MARTIN KLUTTZ RAISES APPLES PROFITABLY

Finds That Work of Spraying Helps His Crop—Keeps Them Over Winter. As an object lesson of what can be done by farmers if they take advantage of the opportunities afforded them, County Agent R. D. Goodman is pointing out the work of Martin Kluttz, Cabarrus county farmer, in building up his apple orchard.

Mr. Kluttz, according to Mr. Goodman, let his apple orchard remain uncultivated from the time a law was passed in North Carolina against the making of liquors until six years ago. After considerable persuasion, he decided to begin raising this fruit again. Since beginning, his orchard has been most successful from a financial standpoint. Last year he sold 223 crates of apples from the two acres of trees.

He is also, says Mr. Goodman, a firm believer in spraying and attributes most of his success to the fact that he sprays his fruit each spring.

He brought several apples which he has kept since last fall into Concord to show how that they can be kept if proper attention is paid to the picking and packing.

American Screen Stage Lead World. "The American stage and screen has more good players than any country in the world today," says Dorothy Cumming, one-time star of the Australian stage. Miss Cumming is now in pictures. She has a prominent supporting role with Ben Lyon and Anna Q. Nilsson in First National's "One Way Street," which is showing at the Concord Theatre today.

"There is no disparagement of England and other countries," Miss Cumming says. "The reason is that America lures away the best players of other lands because this country pays them better."

Miss Cumming is a native of Australia, where she starred with H. B. Irving, son of Sir Henry Irving, and with Cyril Maude.

Entertains at Dinner Party. Miss Adelaide Foll was honored at a dinner party given her by her mother, Mrs. W. A. Foll, Tuesday evening at her home on North Union street, the occasion for the dinner being the 15th anniversary of Miss Foll's birth.

After dinner the guests were given a theatre party and later played bridge. Guests at the affair were: Annie Louise Hoover, Frances Boger, Mary Lore Plowe, Ruth Dayvault, Ruth Moore, Elizabeth Ross, Orchard Lafferty, Francis Pickard, Connor Smith, Aleck MacFadyen, Stephen Morris, Charles Kestler and Rufus Brown.

At The Theatres. "Golden Bed", starring Rod LaRocque, Lillian Rich, Theodore Kosloff, Vera Reynolds, Varner Baxter and Julia Faye, is being shown today at the Star.

Jane Novak in "The Lullaby" and a comedy are the features being shown today at the Pastime.

Ben Lyon and Anna Q. Nilsson and Marjorie Day in "One Way Street" at the Concord Theatre today.

Among the issues to come before the National Federation of Postoffice Clerks at its annual convention in Kansas City next September are: A more liberalized retirement law, 44-hour week, time differential for night workers, ousting of the stop-watch and speed-up methods and establishment of a civil service court of appeal in cases of demotion or dismissal.

DRY LAW A FARCE, SENATORS DECIDE

Survey Convines Committee Hasty Inquiry Would Be of No Service. Special to New York World.

Washington, May 18.—The Couzens committee, composed of Senators Couzens, Mich., Watson, Indiana, and Ernest, Kentucky, Republicans, and Jones, New Mexico, and King, Utah, Democrats, has found that prohibition enforcement is largely a farce.

Conditions revealed in a brief inquiry are so bad the committee will not make an investigation now. The task is considered too great to be accomplished in a few weeks.

Members of the committee have heard a few witnesses and surveyed the situation hurriedly, enough to realize that it would be impossible to do any good in a hasty inquiry and will make public the testimony taken within the next day or two.

New Legislation Suggested. In making a report to the Senate next December the committee, if not as a whole then as individual members, will present facts to show that if an investigation is undertaken it should be unhampered and complete and conducted with a view to bringing out all the facts.

Several members of the committee want to recommend the turning over of the prohibition units to the department of justice, but feel it should rest where it is now until the new assistant secretary of the treasury, Col. Lincoln C. Andrews, has had ample opportunity to show what he can do toward suppressing the liquor traffickers.

Dry States Growing Wetter. Facts brought out show that while the government forces are driving the rum runners out at one point, other rum runners are active elsewhere. Conditions in the original prohibition states are growing worse instead of better. They have been neglected.

When the Couzens committee gets ready to make its report, a determined effort to prevent a discouraging showing will be made by dry leaders, but members believe the truth should be developed and brought out to convince the people generally that the Volstead act is being disregarded and enforcement is falling down.

It was pointed out today that any casual inquiry into the fact shows that spasmodic spurts against violators of the dry laws are not effective. Liquor continues to come in from the coast, across the Mexican and Canadian borders, and from the stills of the cities and mountain caves in the South.

"We found a very, very bad situation," said a member of the Senat committee to The World correspondent today. "Efforts to enforce the laws in many sections of the country have proven farcical. I think that we should allow Col. Andrews to try out his program, and see what he can accomplish."

Post and Flag's Cotton Letter. New York, May 20.—The feature has been the action of July in all markets with reports that that position is sewed up tight in New Orleans by spot interests who need the cotton and will demand delivery. Room has been engaged for a considerable quantity of the local stock here to go abroad, with predictions in spot circles that further engagements will shortly be made. This is a rather sharp contrast to recent talk that a good deal of what has been exported would come back here as cotton was cheaper in foreign markets than in this country.

Strength in July will not necessarily pull up the new crops very far but neither will it serve to depress them to any extent. Based on latest advices as to curtailment by mills it would look that there has been more talk than action in that respect and a considerable degree of exaggeration in the talk. There is curtailment and it is a mathematical certainty there will have to be more and that the volume of exports will have to be reduced in drastic fashion for sheer lack of cotton.

There is mighty little cotton left in the south outside of snaps, bollies and other dogtail stuff and the rate at which the supply has been distributed this season is new record in the history of cotton. Present levels are much below the average price at which this 14 1-2 million crop was distributed and in spite of present favorable crop prospects and the increase in acreage there is no certainty that we shall have as much next season. Guaranteeing deliveries to the trade by sales for short accounts at considerable discount from the

What is a Nixie?

Nixie! Nixie! What is a Nixie? It is a piece of mail so incorrectly or incompletely addressed, or so improperly prepared that it can not be delivered or returned without special treatment and it goes to—

The post office hospital for a postal operation. It differs from a dead letter in that a dead letter, parcel, or circular can neither be delivered nor returned, and goes to the post office morgue for burial.

Believe it or not. A celebrated French actress, Mme. Suzanne Despres, has refused an offer of the Legion of Honor, because, as she states, it is her desire to live her life with as little publicity and limelight as possible.
