Victrolas, and Records, Player Planos and rolls. Kidd-Frix Co. 1-31-p.

LETTER FROM EX-GOVERNOR CAMERON MORRISON

Appeals to the People to Buy Stone Mountain Memorial Coins.

I have accepted the chairmanship in North Carolina of the distributor campaign for the Confederate Memorial Half Dollar. I hope the people of North Carolina will accord me their enthusiastic co-operation in a rousing interest and sympathy in the sale of these Memorial coins.

The United States Government, acting through an administration controlled by the Republican Party in every branch, with great unanimity authorized the minting and sale of these coins by the Stone Mountain Association for the purpose of aiding in the construction of the great memorial, as an expression of respect for the valor and sincerity of the chieftains and soldiers of the armies of the Confederacy. It was a noble and magnanimous thing, and the South, and particularly the State of North Carolina which furnished a larger number of soldiers to the armies of the Confederacy than any other state must respond to it by enthusiastic and generous purchase of these coins. It would put North Carolina in a most indefensible position not to participate generously in the purchase of these coins. It cannot without an expression of appreciation of this noble tribute to the greatness of Lee and Jackson, and the valor of the soldiers who made the armies of the Confederacy.

The coin is a beautiful one. It has a likeness of Lee and Jackson upon it, and an inscription: "Memorial to the Valor of the Soldiers of the South." That this tribute of respect and admiration should have been made by the United States Government to Robert E. Lee and Stonewall Jackson and the soldiers of the Confederacy ought to be a source of pride to every true North Carolinian and every son of the Southern group of States.

The coin is being purchased generously even by the people of the North and States. Banks all over the North are making application for the coins and a heavy sale in the North is a certainty. Surely the people of North Carolina will go to the banks with enthusiasm and without delay, and arrange for the purchase of these coins.

I appeal to the people of the State not to wait for committees and local organizations, but to go at once to their local bank and open negotiations for the purchase of these coins. Expensive organizations, advertising, etc., will waste the profit in the sale of these coins, and I cannot believe it will be necessary through these methods to excite North Carolina to do its duty.

I appeal to the whole press of the State, and the people generally to move voluntarily and without committees to inform the people in every community of the State, and save all possible expense in the sale of these coins.

Inasmuch as the authorization of the sale of the coins constitutes within itself the greatest step towards a truly united country since the fall of the Confederacy; and as a re-united country must be desired by all good people, I make bold to appeal to the Ministry of

the State to call attention promptly from their pulpits to the sale of these coins, coupled with an appeal to the people to complete the beauty of the expression made by the United States Government, by a generous and prompt purchase of these coins upon the part of our people.

I appeal to Chambers of Commerce, Kiwanians, Rotarians, Civitan and Lion Clubs, Farmers' organizations, Labor organizations, and all civic and patriotic organizations which may have meetings in the next few weeks, to have some member call attention to this matter, and call attention to this matter, and help arouse our people to the precious privilege of paying respect to the valor of the Soldiers of the Confederacy, and approximately responding to the noble tribute by the United States Government to Robert E. Lee, Stonewall Jackson, and the immortal Armies they commanded.

Cameron Morrison, Chairman Confederate Memorial Coin Distribution Campaign.

No Prospect of Immediate Let Up in the East.

Washington, June 2.—The heat wave in which the eastern half of the country has sweltered for the last two days showed no signs of a break when the weather bureau tonight scannned the prospects for the next 48 hours. Tomorrow and Thursday bid fair to be just as hot as it was today, and unless a disturbance in the far west that is counted on to bring eventual relief moves faster than it gave indication of tonight, Friday will be little better.

Philadelphia shared with Lynchburg, Va., the discomfort of being the hottest spot in the country today, official temperatures at both places soaring to a maximum of 98. This broke the record for Philadelphia temperature this early in June.

Washington at the same time panted under a temperature that reached a maximum of 97 degrees and equalled the record here for this early in the summer.

Mercury Rises to 102 at Danville. Danville, Va., June 2.—A new heat record for this season was set here today when the government thermometer registered 102 degrees at 4 o'clock. Yesterday 99 was the maximum.

USE PENNY COLUMN—IT PAYS A GROUCH NOT WANTED

There is nothing so harmful to success as being a grouch. Stomach, liver and intestinal troubles make one grouchy. Murr's Wonderful Remedy will help overcome these and usually gives complete results.

Our advice to everyone troubled in this way, especially when accompanied with bloating in the stomach, is to try this remedy. It is a simple, harmless preparation that relieves the intestinal muscles, the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. At the Gibson Drug Store and druggists everywhere.

IN AND ABOUT THE CITY

KIWANIS CONCLAVE TO BE HELD HERE FRIDAY

Concord Club Will Entertain Salisbury, Statesville and Lexington Clubs. Local Kiwanians are looking forward with much anticipation to the inter-city conclave which will be held in Concord on Friday night at 7 o'clock in the Y. M. C. A. when the Statesville, Salisbury and Lexington clubs come to the city for a post-conv.

A dinner and elaborate program have been prepared for the occasion and everything is in readiness to make this meeting one of the best of its kind ever held in this district. L. T. Hartsell, Jr., who is chairman of the program committee, announced today a list of the numbers contained on the program. Clarence Barrier is lead-off man with the speech of welcome in which he expects to hand over the keys of the city to the visitors. He is followed by Ed Fullenweider, of the Salisbury club, J. R. McGregor, of the Lexington club, and Zeb Vance Long, of the Statesville club.

This meeting is the semi-annual get-together of Kiwanians of this district. It is the first time that the Concord Kiwanis has entertained the group. The last conclave of this nature was held in Salisbury in November of last year. The following is the program: Invocation—Rev. Ralph Gibson. Dinner. Kiwanis Song. Address of Welcome—Clarence Barrier. Response—Ed Fullenweider, Salisbury club. Vocal Solo—Mrs. H. G. Gibson, Lexington Club Address—Rev. J. R. McGregor. Music—Lexington Quartet. Statesville Club Address—Zeb Vance Long. Jackson Training School. Drawing of prizes. Club Songs. Music during dinner to be furnished by the High School orchestra.

MECKLENBURG DIRT HAS MILLIONS IN MINERALS

Seasoned Prospector Finds Rich Veins of Gold, Copper, and Iron Near Huntersville, Charlotte Observer.

Workable minerals worth millions underlie Mecklenburg dirt awaiting the initiative of the owners and capital. This was the statement made Monday by J. A. Franz, of Canton, Ohio, a geologist with 37 years experience as an investigator of mineral deposits all over the country.

At present he is looking into gold, copper and iron possibilities near Huntersville. He came up from Blalock, Ga., two weeks ago and has about completed his investigation. Mr. Franz spoke enthusiastically of the mining possibilities of Mecklenburg. In the past, he declared, mines near here have been worked for a time and then abandoned because the miners did not strike the mother veins but worked out stringers. He is confident that he has found mother veins that are rich in gold, copper and iron.

The copper vein he has examined near Huntersville, being 150 feet across, would be worth \$1,000,000 when developed, he said. It lies 40 feet under ground and covers about 35 acres. An attractive feature of the proposition, he remarked, is the presence of a power line on the property. Nearby he says he has also discovered two veins of magnetic iron and a vein of gold 65 feet across which will assay 9.6 per cent. pure gold to the ton. There is sufficient timber available for mining purposes, he says.

The mineral resources of North Carolina have not even been scratched, Mr. Franz believes. It is the slowness of the people in realizing what they have that is keeping the development back. If the owners of the deposits would observe what they have and open their lands to development capital would pour in in stream, he declares.

Charlotte Hottest of Eighteen Cities Yesterday. Charlotte, with a record of 95 degrees, was the hottest yesterday of eighteen cities scattered over the United States, the second being San Antonio, with a reading of 94 degrees. Charlotte's high mark was one degree lower yesterday than the highest point reached the day before.

Half a dozen cities tied for third place, Atlanta, Birmingham, El Paso, Little Rock, Memphis and Vicksburg all registering 90 degrees. San Francisco and Los Angeles tied for the coolest maximum with 66 degrees, while Denver was the next coolest, with 72 and Atlantic City third with 78. All of the others in the list ranged from 79 to 93 degrees.

Y PICTURES GET IN PERIODICALS

New York Times and Association Men Print Photographs of Local Activities.

The Y. M. C. A. activities, in addition to getting into print in a number of magazines, are now being pictured in several of the picture sections of periodicals. In the mid-week pictorial of the New York Times, dated May 28, pictures of Mary McEachern and Catherine Widenhouse, winners in the Bible Story Contest, were printed.

In a recent edition of the Association Men, a Y. M. C. A. periodical, a picture is printed of the boys on the lawn of the Y. M. C. A. building, during the capture of the picture is as follows: "Among the outdoor sports in Concord, N. C. none calls for more hearty co-operation than the tug of war."

Just in a Minute.

Raleigh News and Observer. "It all happened just in a minute," said Chief of Police E. Winder Bryan, testifying Monday before a coroner's jury which was investigating the death of Stephen S. Holt, Smithfield attorney, shot and killed in the presence of the Chief of Police by Jesse Wyatt, captain of the Raleigh detective force, after Mr. Wyatt had mistaken an automobile in which Mr. Holt was riding for a whiskey transporting machine.

Just in a minute—as the car flashed past—Mr. Wyatt set at naught the constitution of the United States which provides for arrest on warrant and information, trial by jury and right of appeal. Just in a minute he appointed himself prosecutor, judge, jury, and executioner, found Mr. Holt guilty, sentenced him to die and then tightened his finger fatally about the pistol trigger.

Just in a minute the chief of police who was with Mr. Wyatt failed to prevent what he ought to have known was a violation of the law. Just a minute there was anarchy. Just in a minute a brilliant, popular lawyer was transformed into a bullet punctured corpse, and a brave officer of the law resigned the status of a hero.

Just in a minute two careers were shattered beyond remedy, two happy homes plunged into unhappiness. Just in a minute.

Nineteen thousand miles of ditches are used in the irrigation of 4,000,000 acres of farm land and orchards in Colorado.

MEMORIAL COINS AND CERTIFICATES RECEIVED

Citizens Bank and Trust Company Selling Certificates.—Coins Will Be Delivered July 3rd.

The Citizens Bank and Trust Company has received the Stone Mountain memorial certificates and coins and have placed the certificates on sale pending the issuance of the half-dollar coins on July 3rd.

On the obverse side of the coin is a model of Lee and Jackson sitting astride horses, seemingly in conversation. Lee is facing the front with only his profile in view while Jackson is turned toward Lee. Jackson is hatless. On the top of the coin is the motto, "In God We Trust," surrounded by the thirteen stars and on the bottom of the face are the words, "Stone Mountain, 1925."

The reverse side has an eagle with outspread wings and in addition to the customary lettering are the words, "Memorial to the Valor of the Soldiers of the South."

Bank officials explained that the coins would not be put out until July 3rd but for people who are anxious to get their coins, the certificates could be sold at the present and by bringing them in on the date arranged, they would be redeemed for coins. The price of the half-dollar coin is one dollar, the government getting fifty cents and the Stone Mountain Association getting the other fifty cents.

It is the first time, declared a local banker, that any coin has ever been issued, to his knowledge, that had on it the picture of a horse. Both Lee and Jackson in the coin are pictured as sitting on spirited horses.

Other banks will have the coins on sale in the future.

CITY LEAGUE SEASON BEGINS ON THURSDAY

Pythian Team Rumored Strongest in the League.—Demolay, Y. M. C. A., and Calvary Lutheran Others.

On Thursday afternoon the Ed will be pried off the City League Schedule and games will begin in this loop, the first matches being between the Knights of Pythias and the Demolay, and the Y. M. C. A. nine and Calvary Lutheran. The time set for the contest is 5:30. The K. of P. will fight it out with Demolay at the High School diamond while the other two teams will scarp at the Locke Mill field.

All four teams are primed for action, having put in diligent practice during the past several days and good games are expected from all of them. No pre-season dope has been forthcoming as to the relative strength of the teams with the single exception of the fact that the Knights have been rumored as being the best in the field. A rather ominous silence has been noticed with the other nines and dark horses will probably be the order of the day with these teams.

The textile league got off with a flying start last Saturday and the standing of the teams is as follows:

	W	L	PC
Locke	4	0	1000
Cannon	4	0	1000
Brown	4	0	1000
Roberts	0	1	000

Weekly Sunday School Attendance Report

The following weekly attendance report for Sunday, May 31st, shows a falling off in number present, due, possibly, to the warm weather which is so conducive to motoring. The complete report as received is as follows:

Kerr Street Methodist—Enrolled 191, present 127.
Forest Hill Methodist—Enrolled 477, present 306.
Harmony Methodist—Enrolled 213, present 129.
Westford Methodist—Enrolled 197, present 131.
St. Andrews Lutheran—Enrolled 190, present 114.
First Presbyterian—Enrolled 410, present 272.
First Baptist—Enrolled 300, present 158.
McGill Street Baptist—Enrolled 313, present 226.
Methodist Protestant—Enrolled 315, present 200.

Charlotte Hottest of Eighteen Cities Yesterday.

Charlotte, with a record of 95 degrees, was the hottest yesterday of eighteen cities scattered over the United States, the second being San Antonio, with a reading of 94 degrees. Charlotte's high mark was one degree lower yesterday than the highest point reached the day before.

Half a dozen cities tied for third place, Atlanta, Birmingham, El Paso, Little Rock, Memphis and Vicksburg all registering 90 degrees. San Francisco and Los Angeles tied for the coolest maximum with 66 degrees, while Denver was the next coolest, with 72 and Atlantic City third with 78. All of the others in the list ranged from 79 to 93 degrees.

Attend Class Reunion at Davidson.

W. W. Flove and his guest, Rev. W. M. Fairley, of El Paso, Texas, who is spending several days here, attended commencement exercises and a class reunion Tuesday at Davidson College. Mr. Flove and Mr. Fairley were roommates and classmates while in college, both graduating from the class of '95. Mr. Fairley remained in Davidson last night but will return to Concord this afternoon.

A new potato flour produced by a patented process will eliminate the use of yeast in bread baking. The claim is made that the new process will save millions of dollars annually to American bakers.

WHERE I'M GOIN' WHEN SCHOOL IS OUT.

(By Ida Mizoura Blume)

You bet, I know where I'm goin' when school is out—
Right down to my gran'ma's—first thing—
—for without doubt,
She has the goodest things to eat!
Sakes alive, kid, you don't know nothin' 'bout it!

If you'd taste sump'n' down there, you'd never doubt it.
Y' soon as ever I git there, I take a seat.
An set an' eat, an' eat, an' eat—M-me!
How it
Pie, an' puddin'-nash an' eggs, an' milk, an' pig's feet!

Ever eat any?—Looks like hash—
Shucks! I jus' wouldn't take nothin' for my gran-ma.
Even a billy goat—an' I do want one!
—Now,
I won't swap her for—three dollars, seven cents in cash!

Gran'ma sets the table out under a big tree,
Where there's lots an' heaps o' elbow room. It suits me.
'Cause there ain't no air to git mused. She does have the bestest jam you ever did eat!

An' big jelly cakes, an'—W-h-e-w! Her 'berres can't be beat!
I jus' fill up my plate, an' eat till I mos' bust.

One time gran'ma looked at me an' smiled jus' as cu'm.
An' said: "Tommy, you don't eat much—
—have some ham."
An' when I said I wouldn't,
She thought I was sick—an' I did feel awful bad—
'Cause I'd done et sump'n' of ev'rything—
—had—
An' was so puffed an' stuffed up—well, I jus' couldn't.

She's got the mostest apples, an' peaches, an' plums,
Cears, an' figs, an' grapes, an' honey right out the gums!

O-o-o-h! The watermill's fine!

Pshaw! I jus' bat an' eat till I can't work my jaws!

I pity boys what's got nothin' but pa's an' ma's—
But I do wish ev'rybody's gran'ma was mine.

Urban and Rural Children.
Which have fewer physical defects, city children or country children? The advantages seem to be in favor of the city child, according to tables recently published by the division of research, National Education Association.

Some of the findings derived from their investigations are as follows: It was found that 2.1 per cent. of city children have defective breathing, while 4.2 per cent. of country children have defective breathing. Ear defects were found to exist for 1.3 per cent. of city children and 4.8 per cent. of country children. Two and seven-tenths per cent. of city children had enlarged glands, and 6.4 per cent. of country children. It was found that 7.05 per cent. of city children, and 10.6 per cent. of country children suffered from malnutrition. Eye defects were found in the case of 13.4 per cent. of city children, against 21 per cent. of country children. Only half as many city children have adenoids as country children, 12.5 per cent. against 23.4 per cent.

Want to Face Murder Charge. Raleigh News and Observer. A true bill of murder was returned yesterday by the Wake county grand jury against Jesse Wyatt, detective captain of the Raleigh police force, a little more than twenty-four hours after Wyatt shot and killed Stephen S. Holt, prominent Smithfield attorney. The shooting took place on the Garner road when Wyatt suspected that there was whiskey in a car in which Mr. Holt was returning to Smithfield after attending Federal Court here.

Will 1925 mean five straight National League pennants for the New York Giants and five straight victories for Hornsby of the St. Louis Cardinals as leading batter in the league?

INSURE
When You Start To Build

The right time to take out insurance is when you start building. Then if through any cause your building should burn, even before completed, the insurance will cover your loss.
