

THE LUTHERAN PICNIC

To Be Held at the Cabarrus Fair Ground August 5th.

The Lutherans of the six counties comprising the Central District of the State are looking forward to one of the largest strictly church picnics ever held in this section at Concord Fair Grounds August 5th.

An excellent and varied program has been prepared for the day. Rev. W. H. Greener, D. D., of Columbia, S. C., who has been recently offered the presidency of Lenoir-Rhyne College, will be the chief speaker.

A specially attractive feature of the program will be the children's hour under the direction of a committee headed by Mrs. C. O. Lippard of Lenoir.

During the afternoon a divided program will be featured. The women will have an interesting program in the grandstand. The men will gather in a natural hillside amphitheater for a talk by Mr. Jas. L. Fisher, cashier of the Salisbury branch of the Wachovia Bank & Trust Company.

Mr. Hugh L. Sloop, of Mooreville, and Mr. S. Kay Patterson, of Concord, are in charge of the musical program. They have prepared some very attractive numbers that will place the music for this picnic in a class to itself.

Mr. E. W. Graber, Agricultural Agent for Iredell County, will be in charge of the "stunts" and athletic program for the day.

There will be a number of other features during the day, the chief of which will be the picnic dinner. A table is being provided that will eclipse the largest ever prepared by "Venues."

Mr. Rogers, in speaking of his inauguration as President, in case the people of the United States had chosen him instead of Calvin Coolidge, said:

"In my movie contingent I would have had Cecil DeMille (of 'Ten Commandments' fame) part the waters of the Potomac and let the people west of the river come over. If he deided the Red Sea, it ought to be a cinch to handle the Potomac (it's more a name than a river, anyway)."

Mr. Rogers, like so many others, has been impressed by the marvelous feat of photography in this picture, the parting of the waters to allow the Israelites to pass through.

The waters of the sea actually divide. A path is opened. On the side, high walls of water glisten. The children of Israel walk through and arrive safely on the opposite shore.

John Lee Puckett Died Here Today. John Lee Puckett, twenty-nine, died today at the Concord Hospital, where he had been taken in an effort to save his life following a serious illness.

Mr. Puckett was the son of Mr. and Mrs. Albert L. Puckett, of Floyd County, Va. For a number of years he had worked in Concord as a linehand.

The course of the Henley regatta, the greatest rowing event of the world, is one mile-350 yards. The races are rowed upstream, and the time is close to 7 minutes.

There was some objection to the distribution of the congregation manifested at the conference Sunday, but essentially those who spoke on the subject declared their willingness to abide by the decision of the majority.

There was some objection to the distribution of the congregation manifested at the conference Sunday, but essentially those who spoke on the subject declared their willingness to abide by the decision of the majority.

Washington, July 21.—The Bryan anti-evolution movement is on its way to Washington. When Congress meets, bills to stop the use of government money for ethnological research will be introduced.

Excursion to Washington. The Southern Railway will run an excursion to Washington July 31st. The special train will leave Concord at 9:35 p. m. on that day, arriving at Washington at 8:40 next morning, Saturday, August 1. Fare for round trip only \$10.50.

MOOREVILLE CREAMERY

PAID \$100,000 A MONTH

Mooreville Plant Has Paid Out \$115,000 to the Farmers. Mooreville, July 20.—The annual picnic and stockholders meeting of the Mooreville co-operative creamery will be held at Stewart park, this city, July 30.

This event usually attracts several thousands of visitors and a great day is had. In the forenoon there will be speeches delivered by John A. Arey, of the state dairy department of the A. and E. college; C. A. Cobb, editor of The Southern Ruralist, Atlanta, and J. A. McClain, of the dairy extension of the United States agricultural department.

An hour's intermission will be taken after dinner, for the amusement and renewing of old friendships, then at 2 o'clock the several hundred stockholders will assemble in the pavilion to discuss creamery matters and to hear Secretary J. A. Stewart's report and elect officers.

At the close of business June 30 the books showed that the creamery had purchased from the producers 257,804 pounds of buttermilk and had manufactured and sold 314,474 pounds of butter at an approximate return to the producers \$112,000 or an average of \$10,000 each month during the year.

The average price paid per pound for butter-fat for the year was 42 cents. The stockholders will be paid his annual dividend of six per cent. The greater portion of stockholders are cream producers and will get the dividend in addition to the good price paid for the butter-fat.

This industry has furnished ready money for a large number of farmers throughout the territory that had no other means of getting hold of ready money the past year, having been stripped of their grain and cotton crops by hail and storm.

SAYS TENNESSEE NEEDS EDUCATION

Dr. Chase Says Anti-Evolution Law Is Due to Public School Lack. New York, July 20.—Lack of a thorough system of education in the South is responsible for the Tennessee anti-evolution agitation, according to Dr. H. W. Chase, president of the University of North Carolina, who issued a statement today on the South's great need of native leadership in education.

Dr. Chase is a native of Massachusetts and a graduate of Dartmouth College. "There exists in the South today," Dr. Chase said, "a very definite need of facilities for investigation equal to the best anywhere in the country in the whole field of what might be called 'human relationship'—its social and economic problems of law, education, political science and government, sociology and public welfare. The need for trained leadership in all these fields is acute."

Dr. Chase attributed the Tennessee anti-evolution law to a lack of public school education and the consequent lack of anything in science and evolution except an "instrument of destruction" to their long cherished beliefs.

"Tennessee would have rejected it if Eastern public school attendance laws had been enforced ten years ago in that state," he declared.

In speaking of the need of better facilities for teaching law in the South Dr. Chase said: "There has never been in the history of the South but one law school strong enough to earn a reputation beyond the borders of its own State. Something is lost as long as men who are ambitious for the best sort of legal training feel it necessary to go out of the State to get it."

Again, Please Note. Our good friends are again notified that all notices of entertainments, lectures, plays, box suppers, etc., are charged on, to which an admission fee is charged or at which anything is sold, when appearing in The Tribune, are charged for at the rate of 5 cents per line, and that no exceptions can be made.

To Clean Howells Church Cemetery. On Thursday the regular annual cleaning of Howells Church cemetery will be held. All persons who have friends or relatives buried at this place are requested to be present prepared for the work.

PENNY ADS. ARE CASH

Please don't ask us to charge Penny Ads, as terms on these is cash. The amounts are so small that we cannot charge them. If you telephone a Penny Ad, to the office you will be sold the amount of the charge and will be expected to send it to the office promptly.

Rare Theft From Government. It isn't often that an employee can steal paper money from the bureau of engraving and printing at Washington. Each sheet of notes is receipted for by so many hands that its loss is almost instantly detected.

But Mrs. Grace Crawford, a poor widow, had temptation thrust upon her. While at work in a department that handles the notes as soon as they are taken from the press, a gust of wind blew three sheets of \$10 bills from a fellow worker's desk into her lap. She put back only two, hiding the other in her clothing. Though the bills were unsigned she tendered one to a street car conductor in exchange for fare tokens.

Because he seemed to regard the note curiously, Mrs. Crawford became possessed of a sudden fear and destroyed the other bills.

Secret service men traced the unsigned note to her humble home and she was arrested. When it was found that she was in financial straits, supporting a 17-year-old daughter and a 18-year-old son, she was paroled. Mrs. Crawford blamed her predicament on trying to provide her daughter with things "like other girls."

With the first half put away on ice, the Fort Worth Cats appear to have excellent prospects of adding another to their long list of Texas League championships.

New Cape. The cape that is most favored by fashion is not the large, circular affair of former years, but a sector rather, as this one is. It gives an excellent line to the back of a coat but does not jeopardize the slender line or the youthful effect.

SOUTHERN R. E. OFFICIALS PAY VISIT TO CONCORD. Declare That Concord Has More Paved Streets Than Any Other City of Size in the Country. Concord has more paved streets than any other town of its size in the United States, was the statement made this morning by J. W. Wassum, General Superintendent of the Southern Railway, who was a visitor in the city today.

Insists Jazz Music Won't Fill the Churches. New York, July 19.—If hymns were played in dance time and the organ was played at the churches, and some home there would be no more need for worry about how to fill empty church pews, Ernie Golden, director of a hotel orchestra, asserted from the pulpit of the West Side religious forum today. His talk on "Better Music in Religion" was part of the regular Sunday morning service.
