BEBE DANIELS GIVEN INSTRUCTION IN THE ART OF BILLIARD PLAYING

BEBE DANIELS has just finished an intensive series of lessons in billiard playing. When she began everybody in the room moved out of the way of her cue, but in a few days she had some of the regulars on the run around the Fame mount Long Island Studio and was beginning to make difficult shots. When Frank Tuttle began "Miss Bluebeard" he never thought to ask his star if she could manage late the cue. Not until she saw the billiard table installed did she remember that she was a novice. It was then that Mr. Tuttle (standing on the left) and the assistant director began showing her the finest points of the game.

Courtesy Made Part of Curriculum in Beauty Schools

GOOD MORNING!
POLITESSE

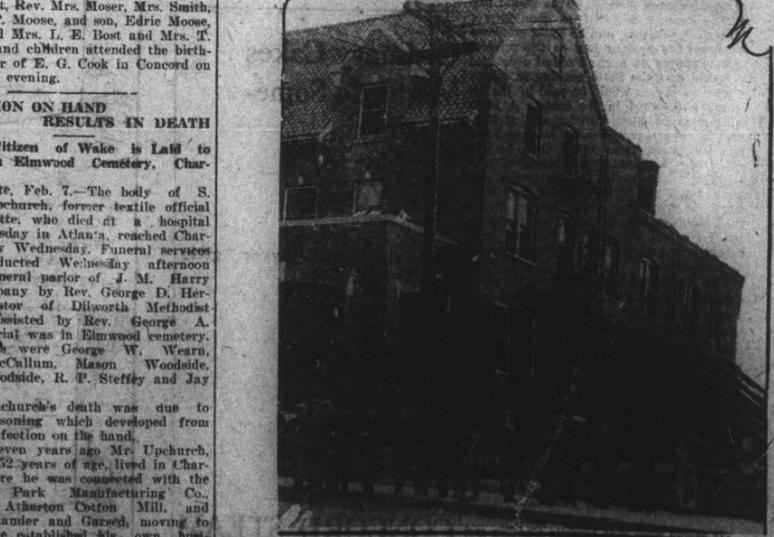

CHICAGO.—Courtesy is as important as expert technical and practical training in maintaining beauty culture in the dignity of a profession, according to Emily Lloyd, founder of the National Schools of Cosmeticians. Politeness exhibited by students in these schools toward each other and their instructors means that patrons will be handled with deference and respect when students go out to shops of their own.

"Politeness has always been a fetish at Marinello," declared Miss Lloyd, who is head of this great beauty institution affiliated with the National Schools of Cosmeticians. "We want all our operators to be pleasant and polite, not gushing or obsequious. Consequently we devote a great deal of attention to the subject of courtesy in our ten schools.

"We believe no girls' boarding school has more rigorous requirements. Our classes rise at the entrance of a teacher or an executive. The students are taught to assume an attitude of semi-military attention when talking to instructors. They are taught to talk with courtesy and businesslike directness over the telephone. They are shown how to receive patrons with punctilious politeness.

"One of the most effective ways we have found of going this is through the medium of motion pictures. Here the student is shown both the right and wrong way of conducting herself at all times. No amount of lecturing on the proper way to descend stairs or equal a picture of this action. With the introduction of pictures in this phase of our work, we are able to turn out operators who not only performed and adopt in all the arts and treatments of the beauty shop but schooled to a courtesy as finished as that to the manner born."
