HONOR SYSTEM WORKS WELL IN HIGH SCHOOL.

Cheating Practically Eliminated From the Daily Recitations and Examinations.

Conclusive proof has been given, say high school teachers, that High School pupils can begin and operate an honor system among themselves and, as a result, almost eliminate all forms of cheating both on daily recitations and on examinations.

This demonstration about the ability of High School pupils has been conducted here in Concord and in the year and a half since its institution, has been unusually successful. All forms of dishonest work have practically disappeared from the High School, and the pupils are better satisfied in it, since they had a voice in installation and operation of the honor system.

So well has it worked during the first half of the present school year that there has been a meeting of the honor council once and this was an alleged cheating on a daily recitation which was not possible to prove. In fact the council found the student not guilty.

The idea of having an honor system in the Concord High Schools was not a new one. It had been agitated for years and, despite the fact that the teachers were anxious to have it placed in the schools, there was no backing on the part of the student body, which was deemed very necessary to a successful administration of this system. Therefore, it was not put in the schools.

However, during the early days of the school year of 1923-24, the H-Y boys had a meeting and afterward asked Mr. Hinton McLeod, principal of the High School, if he would permit them to start the honor system in the school. Mr. McLeod called a joint meeting of the faculty and the H-Y Club, in which the proposition was fully discussed. Later, there was a joint faculty-student meeting and it was decided that the honor system should be tried.

The students then had elections, selecting three representatives from each class to act on the Honor Council, the directing committee of the organization. This board was duly sworn in and impressed with the seriousness of the office which the members held and during the remainder of the year served with the greatest faithfulness, say members of the faculty.

Several students were tried before the Council and were dealt with severely. Members of this body seemed to be cognizant of the fact that they were being watched by the other students and did their best to perform their duties in an acceptable manner. No student was expelled for the entire year but one student was suspended for several weeks and others were given lesser punishments.

In the operation of the honor system, every student is supposed to report to the council infractions of the ordinary rules of honesty seen in the school. The council then takes the matter up with the student accused and that student has a right to make a statement in his own defence. Whatever disposition the council makes in the case is accepted by the faculty as final.

The council for the present school year is as follows: Eighth Grade—Frances Boger, Coy Phillips, Marie Barabard, and George Oehla. Ninth Grade—John Brown, Evelyn Goodman, Julia Rowan, and Mary Cannon. Tenth Grade—Blanche Stewart, Frank

Arnfield, Beesie Webb, Harold Davall, Annie Guffy Dayvault, and Brown Lee Goodman.

Eleventh Grade—Hiram Caton, Fred Helms, Theo Harrison, George Howard, Helen Lee and Mildred Probst.

TWO CANDIDATES ENTER RACE FOR MAYORSHIP

Mayor Womble Announces That He is a Candidate For Re-election.—C. H. Barrier Entered the Race Yesterday.

C. H. Barrier started the ball rolling in the mayoralty campaign in Concord and the general public wonders how many other candidates will give impetus to the movement. Mayor Womble announced today that he is a candidate for re-election and rumors are plentiful that other candidates will enter the field.

Mr. Barrier made his announcement yesterday and Mayor Womble followed suit today, both candidates seeking the Democratic nomination. It was rumored here some time ago that both men would be candidates and the announcements set at rest any uncertainty in the matter.

Who else will enter the campaign is the question the public wants settled now. For some time there have been rumors that A. F. Hartsell, former mayor, would enter the field, and at the same time friends of John L. Miller, former postmaster, have insisted that his name would be submitted to the voters at the Democratic primary.

However, these rumors have not been so persistent of late. It is hinted in some quarters that Mr. Barrier and Mr. Womble made early announcements with the hope that such action would keep other candidates from opposing them. Time only can tell whether or not these tactics are successful. B. E. Harris, Jr., has been prominently mentioned as a likely candidate, but so far he has not made an announcement as to what are his intentions.

For the past several years there has been little interest in the mayoralty campaigns in Concord. Mayor Womble had no opposition among the Democrats two years ago and the Republicans did not try to offer a candidate in face of the strong democratic vote in the city.

What the Republicans will do this year is problematical. They were overwhelmingly defeated in the county last fall and it is the general belief that they will not enter a ticket in the campaign for city offices. Concord was Democratic even in the years when the county went Republican and with the Democrats in control in

Night Coughing Stopped Quickly By Simple Treatment

Thousands who are troubled with persistent coughing at night, which by robbing them of valuable sleep weakens their systems and lays them open to dangerous infections, can quickly act to prevent this danger through a very simple treatment. People who have hardly been able to rest at all on account of coughing, finally find they can sleep the whole night through undisturbed often the first time they try.

The treatment is based on a remarkable prescription known as Dr. King's New Discovery for Coughs. You simply take a teaspoonful at night before retiring, and hold it in your throat for 15 or 20 seconds before swallowing it. We have not known of a cough that has not followed with water. The prescription has a double action. It not only soothes and relaxes the throat, but it quickly loosens and removes the phlegm and congestion which are the direct cause of the coughing. The result is you usually sleep soundly the very first night, and the severe cough condition goes in a very short time.

The prescription is highly recommended for coughs, chest colds, influenza, and bronchitis, and is wonderful for children's coughs and whooping cough—no harmful drugs. Economical, too, as there is only one teaspoonful. At all good druggists. Ask for

DR. KING'S NEW DISCOVERY FOR COUGHS

the county again, due to majority's averaging about 1,000. It is believed the Republicans will make no effort to elect a full city ticket. However, it is possible that candidates for aldermen may be presented by the Republicans in those wards in which they have the greatest strength. However, the Republicans have made no announcement of their intentions, and what they intend to do probably will not be known until election time.

So far no candidates have come out for places as aldermen. It is known, however, that efforts will be made to induce the present board members to offer themselves as candidates again and it is believed these efforts will be successful. It is reported in reliable quarters that two of the aldermen are undecided about making the race but friends are expected to prevail upon them to become candidates.

Mayor Womble and Mr. Barrier already have friends at work for them and it is believed each intends to wage a very active campaign.

CATHERINE DAVIS IS INJURED BY AUTOMOBILE

Struck When Grip to Handle Slips Off Her Bicycle.—Accident Unavoidable.

Catherine Davis, the nine year old daughter of Mr. and Mrs. J. E. Davis, was painfully bruised yesterday when she was struck by an automobile driven by a negro and knocked off the bicycle she was riding. The accident occurred on Spring street directly in front of Central Graded School and was, according to spectators, unavoidable.

The little girl with her companion, Lorraine Blanks, was riding around after school to get some exercise. For the novelty of the thing, they exchanged bicycles. Catherine did not know that one of the handlebars on Lorraine's bicycle was loose and as they rode, one of the rubber grips suddenly slipped off, causing her to lose her balance and ride di-

rectly across the street. As she did this, the negro was coming in the opposite direction and seeing her dart across the street he put on the brakes and pulled over, trying to stop and get out of her way at the same time. He was unsuccessful, despite the fact that he slid both wheels and droye on the sidewalk. When he hit her, she was knocked clear of the automobile onto the sidewalk and the bicycle was broken into

pieces. Catherine was immediately taken home, where she was given a medical examination. No bones were found broken and except for the bad bruises, she was uninjured. No action was taken against the negro, since it was agreed that it was unavoidable on his part.

LONG SUFFERING Birmingham Lady Tells of Her Remarkable Recovery Following Use of Cardui. "First Health in Years."

Birmingham, Ala.—Mrs. Florence Moore, 2309 Thirty-third Ave., North, this city, says:

"For many years I suffered with female trouble of every description. I was told an operation was necessary to save my life. At times I was not able to stand on my feet. I have cooked many a meal sitting, while my husband and children handed me the things with which to do it. . . .

"I had given up all hope of ever being well again. . . . It is a sight what women will suffer before they will listen to the advice of others. Several of my friends had taken Cardui and been benefited by it. They told me about it, but I thought my case was hopeless. Finally I told my husband to get me some Cardui and I began to take it. After I had taken the first bottle I saw that I was improving. I took eleven bottles at that time before I was cured, but as it was the first health I had had for years I was thankful to do it. "I can't praise Cardui enough." At all druggists. NC-167

GRANGER ROUGH CUT PIPE TOBACCO

You never tasted such rich mellowness as Wellman's method puts in this tobacco

Back about 1870, James N. Wellman discovered a secret tobacco process which won instant and widespread fame. It yielded a fuller bodied richness, milder and fragrant which just seemed to go with a pipe. No one else ever knew his secret until we acquired Wellman's Method and by its means made Granger Rough Cut
