Years Without Age. On June 6th the Young Men's Christian Association will be 81 years old. For an enduring movement this is only a brief time, but when one thinks of the service to men and boys in these 81 years, and the growth of the movement, it seems almost incredible that there are people living today who were born before the Y. M. C. A. was founded.

George Williams and a dozen of his fellow clerks held the first meeting of the Y. M. C. A. in a small room over a dry goods shop in London on June 6, 1844. Since that time the movement has spread around the world. Today it has a membership of some one and one-half millions, while its army of adherents and beneficiaries totals many more. Its first headquarters, one small room in a coffee house, which rented for a half crown (60 and one-half cents) a week, has been replaced by many hundreds of buildings in many countries.

At the jubilee of the founding of the Y. M. C. A., held in London in 1894, Queen Victoria conferred knighthood upon George Williams. Sir George came to this country for the American jubilee in 1901.

The spirit and genius of the Y. M. C. A. are expressed in Sir George's last message, quoted on his tomb in St. Paul's, London: "My last legacy, and it is a precious one, is the Young Men's

Short Cotton Crop in Union. Monroe Enquirer. The Enquirer last Monday said there was about three-fourths stand of cotton in Union county. Two of the best farmers of the county, Neill McIntyre, of Wingate, and Vernon Lockhart, who lives a mile east of town, do not agree with that statement. Tuesday these gentlemen, while a cold gale was blowing from the northeast, assured me that twenty-five per cent. of a stand of cotton would be nearer true.

Well, with a few hot days, with warm showers, another tale would be told. It is a fact, though, that while preparation for casting the present crop has been ideal, the weather has been most erratic and unseasonable, making germination slow and difficult. The month of May has been very dry and cool, and after every little shower, cold north and east winds have prevailed to the detriment of cotton and other crops.

ROCKY RIVER SPRINGS TAKES ON NEW LIFE

Hotel Under New Management. Active Arrangements For Busy Season. Albemarle Press.

Rocky River Springs is one of the finest health resorts in the state. Located in this county—11 miles south of Albemarle—with many of the finest mineral waters to be found anywhere, it offers nature's own remedies for healing.

Just why the Springs have not come into full share of patronage may never be known. But many have found its virtues, and they go there each season.

But Mr. Baker, manager of Norwood's popular hotel and a hotel man of experience, is at the helm. He is fitting new conditions for modern demands. Music, dancing, horse-riding, sports, swimming, best dining room service, and a general refreshing of all surroundings, he expects to put Rocky River Springs all the way on the map. He wants you to give it a visit, and bring your friend with you.

Livingston's Cotton Letter. New York, June 4.—The cotton market has not only recovered all that it lost on the afternoon of bureau day, but has made new high ground for the movement on covering and trade buying. The feeling evidently is that the high and low condition figures have been discounted and that the crop may already have reached the turning point between improvement and deterioration.

We think it entirely likely that the recent action of the market has reflected a consensus of opinion that 22 cents is low enough for cotton pending the establishment of prospects for another ample supply. As yet there are nothing more than very general and inconclusive reasons for doubting that such a supply is in prospect, however, and with the technical position leaning as shorts cover we should go slowly on buying on advances. The market may go still higher with continued dry weather in the southwest, but no one never knows just how suddenly a drought may be broken.

Dangerous to Trespass. The folly of trespassing on railway property, a practice to which the American public is still addicted, is strikingly brought out by figures just made public by the safety department, showing that 130 persons were killed and 174 injured while trespassing on the tracks and the trains of the Southern during 1924. The casualties among trespassers were divided as follows: While walking on tracks ninety persons were killed and seventy-two injured; thirty-seven were killed and eighty-seven injured while stealing rides or "hopping" trains; and three were killed and five injured in miscellaneous accidents.

On all the railways of the United States 2,621 trespassers were killed and 3,120 injured during 1924. A distressing circumstance in connection with casualties to trespassers on railway property is that such a large proportion of the killed and injured are school children and useful citizens who, despite all warnings, insist on using railway tracks as walkways.

INITIAL GAMES IN CITY LEAGUE PLAYED THURSDAY

Pythians and Y. M. C. A. Winners on the First Day Over DeMolay and Calvary Lutheran. (By HARRY HITT, JR.)

The K. of P.'s defeated the DeMolay club at the High School Park Thursday, 10 to 5, in a game featured by the heavy hitting of both teams.

There were numerous errors made by each nine but despite this fact the game was good, especially as an opening one. Boger, of the winners and Cline, of the losers, tied for heavy hitting honors, both collecting a double and a triple out of four trips to the plate. Gray had a perfect day at bat, getting a free pass and hitting two singles out of three trips. Widhouse also hit hard with a single and triple to his credit.

Mothers' Aid in Standy. In Standy county, five worthy families have received aid from this fund for the past several months. There are 26 children in these families who age range from one year to 15 years. In these cases, three of the husbands are dead, one in the insane asylum, and one in the state penitentiary. In most cases, the mothers do not own their homes. The children in these homes have been looked after by the superintendent of public welfare, and through his efforts eight have had operations for the removal of tonsils and adenoids, and many of them have had dental work done. As a result of this the children have shown much improvement in health and their work in school has been much better this year than in any previous years.

Now, she avers, she wants to engage in a boxing bout with him and make him eat his words.
