JOSEPH F. GOODMAN.

The Uplift. On Tuesday in a far-off State, where he had gone in the hope of a benefit to his health, death quickly claimed Joseph F. Goodman, a prominent and successful business man of Concord.

His energy, augmented by a high sense of honor and strict integrity and business tact, drew to him in his early career many fine and trustful friends; and he soon became a factor in the business, commercial and social life of the community.

The Uplift esteemed Joe Goodman for his frankness; he was outspoken—he never straddled on any question—but he carried about with him a generous and tender heart. He did many kind deeds and generous acts, but they went unheralded.

RUTHERFORD SPEED COP DIES OF INJURIES. Officer Clyde Morrow Fatally Injured When Thrown From His Motorcycle.

Rutherford, May 28.—Traffic Officer Clyde Morrow died at the Rutherford hospital Tuesday night at 8 o'clock as a result of injuries received at 6 o'clock at the Highway station, midway between here and Forest City. Morrow was going towards Forest City at a rapid rate when he saw a truck in front of him and tried to stop suddenly by applying his brakes at full force.

Weekly Cotton Review. New York, May 29.—The cotton market here has been very quiet this week with the bulk of the business attributed to the closing out of old long accounts in preparation for the Memorial day adjournment and the government report scheduled for Tuesday.

The average of 15 of these private reports indicated a condition of 75.1 and an increase of 5.5 per cent in the average. No official figures on the per value of condition as of May 25 are available and the government until early next week will give no figures on the indicted crop, but it is calculated by some local statisticians that a condition of about 75.4 on an average of approximately 43,500,000 acres would point to a lint crop of around 14,500,000 bales excluding linters.

The detailed weather reports received at the end of the week showed rains or showers at a few points in this territory, but previously many complaints of droughty conditions reached the trade here, causing some nervousness. In other sections of the belt the most general opinion appears to be that the crop has been doing fairly well since the canvass for the end-May condition figures was made.
