

Chesterfield's popularity was won on taste alone

Put a ring around that word — and don't forget it!

Taste! That one word explains Chesterfield's enormous popularity. "They satisfy," because they contain the richest, mellowest tobaccos that money can buy. And they're mild, because these tobaccos are blended in just the right proportions for taste and aroma. It's a blend of unique character and it can't be copied! No wonder smokers everywhere are changing from all kinds of cigarettes to Chesterfield.

Mrs. Coolidge Finds Useful Furniture in White House Attic

Washington, April 27.—A program for renovation of the White House this spring affords Mrs. Coolidge her first real opportunity to dress the executive mansion up to her tastes.
Congress has appropriated \$50,000 for the repair of the house, but most of this will be spent in renovating the decorations and furnishings, and practically all of the work will be done on the first floor in the semi-public rooms.
While Mrs. Coolidge will have the choice of materials, it is believed she will follow custom and retain the standards in colors and designs established for these rooms by Mrs. Roosevelt.
Operations in the beginning will be centered on the Green Room, which succumbed to the flitings of the sun several years ago and faded to a jaded brown. The Red and Blue Rooms are in comparatively good condition and slight changes will be made in them. Some upholstery will be done, and the rugs changed.
Other funds will be expended on modernizing the elevator, remodeling the plumbing and vacuum cleaner system, painting the floors and replacing rugs in many rooms, including the President's study.
Mrs. Coolidge already is rivaling her husband's fame for economy. Practically no new furniture has been bought by

her, but recently she visited the White House store house and resurrected two pieces which had been discarded. One was a table, inset with brass diagonal pieces, one of which was missing. This piece was restored, and Mrs. Coolidge has been complimented several times by visitors on the result.
She also picked up in the store house an old fashioned comfortable chair, bearing a tag which identified it as "President Jackson's chair." It is now in the President's study.

FAILURE TO GET DOCTOR LEADS TO DAMAGE SUIT

Birth and Death of Baby Causes Couple to Ask \$50,000 of Telephone Company.
Greensboro, April 27.—Because a physician could not be secured and a child was born with no one with the mother, the infant later dying, Mr. and Mrs. Robert L. Thompson of this city, today started suit in Guilford superior court here against the Southern Bell Telephone and Telegraph company for \$50,000.
It is alleged in the complaint that when

it was apparent the child was about to be born, Mr. Thompson hurried to a telephone to summon Dr. D. W. Holl, and was told by the telephone operator that connection could not be given because the physician's receiver was down. The doctor denies that it was. After a search Mr. Thompson found the physician's home and they went to his own home where the child had been born with the mother alone.

"You say you come from Detroit," said the doctor to his fellow passenger on a Canadian train; "that's where they make motor-cars, isn't it?"
"Sure replied the American with some resentment; "we make other things in Detroit, too."
"Yes, I know," retorted the doctor; "I've ridden in 'em."
