HUNT'S WASHINGTON LETTER

By HARRY B. HUNT, NEA Service Writer... Washington—Mention has been made, in recent dispatches from here of a "Borah bloc" in the United States Senate.

The fact is, of course, that the term "Borah bloc" has been used simply as a handy tag to tie to the group of independently-minded Republicans who have declined to permit themselves to be bound by their party's caucus.

To this number might, properly, be added those members recently ousted from G. O. P. party councils, on charges of irregularity.

Whether properly labeled as "bloc" or not, and whether fairly grouped under a Borah banner, there no longer remains any doubt but that there is an in the new Senate an insurgent group that can make itself felt effectively.

FARMERS INCREASE THEIR OUTPUT... The American farmer spent a busy year in 1924 judging from the report of the Department of Agriculture which shows that farm products last year were worth \$12,404,000,000, an increase of \$6,560,000,000 over the value of the 1923 crop.

MARK TWAIN ON "MAN"... Man can't sleep out of doors without freezing to death or getting rheumatism; he can't keep his nose under water over a minute without being drowned.

backbone, it is the atmosphere of Washington. The process is constant and drastic.

Just why senatorial insurgents should be described at this time as "the Borah bloc" is not apparent. The most likely guess is that the name was designed in an effort to discredit the influence and prestige of Borah.

But accepting the tag of "Borah bloc" as one that will be much used to describe the insurgent Republican group, it should be recognized that the bloc was formed around Borah, as the most effective champion of its more important principles, rather than having been formed by Borah as a club with which to pound his opponents.

The president felt that Warren had been subjected to a most embarrassing, even humiliating, ordeal. His feeling in the matter was perhaps as much because of his position in which the double rejection placed Warren as because of the "hole" in which it placed him.

Man starts in as a child, and lives on disease to the end, as regular diet. He has mumps, scarlet fever, whooping cough, croup, tonsillitis and diphtheria, as a matter of course.

Man isn't even handsome, and as for style, look at the Bengal tiger—that ideal of grace, physical perfection and majesty. Think of the lion, the tiger, the leopard, then think of man, that poor thing!
