MIDLAND.

We wish The Times a happy and prosperous year for 1925. We have been having some very cold weather for some time and all of the people enjoyed Christmas fine. We have seen but very little drinking during the holidays. There is very little sickness in our neighborhood at present. Mrs. O. B. Furr has been right sick but her condition is improved now. Rev. J. M. Ridehour was laid up with a cold last week, but is better now. A. P. Widenhouse made a business trip to Monroe last Saturday. There was a quiet but interesting wedding Wednesday night, the 24th, when Miss Alice Tucker became the bride of Frank Pounds, of Concord. We wish for them a happy and prosperous life. Misses Bettie and Addie Yow, of the Wingate high school, are home for the holidays. Misses Annie and Veda Yow who are teaching in Stanly county, are spending the Christmas season with their parents, Mr. and Mrs. Julius Yow. Mr. and Mrs. William Misenheimer and Roy Misenheimer spent Christmas at home with Mr. and Mrs. Chas. W. Misenheimer. We were very sorry to learn of the death of our good friend, N. M. Williams. Almost everyone who knew him loved him. He was always jolly and would make you feel good in his presence. The family has our deepest sympathy. Mrs. W. H. Austin passed to her reward on Friday morning, the 26th. She was greatly loved by all. She was a Christian mother and wife. She was faithful to her church, and always tried to be there at her place. There is left to mourn their loss a husband, one daughter and one adopted son, who have our deepest sympathy. Just as the good friends were preparing to start with the body of Mrs. Austin and news came that Mr. John Kizer had passed away. He was a good citizen. A number of children and grand-children survive. He was married twice. There were nine children by the first union and seven by the second marriage. The deceased was getting very old, being nearly 92. We know not the day nor the hour when the death reaper will come and call us from time into eternity. We should all be ready to go when we are called. Never refuse to do a thing for the Master when you have a chance, as all are called to do something no matter how small. It is our duty to do our best. WOODPECKER.

EDUCATORS IN BUSINESS.

New York Times. Mr. J. B. Duke's \$40,000,000 trust fund for the promotion of education, religion and charitable works, and Mr. George Eastman's new gift of 12,500,000 to education, have in common one feature which distinguishes them from nearly all our famous public trusts and foundations. Ultimately they would seem to lay on the trustees a double duty, the administration of the trust funds for the purposes designated by the founders, and the management of the business from which the funds have been derived. Mr. Duke's gift includes three-fourth of his holdings in the Southern Power Company, with a present annual income of \$2,000,000 and the prospect of larger returns in the future. Mr. Duke recommends that his trustees refrain from changing such securities to exercise an intelligent supervision over the securities entrusted to their care; but it is the care exercised by any investor in the shares of a business with the management of which he has no direct concern. The oil business is bigger than even the enormous Rockefeller benefactions and the Steel Corporation is bigger than the Carnegie gifts. Different is the case of last year's \$50,000,000 gift by Mr. Milton S. Eisenhower for the endowment of the Hershey Industrial School at Harrisburg, Pa. That vast sum represents the accepted value of the Hershey chocolate companies as going concerns, and presumably depends for its future integrity upon the skill with which the Hershey enterprises are managed. Mr. Duke apparently looks forward to the management of his power interests by the trustees over a span of several generations. Provision in the deed of gift for setting aside 20 per cent. of the annual income toward the accumulation of a second capital sum of \$40,000,000 apparently assumes a period of about seventy-five years as the minimum of the continuance of the trust. That is not the principle on which the older foundations proceed. The Rockefeller Foundation has formally adopted the principle of distributing capital as well as interest and so liquidating itself out of business within a measurable space of years, leaving it for the more distant future to develop its own benefactions. In the Hershey, Eastman and Duke bequests there is apparent also a definite "home" touch which we do not associate with the earlier foundations. Mr. Hershey concentrated on the Industrial Home at Harrisburg, which shelters orphans from the State of Pennsylvania. Mr. Eastman has given generously to Massachusetts "Tech" and Southern colleges, but Rochester University has been the chief beneficiary of his largest, and in his latest statement it is with Rochester as the community in which he has lived and worked and prospered that he is chiefly concerned. Mr. Duke is concerned with the Carolinas, where his power interests lie. Thus the neighbors profit by vast fortunes that were built up far beyond the precincts of the neighborhood. All over the United States the children have nibbled Mr. Hershey's chocolates, Chinese and Hindus press the bulbs of Mr. Eastman's Kodaks, Australia and Nova Zembla no doubt have contributed their puffs to Mr. Duke's tobacco fortune. But it is natural enough that in the evening of life a man's thoughts should turn most often to the home folks.

Run Her Most Prominent Citizen Off.

Stately News-Herald. And they've kept on until they have succeeded in running their most prominent citizen out of town. That's what Elizabeth City has done. W. O. Saunders, editor of the Elizabeth City Independent, has been dogged as few other men in this state have, and by home folks, too. And it was mostly because Saunders broke into the northern magazines and has become known nationally as a powerful writer. Jealousy got to work, and now the men that Elizabeth City needed most, the men who could have done more with one stroke of the pen to put Elizabeth City on the map than any other citizen of that town could do in a lifetime, has accepted a position with Collier's Weekly, and will leave his home town to serve elsewhere. What a pity that a North Carolina town failed to take advantage of having such a powerful writer as a citizen. But they have run him off, and that's North Carolina's way. We just can't keep our big men. We positively refuse to keep them.
