IN AND ABOUT THE CITY

THREE FORDS MEET AND MAKE YARD RACE TRACK

To Avoid Accident the Drivers of Two Cars Cut Across Yard of R. K. Black.

Three Fords met at the intersection of Franklin Avenue and North Spring Street Thursday night and only some fancy and apparently impossible driving on the part of the drivers of two of the cars prevented a serious accident. As it was, no one was seriously hurt and the only damage resulting was to the yard and hedge of R. K. Black.

One Ford was going north on North Spring Street, another was going south on the same street and the other was going west on Franklin Avenue. The latter was struck by the northbound Ford, the blow being enough to throw the car from its source. At the time the two cars met the third Ford appeared and its driver made a dash for safety, his only avenue of escape being the narrow space between a mail box and telephone pole at the street intersection. The space is barely wide enough for a Ford to pass, but in some manner he "made the grade" and started down the Black yard.

At exactly the same time the driver of the Ford from Franklin Avenue sought to get freedom from the melee and he too started for the Black yard. He too drove between the mail box and a telephone pole choosing the opposite of the box from that used by the other driver. His margin of space between box and pole was no greater than that of the other driver but he too got through in some manner.

The two Fords struck the Black yard about the same time and down the yard toward the home of H. W. Caldwell they raced. The driver to the left finally stopped after he had traversed about half of the yard, but the one to the right failed to slacken the speed of his car, keeping along the hedge which extends down the yard boundary, and finally crashing through the hedge which separates the Caldwell and Black properties. He stopped his car after reaching the Caldwell yard.

Persons who saw the mixup sent for a physician but when he arrived he found little to do. In some manner the three cars had avoided a serious collision and the only person injured was a child who received a slight cut on its nose. One car had a damaged fender and the other two were no worse for the accident.

The Ford going north did not stop after the collision but apparently it was not damaged.

Two minutes after the mixup occurred at least a hundred persons had gathered on the scene but although they were ready to render aid their services were not needed.

Blackwelder Meeting at Kannapolis.

The Blackwelder meeting at Kannapolis is in great progress and will continue for the next ten days. I have just closed a meeting in Concord with a large number of professions, and many of the people who were converted have given their names for membership of the churches in Concord, McGill Street Baptist, Presbyterian Church at Brown Mill, Wesleyan Methodist Church, Cedar Street, and their are others to be baptised and will join the church later.

Everybody is welcome to all of our meetings. Mr. Blackwelder has done a great work throughout our state and we appreciate all that he has done for us and we hope that you all will attend his meeting regularly. B. W. D.

The wild dog, sleeping in the open, had first to beat down the thick grasses to make his bed. He did this by turning round again and again, his feet pressing down a nest for himself as he does today through instinct, inherited through the ages.

When the River Cut Loose

The Mehoketa River went on a rampage after unusually heavy rains and went roaring through the town of Cascade, in Dubuque county, Ia. The home of Al Murray, shown above, was taken bodily from its foundations and, shortly after this picture was taken, was hurled against another house and wrecked.

Stop Those Drugs

They never affect the Liver

When you take cathartics you believe that they directly affect the liver. They do not. Countless recent tests have proved that. That's why all those treatments bring you disappointment.

But modern science has found a way to really stimulate the liver. That is ox-gall, a liver secretion. Physicians the world over now employ it to do what you've tried to do.

Many of our ailments are due to torpid livers. We have tried to correct them, but we failed. As a result, we have suffered—most of us—from troubles of this sort:

Indigestion, Constipation, Impure Blood, High Blood Pressure, Lack of Youth, Heart and Kidney Troubles, Bad Complexions.

Now we ask you to join the millions who have found a new relief. Ox-gall, a gland secretion, really stimulates the liver. Then it acts. Then it floods the intestines with bile. The "Dioxol" is Specially Recommended By

REPORTED EX-SOLDIER KILLED PASSENGER

Col. John M. Young Hears Rumor of Homicide on Southern Train During the Night.

Col. John M. Young, night agent for the Southern Railway in Concord, was told during the night that a demented ex-soldier from Spartanburg killed a Charlotte man on a Southern train during the night, and turning his pistol on another passenger, wounded him.

According to the report of the tragedy which Col. Young received, the soldier boarded a night train at Spartanburg, walked through the aisle of a day coach and shot through the head of a passenger who was sleeping on one of the seats. Turning from the fatally wounded man the former soldier turned his gun on another man, wounding him. Passengers on the train disarmed the man and found that his gun contained but two bullets. Col. Young was told.

The slayer was placed under arrest, according to the report, and later it developed that he had been suffering from shell shock.

The names of the slayer, his victim and the wounded man were not reported to Col. Young.

At The Theatres.

William Desmond in "The Meddler," and Larry Semon in a comedy "The Clodhopper" are being shown today and tomorrow at the Pastime.

Charles Ray in "Dynamite Smith," supported by Wallace Beery, Jacqueline Logan and Bessie Love, and Charles Chase in comedy, "All Wet" are being shown today and tomorrow at the Concord Theatre.

"The Night Club," starring Raymond Griffith, Vera Reynolds, Wallace Beery and Louise Fazenda is at the Star today.

Vaccination Schedule Announced For Summer.

Announcement was made this morning by the county health department of the schedule for the vaccination of typhoid and diphtheria during the summer. The first date for this vaccination is set at July 13th and this will continue on until August 8th.

The county has been comparatively free of typhoid this summer and Dr. S. E. Buchanan, the county health officer, is anxious that it continue with as few cases as possible. Hence he is urging the vaccination.

Albemarle Road Likely Soon as Result of Decision.

Salisbury Post.

The decision of the Supreme Court upholding the right of the county to lend money to the State highway commission will probably mean the letting of the contract for the Albemarle-Salisbury highway within the near future. As far as could be learned here this afternoon, the Albemarle Salisbury highway is the only project in Rowan county involved in the decision rendered today.

Offer Opposition to Sale of Stone Mountain Camps.

Centralla, Wash., June 25.—Some of Veterans, meeting here in the annual encampment for Washington and Alaska of the Grand Army of the Republic, today announced a stand against circulation of half dollars to aid in creation of a memorial on Stone Mountain, Georgia, to the Confederate forces.

A resolution was adopted declaring that the cause supported by the Confederate soldiers "had for its result the murder of tens of thousands of loyal men, the widowhood of their wives and the orphaning of their children, the disabling of tens of thousands of other loyal men, and the assassination of America's greatest man, Abraham Lincoln."

The English Football Association has voted in favor of amending the rules allowing a player to remain inside when two defenders are between him and the opposing goal, instead of three, as now.

During a period of twenty-five years Sir Thomas Lipton has built four "Shamrocks" in an attempt to lift the American cup. The first three were each beaten three, and "Shamrock IV" has been beaten once. And Sir Thomas is still hoping!

The South Boston Yacht Club, one of the most prominent yachting organizations of New England, points with pride to the fact that its record of 34 years has not been marred by a fatal accident in which a member figured through stress of weather.

A sleek black cow stole the balls of golfers playing near the fourth hole on the St. Omer golf course, near Concord. The bird spits for a long drive and then gathers in the ball and departs.

AMERICA'S BEST REFRIGERATORS

Good Refrigerators Mean Health

Leonard Refrigerators stand for highest efficiency in retaining the purity of foods and preserving their freshness. By actual test it has been found that its cooling system of refrigeration maintains a lower temperature than any other and the system of circulation keeps the air always dry and sweet.

The improved drainage system will not clog and the remarkably small quantity of ice consumed makes the prices lower than they first seem.

Come! See these wonderful refrigerators.

CHARLOTTE POLICE OFFICER TESTIFIES

"If You Want To See a Man Who Has Really Been Benefitted By Karnak, Look at Me," Says Edgar Owens.

Still they come, remarkable statements, one after another, each and every one proving the claims made for Karnak.

Just the other day, for instance, Edgar E. Owens, well known officer on the Charlotte police force, declared that when he thinks of the condition he was in and how fine he feels now he just can't stop talking about Karnak.

"Yes, sir, if you want to see a man who has really been benefitted by Karnak just take a look at me," says Mr. Owens, who resides at 616 W. Fourth St. "Why, when I think of the condition I was in and how fine I feel now I just can't stop talking about this new medicine. It certainly does the work."

"The past four years I had the worst kind of indigestion. Why, gas would form on my stomach and press around my heart until I became so weak I could hardly stay on my feet. When these attacks would come on me they would be so severe that at times I simply had to quit my best and go home."

"My stomach was in such a bad condition that at times even plain drinking water would actually upset me. These bad spells of indigestion would always leave me bilious, and kept me in a bad, run-down condition. I simply lived in dread of these attacks coming on, and just seemed to go all at pieces with nervousness at times."

"When a friend recommended this Karnak to me I didn't just try it, I had signed for a set of books; a hundred and ninety dollars."

"The ancient Babylonians counted in terms of sixties. As the earliest astrologers were accustomed to this reckoning, the 60 figures was naturally adapted in the earliest methods of timekeeping. The 'minute' stood for something very small or minute. When the minute was split up it was the 'second' split, hence our 'seconds'."

"The water in Frenchman's Bay, on Desert Island, off the coast of Maine, at midday of the day when one of the marine snail worm breeds, becomes blood-red due to the untold numbers of red eggs cast into the bottom waters by the worm."

"The citizens of Washington, D. C., cannot vote because they are not citizens of any state and the District of Columbia is governed directly by the federal government, there being no elective offices."

DRASTIC IMMIGRATION LAW AFFECTS MOORESVILLE GIRL

Scotch Lassie Wants Permission to Remain in United States Permanently.

Washington, June 25.—By direction of Senator Simmons, Frank A. Hampton, his secretary, conferred with Secretary of State Kellogg, seeking to find some way to permit Miss Margaret Taylor, niece of James L. Donald, of Mooreville, to remain in the United States.

Miss Taylor has been visiting her uncle for the past year and a half, and since she came to America her home in Scotland has been broken up.

The case of Miss Taylor is a rather noted one here. It has been considered by a full meeting of the senate committee on immigration in an effort to give the preference. Miss Taylor comes within no preference class. Several senators have taken much interest in trying to solve her problem so that she may not have to return to Scotland and wait perhaps for years as an ordinary immigrant to come to the United States for permanent residence.

The secretary of state said that he could authorize, so far as he could, the admission of Miss Taylor ahead of the bulk of the non-preference class. He is restricted by the statute, which gives preference to certain classes, such as sons and daughters, wives and husbands and fathers and mothers of citizens of the United States. In as much as Miss Taylor comes within none of these classes she would ordinarily be considered only after her application reached its regular turn, and there are

I had signed for a set of books; a hundred and ninety dollars."
