**Camping Goods of All Descriptions.** Concord Army & Navy Store. 10-5t-p.

**THE RUTH-KESLER COMPANY REMODELING STORE**

Local Shoe Retailers Plan to Have One of Most Modern Stores in State.

A remodeling and general renovation has just been completed at the Ruth-Kesler Shoe Store on South Union street which makes it one of the most attractive stores in the city and one of the most complete stores of its kind in the state.

The Ruth-Kesler firm is a relatively new one in the city, coming to Concord last October. The members of the firm, W. H. Ruth and J. E. Kesler, have had years of experience as shoe retailers. They were in business in Salisbury prior to moving to Concord. In addition to this, Mr. Ruth was a shoe salesman before going into the retail business.

When Messrs. Ruth and Kesler came to Concord, they took over the store which was occupied by the S. S. Brown Shoe Co. They immediately did some work on the store but the major part of the work has been within the last several weeks.

The store which was formerly in one long room, has been divided. The front portion which takes up over half the store is used for keeping shoes actually needed in serving customers. The rear of the store is used as a stock room, and in addition is to be used as a repair room.

The front part has been repainted and equipped with new furniture. New shelves have been installed in which to keep the shoes. These shelves are much lower than those used and no longer necessitate the use of a ladder in getting to the top. The top of these shelves is to have a line of palms which will add to the beauty of the store. At the bottom, plate glass mirrors are to be installed to assist the customer in viewing shoes he tries on.

The decision between is partially of lattice work in which is to be entwined a running vine covered with artificial roses. A novel idea has been used in the installation of display boxes in the center of the shoe shelves. These boxes are illuminated and have in them space enough for several pairs of shoes for exhibition.

The store which Ruth-Kesler now occupy has been used for a number of years as a shoe store. Before the S. S. Brown Company took it over, J. C. Pounds was owner. Pounds-Moser was the name of the store before this.

**WRESTLING MATCHES AFFORD ENTERTAINING EVENING**

Number of Entries Much Smaller Than Expected, Sickness Being the Main Cause.

Though the wrestling matches at the Y Friday night fell short of the advertised number, the seven which were held kept the spectators entertained for the greater part of the time and were unusually well contested.

Sickness was the principal cause in keeping down the number of entries. Neither Harrisburg or Rocky River sent its quota and the only representative from Charlotte was W. A. Denny, brother of the local physical director, J. W. Denny.

The best match of the evening was the contest between Heglar, of Rocky River, and Bruton, of Concord, Heglar winning the match on time. Both men kept the audience tense from the time they started when Heglar threw Bruton over his shoulder sprawling on the mat. Bruton though almost thrown at the last, had the advantage and was awarded the decision on time.

The first match, between Harwell, of Harrisburg, and Alexander, of Rocky River, in the 119 class was won by Alexander in five minutes and ten seconds. Easley threw Verbal G in eight minutes after it looked as though the contest would have to be called on time. Caldwell won on time from Wallace in a match which was entertaining for part of the time and slow for the other part.

Denny, J. W., the local physical director, made short work of his brother from Charlotte and succeeded in winning by a fall in two minutes and fifteen seconds. Anthony was forced to stop his match with Verble on account of sickness. Verble winning on a forfeit. J. W. Denny threw Watson in two matches in a rather easy fashion.

Before the matches started, a basketball game and a boxing match were given as preliminaries. The basketball game was won by Sunderland Hall from the local intermediate girls, the score being 17-13. The boxing match was held between Earl Blackwelder and Roy Lippe for three rounds. Earl Blackwelder easily having the better of the argument.

The matches at the Y Friday evening were attended by only a fair sized crowd.

**Costliest Map in the World.**

Paris, March 14.—The costliest single map in the world is in the Louvre. It is naturally a map of France. The ground work is of polished Jasper; all the principal towns are represented by precious stones and their names are inscribed in gold. The rivers are strips of polished platinum, and the eight-seven Departments, which correspond to the States of the American Commonwealth,

are arranged in a wonderful scheme of blazing gems.

The map was made in Russia, and was a gift to France presented by the Czar at the time of the Franco-Russian alliance, though it is only one square metre in size its value is estimated at over a million dollars.

New German stamps are to bear the portraits of noted Germans.

**THE PRESBYTERIAN EVERY MEMBER CANVASS SUNDAY**

The Sum of \$4,750,000 to Be Asked For Benevolent Causes.

It is estimated that the membership of the Southern Presbyterian Church is now not less than 438,000, and on Sunday next the men, women and children who constitute this membership will be called to pledge \$4,750,000 which is the budget for benevolent causes of the church during the coming year, beginning April 1st. Special appeal is being made from the pulpits and from the stewardship committee of the church at this time urging the membership to a fuller realization of the stewardship of life and possessions and to more liberal giving in the making of these pledges, than has yet been true in the history of the church.

The general assembly has committed to the stewardship committee the direction of the every member canvass which will be made on next Sunday to secure pledges of \$4,750,000 for benevolent causes.

Referring to this canvass, the general secretary of the stewardship committee, Rev. M. E. Melvin, D. D., of Chattanooga, Tenn., asks this question, "Is the goal too large or too small?" and in answer he says: "There are those who take each view. When we consider the purchasing ability of these 438,000 Presbyterians in all ordinary things—real estate, automobiles, clothes, living standards, investments, insurance; when we take note that per capita wealth has increased threefold in the last 25 years; that in one southern city, an average one, the total bank deposits were \$12,000,000 more in December 1924 than in December, 1923; that Presbyterians own far more than the average citizen; when we really get down to basic facts about the income of our people and their every day expenditures, the conclusion is inevitable that we are after all, justly playing with the job of financing properly the benevolent program of our church. The final question being asked for, including current expenses (which is approximately \$8,000,000) is only about \$30 per year per member." In the light of present day economic conditions, who can say that this task is too big?"

In connection with these statements of Dr. Melvin, it is of interest to note that conservative figures estimate the annual income of the membership of the Southern Presbyterian Church to be not less than \$350,000,000, hence the fifth only of the income amounts to more than six times the benevolent budget and to almost four times the combined budget for benevolence and current expense for the year.

**THE KIWANIS MEETING**

John Pau Lucas Talks on the Growth of the Electrical Industry.

Interesting addresses featured the meeting Friday at the Y. M. C. A. of the local Kiwanis Club, the program being in charge of John S. Palmer.

No business matters of note were presented at the meeting, which recorded an attendance of almost 100 per cent.

John Palmer then introduced John Paul Lucas, of Charlotte, who is in charge of publicity for public utilities. Mr. Lucas in his talk showed the wonderfully rapid growth of the electrical industry, and additional uses to which the current is being put in everyday life.

Not only in the manufacturing of goods, but also as a servant in the home is electrical energy being put to new tasks, and in this way is helping to solve the ever present problem which confronts the lady of the house. He also spoke on the uses of gas, and of the prediction that within a comparatively short time no more raw coal will be used in the homes and industries, but it will be converted into gas and coke, which in turn will be used in the places where our people now use raw coal.

Rev. A. Lindsay Skerry was then introduced by Charles Sevil, and told the members of the club of the plans now being worked out by the American Legion to take care of underprivileged children everywhere, but more especially to look after the children of former service men. The work will be carried on by the Legion through its posts all over this country, and the funds raised for this work will be put economically handled through the posts, since none of the Legionnaires will draw any pay for this service. A campaign will shortly be inaugurated by the local Fred Y. McConnell post to raise the funds expected from this county. Mr. Skerry will be in Concord for sometime to conduct this campaign.

Hubert Howard, a new Kiwanian, was introduced to the club by Tom Matvey, at the request of President Brevard Harris.

The attendance prize, given by John Palmer, was drawn by Luther Hartsell, Jr. The meeting on next Friday will be in charge of Dr. Joe W. Pike.

The present is the best earthquake predictor known, the bird crowing before or during every slight shock, according to a Japanese writer.

### Post and Flag's Cotton Letter.

New York, March 13.—The market to day has been another rather nervous and unsettled affair. Reports of rain in various places in Texas and an extremely weak grain market has a quieting effect on sentiment and brought out some more selling from tired long interests. A good demand around 25c for October had a steadying effect but market lacked entirely any aggressive buying power. Some trade buying, together with rather bullish Easter figures, spinsters' taking and the large exports for week amounting to 206,540 bales against 86,147 also steadied market. Census report on supply an addition for month comes out tomorrow at 10 o'clock. Consumption figures will compare with 589,725 in January and 508,677 during February last year.

### To Be Consecrated as Mission Worker.

Raleigh, March 14.—Misses Ethel, Bost, of Huntersville; Ednie Smith, of Hamlet; Olive Smith, of Reidsville, and Ruth Merritt, of Faison, will be consecrated as mission workers at Tulsa Okla., during the meeting there, March 18-25, of the Methodist Missionary Council. Bishop John M. Moore will administer the rites incident to the consecration ceremony. These North Carolina women are members of a class of twenty-eight at Scarritt College for Christian Workers, at Nashville, Tenn., who have dedicated their lives to active missionary work.
