FATHER OF 10 CHILDREN ELOPES A SECOND TIME

Former Minister, Who Flew With Choir Leader, Now Takes Sister-in-Law. Xenia, O., April 4.—W. W. Culp, 40 year old father of 10 children, and former pastor of the Methodist Episcopal church at Spring Valley, who two years ago eloped with the 18-year-old choir leader of his church, has eloped again, according to information received here by probate Judge S. C. Wright.

This time, according to Judge Wright's information, the former preacher chose his sister-in-law, Mrs. Clio Culp, 22 mother of two children, who resided at Napanne, Ind. Culp and his wife and children have been living at South Bend, Ind.

Culp and his sister-in-law first disappeared simultaneously and after a short period returned to their homes and were "forgiven" Judge Wright was informed. They disappeared again and have not been heard from since, although Indiana authorities have been seeking them.

Culp and his choir leader disappeared from the Spring Valley parsonage late one night. Several weeks after they were discovered in a Michigan city. Returned to Green county, Ohio, the girl was turned over to her parents and Culp was charged with desertion and fined \$500 and sentenced to a year in the work house. He served only a few days because of an error in commitment papers.

With his family he then moved to Napanne, Ind., and later to South Bend. Since they left Ohio another child was born.

TRIPLE ELECTROCUTION SCHEDULED FOR APRIL 17

Three Will Die at State's Prison on That Date Unless Governor Interferes. Raleigh News and Observer. Unless Governor Angus Wilton McLean interferes Friday, April 17 will see a triple electrocution in the little octagonal room which contains the death chair in the State's prison. Doomed to die on that date are C. W. Stewart and Elmer Stewart, New Hanover county, father and son, who stand convicted of the murder of U. S. Deputy Marshal Sam Lilly and Prohibition Officer Leon George, and Cheatham Evan, negro, convicted of the murder of a white automobile driver.

Pleas for clemency for the Stewarts will be made before Governor McLean Monday morning at 10 o'clock, but Judge Henry Grady, who tried the cases, is known to oppose clemency. Two other execution dates are now set. Alex Rodman is scheduled to die on May 1 and Henry Singleton is scheduled to die on May 8.

SOUTH CAROLINA HEIRS VOICE DISAPPOINTMENT

Suit Against Trinity Church Corporation Has Been Momentarily Halted. Greenville, S. C., April 5.—The large number of Edwards heirs who reside in Greenville, Spartanburg, Abbeville, and vicinity are interested and perhaps disappointed in knowing that the suit instituted against the Trinity church corporation of New York City for possession of much valuable property in the heart of the metropolis has been dismissed by Federal Judge John C. Knox.

The motion to dismiss the suit was made by Samuel G. Litwin, for the plaintiffs, who stated in an affidavit that he had not received any retainers and that the Edwards heirs had not kept their word to turn over to him original deeds and records and that subpoenas delivered to them had not been returned.

The Edwards heirs corporation maintains an office in Greenville and has a number of members here. Post and Flagg's Cotton Letter. New York, April 6.—The chief feature of the market continues to be the steadiness which it shows and the ease with which offerings are absorbed on moderate recessions. A fair share of the demand comes no doubt from shorts but as far as that has any bearing on the technical position the net result is not important as a large portion of the contracts taken in covering are supplied by fresh sellers for short account at a lower level leaving the position practically unchanged. According to the latest advices there is a growing feeling of optimism in the dry goods markets though developments there have not yet been important.

Mills, however, are not accumulating goods and are not making concessions to any extent but are finding enough business offering so that if raw material does not advance substantially above 25 cents the normal production or the mills can be distributed with at least a moderate margin of profit and no necessity for curtailment will arise. The available supply is being rapidly distributed and while taken on the average it may be fair to say that the outlook for the coming season is reasonably good there is nothing to date on which to base any confident expectation of a large crop and there are many possibilities to be passed through before any confidence on that subject will be justified.

Professional sentiment remains bearish but in trade circles there is a growing feeling that bearishness is being overdone and resulting in a large commitment to the short side in the contract markets which in combination with the short position in the spot markets constitutes a strong foundation for prices to rest upon and create a situation where a quick and sharp response can be expected to any serves to bring about a change in the existing pessimistic view in speculative circles.
