BIBLE THOUGHT - FOR TODAY: Forsake Vell: Thus said the Lord of hosts: Turn ye now from your evil ways, and from your evil doings...

REPUBLICANS UNEASY: There are ten seats in the Senate now held by Republicans that are likely to be held by Democrats after the next election.

A newspaper correspondent in Washington finds that of the 35 Senators to be chosen next year only seven are Democrats, and they come from the certain Democratic States of the South.

Indiana, where Senator James E. Watson, the assistant Republican floor leader of the Senate, is a candidate for re-election, is now classed as a doubtful state, because Watson is opposed by the Beveridge and New factions.

A newspaper correspondent in Washington finds that of the 35 Senators to be chosen next year only seven are Democrats, and they come from the certain Democratic States of the South.

Wisconsin the La Follette followers are reported to be determined to defeat Senator Lenroot, who is a dependable administration Senator.

If Governor Al Smith decides to make the race in New York for the Senate against Senator J. W. Wadsworth, Smith's election is regarded as reasonably certain.

Senator Cameron of Arizona a Republican, was elected on the Harding landslide in 1920, as was Senator Ernst of Kentucky, Weller, of Maryland, Odell, of Nevada, and Spencer, of Missouri.

It is believed that the Democrats have more than an even chance in Ohio, where Senator Willis, another Harding landslide Senator, is a candidate for re-election.

Dr. Royal S. Copeland, former health commissioner of New York City and now United States Senator from the Empire State, writes a series of health talks each day for a syndicate and recently he has had much to say about worry.

each day for a syndicate and recently he has had much to say about worry. He believes worry is carrying many persons to the grave and he warns against it. He says:

Look over your friends with a critical eye. Note how they appear some given morning. One will have sparkling eyes, good color and a happy smile.

Another will drag about as if his feet weighed a ton. The face will be so long the chin appears to rest on the chest. A third friend seems absent-minded and in a dream.

Too many of the human family suffer from worry. "Worry killed a cat," is the old saying. Worry has killed the usefulness of many a day. It has destroyed the efficiency of many a hard-working individual.

It is almost silly to tell anybody not to worry. The causes of fretting are so varied and so difficult to reach that it is no light task to overcome the evil practice.

Worrying lowers the vitality. It clogs the mental wheels. It slows down the brain processes. It lessens the efficiency to a marked degree.

CONFEDERATE MEMORIAL IN STATE: Gutson Borglum thinks he can create in North Carolina a Confederate Memorial that will take rank with the one now under construction at Stone Mountain.

The sculptor says his "original conception of a massive memorial on the face of a rock mountain expressive of the true Confederacy" will be carried out in this State.

Borglum may be able to create a memorial on a North Carolina rock, but he will never be able to lesson the grandeur of the work at Stone Mountain. In the first place this State offers no such site as Stone Mountain, and in the second place Borglum's efforts will not have the same support as has been given to the Stone Mountain work.

We would like to see Borglum create a memorial in this State, but we hope it will not be created as a rival to the one at Stone Mountain.

Iredell Farmers Growing More Barley: Statesville, July 20.—Due to a demerit station placed three years ago on the farm of H. Y. Mott and because of favorable experiments on the Piedmont branch station here, barley growing in Iredell county is now on the increase.

Mr. Graeber reported that plans were about completed for staging a big farmers' picnic at the branch station July 23rd.

DINNER STORIES

First girl: "How are you getting along with your breach of promise suit?" Second girl: "Rotten—the fellow wants to marry me."

First girl: "That just shows; you can't trust them. Men are so fickle!" "Pa," said Clarence, "what do they mean by the quick and the dead?"

The quick, my son, are those who are able to dodge motor cars; the dead are those who are not quick!" "What do you think you boy is going to be when he grows up?"

"Well, he has the makings of a poet—he's always complaining that he's hungry!" Customer: "I tell you honestly that I won't be able to pay for the suit for another six months. When will it be ready?"

Tailor: "In another six months." Young America: Bessie had a new dime to invest in an ice cream soda. "Why don't you give your dime to the mission?" said the minister who was calling.

"I thought about that," said Bessie, "but I think I'll buy the ice cream soda and let the druggist give it to the mission." Nurse: "Willie, dear, don't you want to come to see the sweet little sister a stork brought you?"

Willie: "No, I don't. I want to see the stork." "Bobby," said the teacher sternly, "do you know that you have broken a commandment by stealing James's apples?"

"Well," explained Bobby, "I might just as well break one and have the apple as break another and only covet it." Little Jimmy climbed on a chair and after a breathless moment of balancing just escaped a fall.

Seeing this, his mother reproached him tenderly. "Aha, Jimmy," she exclaimed, "who just had a scare?" "Mummy did," replied Jimmy, coldly.

Mother: "Now, Richard, I want you to take a good soaking bath; you're a sight!" Richard: "I can't see any use o' bathing, motha, when I go and git dirty again right off."

Better Late Than Never: Twenty years ago a man in St. Louis told his bride that they could not then afford to go on a honeymoon; they would have to wait until they saved up enough money.

The years went on, and no honeymoon trip was taken. One after another member was added to the original family of two, until today there are twelve children ranging in age from seven months to seventeen years.

Last month when the French liner Paris left New York harbor for Europe this 20-year-in-arrears honeymoon man, his wife and their twelve children were aboard. They were going to spend a big fat bank roll that has accumulated through years of successful living and saving. That's a real honeymoon!

Ox Gall Treatment Ends Liver Trouble: Overcomes body poisons that cause diseases of heart, kidneys and high blood pressure. All the blood in our bodies passes through the liver every 15 minutes. The liver is the blood's purifier.

Our blood is constantly poisoned by body toxins formed in food waste, and when the liver becomes weak or torpid, it cannot perform its work of purification and our systems are at once tainted by impure blood. These are the poisons that, if not destroyed by the liver, cause diseases of the heart, kidneys, blood vessels, and create premature old age.

Nature gives quick warning of a torpid liver. You have sudden sick headaches, dizzy spells; your stomach is acid from sour bile, your skin turns sallow, blotchy.

Doctors know the liver cannot be regulated by drugs, but a safe Nature substance has been discovered which will act directly on the liver. The discovery is purified ox gall.

Get from your druggist a package of Dioxol. Each tablet contains ten drops of purified ox gall. In 24 hours the poison toxins will be removed. Your liver will be regulated. Blood purification will begin. Sallow skin will clear. You will feel so much better you will know you have found the cause of your ill health.

Dioxol tablets are harmless, tasteless, and cost less than two cents each. These genuine ox gall tablets are prepared only under the name "Dioxol." If any tablet is offered you under another name, refuse it. Accept only Dioxol in the original, genuine package. Test Dioxol free. Mail this coupon now.

A Good Refrigerator in Itself Means a Big Saving in Ice—A Saving in Food, a Saving in Health

Leonard Refrigerators are especially well known because they are so sturdily built and no outside air can possibly enter except when the doors are opened, a patented idea on the draining pipe allows no air to enter the ice chamber. It cuts ice bills.
