FORTY YEARS OF THE SAME
NEWSPAPER.

This week marks the fortieth anniversary
of the writer as editor and publisher
of The Times. March 1, 1885 he
came to Concord and with his brother, C.
F. Sherrill, bought a two-fifths interest
in The Concord Times, the other three-
fifths being owned by H. J. J. Ludwig,
H. McNamara and C. A. Pitts. At the
end of a year he purchased the entire
paper and since that time has been sole
publisher and owner.

WHERE THE BOND MONEY COMES
FROM.

The editor of the North Carolina High-
way Bulletin recently gave full facts
relative to the cost of the hard-surfaced
highways in the State, pointing out that
"not a single taxpayer in North Carolina
has paid a penny more in State, county or
city taxes than would have been paid had
not the State issued bonds for \$65,000,000
for permanent road improvements."

the payments are \$1,500,000 in excess of
the requirements.
During the past four years the number
of motor vehicles per mile of State
highway has increased from 24.6 to 40.3
and the number per square mile of area
from 2.8 to 6.3. There is at present one
motor vehicle to every 8.9 people while
in 1920 there was one vehicle to each
18.8. The number of miles traveled per
year per car is considerably in excess of
that traveled in 1920.

As to the farmer who does not drive
or own an automobile and owns a farm
on an improved highway, The Bulletin
makes the following very timely com-
ment:

"It is entirely possible that his county
tax may be slightly higher—not on ac-
count of having to help pay for the bond
issue for road construction—but because
of the fact that his property has increased
in value several times over by reason
of being located on a good road. This
same farmer, if he owns a car, is en-
abled to reach the nearest town more
quickly and at less expense with his
products thereby adding to his income,
and he is enabled to keep in closer touch
with his neighbors and with the outside
world, thus bettering his social life. He
is able to reach his church and his chil-
dren to reach their school. These are
factors the value of which cannot be ex-
pressed in terms of dollars and cents."

CAN SEARCH AUTOS WITHOUT
WARRANTS.

Chief Justice Taft delivers for the Su-
preme Court of the United States the
opinion that Federal prohibition agents
may lawfully stop automobiles and other
vehicles and search them for contraband
liquor without a warrant. It was the
intent of Congress, the Chief Justice
stated, to make a distinction between the
necessity for a search warrant in the
searching of private dwellings and of au-
tomobiles, and that distinction was con-
stitutional. There is no provision in the
Constitution which denounces all searches
or seizures without a warrant, he said,
adding that it prohibits only "unreason-
able" searches or seizures.

Chief Justice Taft stressed the differ-
ence between a search of a store, dwell-
ing house or other structure "in respect
of which a proper official warrant readily
may be obtained, and a search of a ship,
motor boat, wagon or automobile for
contraband goods where it is not practicable
to secure a warrant because the vehicle
can be quickly moved out of the locality
or jurisdiction in which the warrant
must be sought."

The mere manufacture of liquor can
do little to defeat the prohibition amend-
ment unless the liquor can be distributed
for illegal sale and use, the Court as-
serted, and for that reason it was neces-
sary that the transportation of the con-
traband be prevented.

The ruling is considered one of much
importance and is expected to have much
influence on the enforcement of the pro-
hibition laws.

Farmers Getting Ready to Plant Clover.

Raleigh, March 4.—"Many farmers, es-
pecially those residing in Piedmont and
eastern North Carolina, are now getting
ready to plant clover," declares E. G.
Blair, extension agronomist of State Col-
lege. "Before doing this, they should
make up their minds to buy and plant
only the best grade of seed possible. As
a rule, such a grade sells at a higher
price than the lower grades but the farmer
really pays less for each pound of
seed when he buys only the best."

Mr. Blair cautions growers to be sure
that they know the percentages of purity
of the seed, how well they will germinate,
what kind of weed seed it contains,
and where the clover seed were grown.
He states that the purest clover seed
ever grown are no good if they will not
germinate 100 percent the year expensive
if they contain a lot of troublesome weed
seed. Field tests made in North Carolina,
he stated, show that red clover seed
grown in the United States will survive
winters which kill all plants grown from
foreign seed.

Mr. Blair stated that the seed labo-
ratory of the North Carolina department
of agriculture has set 98 percent as the
standard of purity and 90 percent as the
standard for germination. Samples were
sent in to this laboratory last year ranged
from 45.8 to 99.44 percent in purity and
from 6 to 98 percent in germination.
This, says Mr. Blair, shows the need for
farmers to look carefully after their sup-
ply of red clover seed.

BROTHER AND SISTER
MARRIED AS COUSINS

Father Asks For Arrest Following Cer-
emony But the Couple Had Then Dis-
appeared.
Cumberland, Md., March 4.—"Steve
Balough, 21; Helen Balough, 18, cousins,
Johnstown, Pa.," read a marriage license
issued in the local bureau today but, ac-
cording to a telegram to authorities here
today, the couple are brother and sister.
They were married by the Rev.
P. E. Blackney, pastor of the Second
United Brethren Church.
The wife from Johnstown asked local
police to detain the couple, who were
said to be 10 and 17 years of age, re-
spectively. Deputy Clerk Thomas A.
Leonard, who issued the license, ques-
tioned them closely at that time. At
first they denied that they were related,
but when advised that the laws of the
state permitted the issuance of licenses to
relatives they said they were first
cousins. They have not been seen since
the ceremony.

Walter Johnson to Try His Hand in Real
Estate.

Washington, March 5.—Walter John-
son, whose right arm was a potent factor
in the rise of the Washington Americans
to the baseball pinnacle last year, has
virtually abandoned aspirations of own-
ership in a minor league club and in-
tends to take up residence in Florida as
a real estate operator two years hence.
Walter made his statement at the
Tampa, Fla., training camp in explain-
ing why he signed "atvo instead of a
one-year contract with the club the other
day, stating he already had purchased
some property in the Alligator state.

ON ROAD TO BONEYARD

"I have just finished a treatment of
your wonderful remedy and can say it
has done wonders for me already. For
the past five years I have been unable
to eat any but the lightest food and that
but sparingly, as any food caused me to
bloat with gas. I was reduced to a
skeleton of ninety pounds, and was on
the road to the boneyard. A friend in
Birmingham sent me a bottle of Mayr's
Wonderful Remedy, which I took, and
I am sure it will entirely cure me of
my trouble, judging from what it brought
from me and the way I feel."
It is a
simple, harmless preparation that re-
moves the catarrhal mucus from the in-
testinal tract and allays the inflamma-
tion which causes practically all stomach,
liver and intestinal ailments, including
appendicitis. One dose will convince
or money refunded. At Gibson Drug
Store and druggists everywhere.

The Creosote Throat and Bron-
chial Preparation

For throat, croup, whooping
cough, catarrhal bronchitis, bron-
chial, asthma and especially
coughs of long standing and deep-
seated colds, there is nothing bet-
ter.

If you are debilitated and in a
rundown condition, are suscepti-
ble to colds or have weak lungs,
use GLYCA-PYNA as a tonic.

Long Time Between Bites.
Miss Inquisitive—They tell me you are
a very persistent fisherman. Mr. Rodde.
What's the longest you ever waited for
a bite?
Mr. Rodde—Two years!
Miss Inquisitive—My goodness, do you
mean years—two whole years?
Mr. Rodde—Yep! I got married and
couldn't get away.

More light can now be turned on af-
fairs at Washington. The authorities
have ordered the price of electric cur-
rent reduced from 10 cents to 7 1/2
cents a kilowatt-hour.

Georgia's Post Laureate.

An official proclamation by Governor
Walker, of Georgia, named Frank L.
Stanton, author and writer, as state poet
laureate. Stanton, who edits a column
in an Atlanta paper, is the author of
"Mighty Lak' a Rose," "Just a Wearin'
for You" and "Sweetest Lil' Fellow."

A sausage manufacturer in Milwaukee
built a reputation for a certain brand of
sausage.

A sanitary inspector called one day for
an analysis.

"Don't you use some horse in this
make of sausage?" asked the inspector.

"Yes, I use some," was the reply.

"How much?"

"Well, I make it a 50-50 proposition
—one horse, one rabbit."

Teacher: Give me a sentence using
the word "notwithstanding."

Johnny: I wore out my pants but not
with standing.

A very small boy was trying to lead
a big St. Bernard up the road. "Where
are you going to take that dog, my little
man?" inquired a passerby.

"I'm going to see where—where he
wants to go, first," was the breathless
reply.

Dominance Among Animals.

His Neighbor—Why don't you get rid
of that meanly hound of yours? He's
only a mongrel and nothing but a nuis-
ance.

Mr. Meekmild: I wouldn't part with
him for any money. Nuisance he may
be. Mongrel he is. But he's the only
member of my household that respects
and obeys me.

The most remarkable figure in wom-
en's hockey today is Miss Mabel Bryant.
She played her first game for England
nearly twenty-four years ago. Last year
she appeared against Scotland, Wales
and America, and at present she is en-
gaged in making an exhibition tour of
South Africa.

Origin of "Bull Moose."

The Pathfinder.
Question: Why was the Progressive
party in 1912 called the "Bull Moose"
party?

Ans: This nickname arose from a re-
mark made by Theodore Roosevelt. When
asked how he felt he replied: "I feel as
fit as a bull moose." It was taken up by
cartoonists and journalists and the "bull
moose" soon became the emblem of the
Progressive party and took his place
alongside the G. O. P. elephant and the
Democratic donkey. This was not the
first time that Roosevelt had compared
his condition to that of a bull moose. As
early as 1874, in a letter written at Sag-
amore Hill to Henry Cabot Lodge, Ted-
dy used this sentence: "However, except
for feeling a little blue, I passed a de-
lightful fortnight, all the time in the open,
and feel as rugged as a bull moose."
