IN AND ABOUT THE CITY

SEVERAL MILLS IN CITY CURTAIL OPERATIONS

The Majority Continue to Run Full Time.—Locke and Norcott Shut Down For Several Days.

The customary mid-summer lull in business seems to have hit several of the local cotton mills with the result that at least two of them will suspend operations for several days this week. No serious letup is contemplated, however, mill men declare.

Reports that the Brown-Norcott Mills had closed for the summer proved to be false. The Brown Mill is running full time during the day and the Norcott has been closed for the week in a slight curtailment of output.

The Locke Mill is planning to shut down from Wednesday and remain idle until next Monday when the full operations will again be resumed. None of the other mills in the vicinity have announced any plans to curtail during the remainder of the summer. A report was current during the past week in the city and in Kannapolis to the effect that officials of the Cannon and Cabarrus mills had declared that the mills at Kannapolis would continue full time throughout the summer months.

The Wiscasset Mills at Albemarle have been running on a part time schedule during the past few weeks. They are busy only four days in each week.

FINAL WORK BEING DONE ON MT. PLEASANT ROAD

Estimates and Plans for the Additional Part of Highway Have Been Prepared.

Final work is being done on the State highway from Concord to Mt. Pleasant and it is expected that it will be completed today. The greater part of the road was finished over a month ago but the approach to the bridge at Cold Water Creek had been allowed to settle before putting down the hard surface.

When the asphalt top is finished at Cold Water Creek, the only remaining work to be done will be to shape certain of the shoulders which are not quite in the condition they should be, according to engineers here.

The extension of the highway, from Mt. Pleasant to the county line, has been surveyed and estimates of the cost and plans and specifications have been drawn. These will be submitted to the highway department and it is considered likely that the contract for the building of the road, which is a little over three miles in length, will be let about the last of July.

CONCORD THEATRE MARQUEE NOW BEING INSTALLED

Marquee and Electric Sign Will Give Theatre Prominent Front.

The marquee for the Concord Theatre has come and workmen have already begun drilling into the brick walls to place supports for the ornamental front.

According to Manager Meriwether, the new marquee will add greatly to the entrance of the theatre, giving the entrance suitable prominence. It will be of an ornate design and will be brilliantly illuminated.

The electric sign which has already been installed, will be ready to be lighted during the next few days. The sign and the marquee will give the Concord Theatre one of the prettiest and most striking exteriors in the city.

The marquee was purchased from a company in Detroit which specializes in this sort of work.

Will Busses Be Run Only Once Every Hour?

According to reports from Raleigh a number of busses operating through this city have asked for permission to change their schedules. The busses have been operating on a thirty minute schedule through the city and it is reported that an hour schedule would suit them better now. Several bus lines in the state have gone broke in recent weeks and some of the others, says these Raleigh reports, are not making any money.

Lutheran Boys Leave on Camp Tomorrow.

A group of fifteen boys, members of St. James Lutheran Church, will leave Wednesday with Brown Lee Goodman for Bridgewater where they will camp for a week.

This camping trip is the yearly outing which the Sunday school sponsors for the boys. An excellent site has been secured on Lake James.

Stores to Close Thursdays at 12 O'clock For the Summer.

Twenty-four stores in the city will close every Thursday afternoon at 12 o'clock from July 2 to September 1st. A half-page advertisement, giving the names of these stores, will appear in The Tribune tomorrow and in the Times Thursday.

The ball used in polo is of light willow wood and weighs not more than five and a half ounces. The mallets are made with wooden heads and bamboo handles.

LOCAL SHOE MAN MAKES SPECIAL STUDY OF FOOT TROUBLES.

Friends of Max Warlick, of the Ruth-Kessler Shoe Store, will be glad to learn that he has just completed a course of study in the American School of Podiatry, Chicago. This course is one that has to do with scientific shoe fitting and the elimination of foot and shoe troubles through the application of appliances invented by Dr. Wm. M. Scholl, the well known authority on the feet. According to Mr. Warlick many people have gone along for years, suffering untold distress with fallen arches, weak ankles, cramped toes, corns, calluses and bunions, etc., not knowing relief was a very simple matter.

He says that he is prepared to show anybody that has foot trouble that this is so. By eliminating these foot troubles, he also declares, neat, stylish shoes can be worn with perfect comfort.

Through this special training Mr. Warlick has discovered that most shoe troubles can be traced directly to foot troubles. In the majority of cases of where shoes break down and wear out sooner than they should, it is not the fault of the shoes, but to weak and broken down arches, weak ankles, or some abnormal foot condition. When the foot trouble is corrected through the use of the proper appliance shoes will give much more satisfactory service.

THREE STATESVILLE NEGROES ARRESTED HERE IN NIGHT

Alleged They Broke Open Three Gas Tanks at the Flint Rock Filling Station.

Thomas Hampton, Thomas Whittenburg and Julius Jones, Statesville negroes, were lodged in the county jail here Monday night after they are alleged to have broken open several gasoline tanks at the Flint Rock Filling Station in an effort to secure enough gas for a trip back home. Three other negroes were in the car with them, it is said, but they did not leave the car at the filling station they were allowed to return home.

According to information received by local officers the negroes hired the car in which they were riding from a Statesville garage telling the garage man they were going to Salisbury. Instead they came to Concord and visited a negro swimming pool, where they remained until after midnight. About 2 o'clock this morning the man who sleeps in the Flint Rock station heard some one tampering with the gas tanks, which were locked. He telephoned the police officers and the negroes, hearing his conversation, left.

Officers answering the call found the negroes at the gasoline tank at Ed M. Cook's store, it is reported. All of the negroes were taken to police headquarters and the watchman from the Flint Rock station identified Hampton, Whittenburg and Jones as the ones he saw tampering with the tanks.

Officers communicated with the owner of the car, who advised the officers to let the other three negroes bring his car back as he knew them all. The others will be given a hearing today or tomorrow.

ONE HUNDRED AND FIFTY HAVE LEARNED TO SWIM

Pupils Who Have Learned How to Propel Themselves in Water Range From 6 to 60.

Swimming instruction, given during ten days in the present season has, according to J. W. Denny, yielded very gratifying results. One hundred and fifty men, women and boys have learned the art of propelling themselves in the water.

Mr. Denny states that no one is counted as being able to swim unless he or she can navigate the length of the pool alone.

The ages have ranged from six to sixty. A number of mere tots, just out of kindergarten, have been taught how it is done and several men and women, with gray hair, at first have learned the joy of a plunge into the pool.

A campaign was conducted last week in which several hours were set apart each day for persons who could not swim. A number of persons attended these classes.

Brown-Norcott Defeats Roberts.

Brown-Norcott baseball team defeated Roberts' hard hitting nine Saturday afternoon in a closely played contest, 4-3. The leading hitters for Brown were Roberts, C. Rogers, E. Fowler and Driskell. Duke and Watts played good ball for Brown. For Roberts, Biggers, Lefler, Mason and Walker played well.

The line-up was as follows: Brown-Norcott: Shoe c.; Wright, p.; Duke ss.; Rogers, rf.; Childress, lf.; Fowler, 1b.; Rogers E. cf.; Watts, 2b.; Shoe, c. 3b.

Roberts: Verble, Mason, Walker, Verble, Blackwelder, O'neash, Hudson, Lefler, Matthews and Biggers.

Revival Begins at Bayless Memorial Sunday.

Rev. C. C. Anderson, of Charlotte, has been secured to lead a revival which begins Sunday, July 5th, at the Bayless Memorial Church on Kern Street. Services begin at 7:45 o'clock but prior to the services, a song service will be held which starts at 7:30 and lasts for fifteen minutes. The public is invited to the meetings.

So Practical and Neat

FOR traveling, shopping and general wear, this stock of navy-blue flat crepe fills the bill perfectly. It has the new Bronx jacket effect, softened by a rippling 'bob' front. Two wide straps provide ample room at the hemline.

WARNS AGAINST CANADIAN FORD

Bailey Says Bankers' Shares Are Being Offered For Twice Their Value.

Raleigh News and Observer. I. M. Bailey, assistant and attorney to the North Carolina Corporation Commission, yesterday issued a warning to North Carolina investors against an offer of bankers' shares of the Ford Motor Company of Canada, which he states are being offered at twice their value and in defiance of law by the Continental Company of 60 Montgomery Street, Jersey City, N. J.

Mr. Bailey's statement follows: "This office has, within the past three weeks, received a number of letters from people throughout the state requesting information relative to Bankers' Shares secured by Deposited Capital Stock of Ford Motor Company of Canada, Ltd. It seems, from the letters and circulars sent to this department, that the Continental Company of 60 Montgomery Street, Jersey City, N. J., are offering Bankers' Shares, secured by deposited Capital Stock of Ford Motor Company of Canada, Ltd., and that the offering is in the form of securities against the Capital Stock of the Company, which sells for around \$500 per share. The offer would net the Continental Company \$1,000 per share of the Ford Motor Company of Canada, Ltd., stock.

"This department, upon receipt of the first letter of inquiry, wrote to the Continental Company requesting that the securities be qualified under the Capital Issues Law of March 9, 1923. No answer has been received to this letter and, so far, the offer is being made in defiance of the law.

"The circulars offer a very attractive proposition to the investing public, but the stock sells on the curb market at \$496 per share. The proposition offered, if accepted, will net the Continental Company \$1,000 for Bankers' Shares, which do not amount to more than trust certificates issued against deposited shares of stock, which sold on June 27, 1925, on the curb market at \$490 per share. 'A hint to the wise is sufficient'."

USE PENNY COLUMN—IT PAYS

PARKS-BELK CO.
