Gay! Sparkling! Youthful! —HATS—

With a new way and a new mode, that is just as alluring new and different as this year's daffodils from last year's, fashion proclaims the reign of Spring. And in her wonderful assemblage there are saucy high crowned Peter Pans, and Cloches, demure little Pokes, intriguing Picture Hats and many, many innovations undeniably smart and becoming. So varied are the seductive ways that Paris has found for adorning the new chapeaux that neither limited space nor limited eloquence permit adequate description.

SEA DREAMS.

Gold and Black. She never saw the wide and gleaming sea. So far she dwells from any tidewashed shore. But she has often dreamed what it would be. To see tall ships and hear tall breakers roar.

The little sailor on the garden gate, Smiles down and swings his arm in every breeze; What wondrous tales, she thinks, he could relate. Of foreign lands touched by far, shining seas.

The vague, hot scents of mignonette and box, Drift on soft airs across the garden green; The same slow wind that stirs the holylocks, Drives those tall ships that she has never seen.

It affords the permanent protection we desire for the remains of our loved ones. (Stone, brick and concrete vaults let water in and hold it.) We supply the Clark Grave Vault because it has proved to be the most perfect form of protection. It is guaranteed for fifty years.

Do's and Don'ts For the Child.

Progressive Farmer. How many mothers make a careful study of the habits of their children in order to eliminate the bad ones and encourage the good. Here are a few questions and suggestions furnished by government home-economics specialists that will aid you in studying the habits of the little ones.

1. Does your child fret about what he eats? Perhaps you are making him take the part of an actor in a play and every child enjoys attention.
2. Do you often talk about his eating habits before other people? A child begins to feel important and desires attention.
3. Do you teach him to feed himself as soon as he is old enough? Let him spill a little food; do not punish him for it.
4. Are other members of the family setting an example in good habits for the child? A child tries to imitate older people.
5. Do you select simple, nourishing, easily digested foods and cook them correctly?
6. Has your child had a taste of foods of which only adults should eat? Examples of these are tea, coffee, sweets, and pickles.
7. Do you make foods attractive to the child? A child likes color.
8. Do you serve too large quantities?
9. Is your child eating at regular times? Eating between meals overworks the stomach.
10. Does the child sleep poorly?
11. Is he irritable? Does he fear? Then the nervous system is not healthy.
12. Do you realize that a child who is angry or worried cannot digest food properly? Do not force a child to eat but try to overcome the emotion by a more healthy attitude of mind.
13. Do not create an unpleasant scene at the table.
14. Do not arouse jealousy by not giving to one child what another child has been given. If old enough, the child should know why the food is refused him.
15. Do you manifest authority by forcing a child to eat because you think he should? This leads to anger and obstinacy with inability to digest food.

Is Concord a Hick Town?

When we were purchasing our Spring Shirts from the Berger Shirt representative—that gentleman displayed a certain line of special novelties and said with a well meant word of caution—

"I'd go careful on these if I were you—these patterns were meant only for the largest cities."

The shirts were stunning—and instead of being careful—we bought a carload. "Concord isn't a hick town," we told him. The Shirts are here—Let's see who was right.
