Underneath a Concrete Conveyor.

Badin, Nov. 30.—Kendrick Garrett, Jr., aged 18, son of Mr. and Mrs. K. M. Garrett, an employe of the Hardaway Construction company at work on the Badin dam, was seriously injured yesterday late when one of the large steel cement buckets dropped on him, while he was working on the spillway, 50 feet below the level of the dam from where hoisting engines were lowering cement.

He was at work when a pit by the cement bucket. The man at work on the edge of the spillway was signaling the operator to lower the bucket and did not see the boy, it is claimed. He was rushed to the hospital where an examination show that his right leg was fractured in two places, his chest crushed and head badly cut. Little hope for his recovery is entertained by attending physicians.

The Hardaway company whom the boy was employed is building a large additional spillway to the dam here.

Do the Children Go to School? Of each one hundred children in this state who entered school, 71 upon an average attended daily. In Dare, 90 per cent of the enrolled children went to school daily. The lowest average attendance is recorded in Scotland county, where but 60 per cent of the enrolled attended daily.

Seventy-three counties had less than 75 per cent of the enrolled children attending the elementary schools daily, and this notwithstanding the legal requirement that all children between the ages of 7 and 14 years attend school. It is a patent fact that poor attendance makes for high per capita costs.

With a record number of clubs in action the curling season has opened in Winnipeg with prospects of a banner season.

Used Kellogg's Bran 2 months—constipation gone after suffering 3 years

Three years of suffering with constipation. What happiness was his when Kellogg's Bran, cooked and crumbled, restored his health. But read his letter:

"Dear Sir: This is what I think of your crumbled bran. I would not be without it for anything in the world. For three years I used all kinds of medicines for constipation, and only got temporary relief. I was advised by a doctor to use Kellogg's Bran, and since I began using it I don't have to take pills or anything else. I have used it two months, and my constipation has left me. I feel better now than I have for three years." (The original of this letter is on file at the Kellogg Company, Battle Creek, Mich.)

Kellogg's Bran brings results because it is ALL bran. You can't fight constipation with half-way mea-

asures—with brans which are only part bran. It takes ALL bran to be 100 per cent effective. Because Kellogg's Bran is ALL bran it sweeps, cleans and purifies the intestine. It acts naturally—just as nature acts. It stimulates the intestine and makes it function regularly. It is guaranteed to bring results, or your grocer will refund your money.

Kellogg's Bran has a delicious nut-like flavor. Quite different from ordinary, unpalatable brans. You will like it as a cereal, sprinkled on other cereals, cooked with hot cereals, or in the recipes given on every package.

Eat two tablespoonfuls of Kellogg's Bran every day—in chronic cases, with every meal. Made in Battle Creek. Sold by all grocers.
