Entered as second class mail matter at the postoffice at Concord, N. C., under the Act of March 3, 1879.

SUBSCRIPTION RATES In the City of Concord by Carrier: One Year \$6.00 Six Months 3.50 Three Months 1.50

RAILROAD SCHEDULE In Effect June 28, 1925 No. 40 To New York 9:28 P. M. No. 136 To Washington 5:05 A. M.

BIBLE THOUGHT FOR TODAY Bible thoughts memorized will prove a priceless heritage in after years.

OUR BUILDING RECORD. Six States in the South had more building work during the first six months of 1925 than did North Carolina, according to Walter J. Matherly.

During the first six months of 1925, writes Mr. Matherly, "North Carolina continued to make great progress in building operations. The total volume of new construction for the first six months of 1925 as reported by twelve cities in the State was \$19,322,275.

Among the sixteen Southern States, North Carolina ranks seventh. Heading the list is Florida with a total volume of new buildings amounting to \$72,341,000.

Quoting the Semi-Annual Survey, containing statistics for 130 cities in the South, Mr. Matherly pointed out that Charlotte led the State with a total of \$4,450,000, followed in succession by Asheville with \$3,158,000.

One of the significant things included in the Survey is the reference to continued progress in the textile industry. "Two of the outstanding reasons," says the report, "for continued textile expansion are the trend of northern manufacturers towards the southern plants and the determination of the southern mill men to obtain their share of the fine cloth business of the country."

TIME TO GET PLAYGROUND IS AT HAND. We hope the committee appointed by the aldermen to inquire into a playground for Concord will be able to make a favorable report.

Gastonia people want more parks and playgrounds there. The Gazette of that city pointing out that "the oppressive weather of the past few days served to emphasize the need of more parks and playgrounds in Gastonia."

The driver who does not learn that power of imagination is the foundation of the art of driving does not do his duty to himself or his brother drivers.

Most accidents in which mediocre drivers are concerned occur from faulty turning of curves, not giving enough warning of approach, stopping needlessly on corners, cutting-in, and so forth; all cases of faulty imagination.

A good driver will never overtake another on a curve because he will visualize the approach of a car from the opposite direction. For the same reason he will take his curves and corners on his own side of the road.

The value of imagination in driving lies in the fact that it reduces the time between the action of the brain and that of the hand and foot. In most emergencies it is the saving of a small fraction of time which makes the difference between freedom from fear and a minor, certain danger.

The driver who understands the game has the greater part of the difficulty solved before he has to face it, with the result that his control over his car is as absolute as it can be.

The best advice that can be given the motorist of today is to be prepared, think in advance, look in advance, hear in advance and act in advance as far as is feasible.

RELIGIOUS EDUCATION NEED OF CHURCH

Hope of Religion Rests With Men Trained in Right Manner. Lake Junaluska, N. C., August 17.—(AP)—The future of the Church itself is bound up in the success or failure of the present widespread movement on behalf of religious education, was the opinion expressed here by Dr. R. L. Calhoun, of Yale University Divinity School, concluding a series of lectures on "The Meaning of the Present Movement in Religious Education."

Preparations are being made at both the State University and State College for the entrance of more than 600 Freshmen. More than 600 new men have already signed up at the University and the total there may reach 800.

CHAPTER V—Continued Lost in his own reflections and reading he neither noticed that the voice was new and unfamiliar nor looked up when he said, "Good morning, Minnie. Ham and eggs, turned up—toast and coffee—and bring me grapefruit first, please."

CHAPTER V—Continued The menfolk of Crater City had long since accepted Bob on the strength of his knowledge and his fast; the children and dogs for his character. But grapefruit for breakfast and addition to the only parts of the morning newspaper that nobody else in Crater City ever thought of reading were habits.

They Believe Conditions Existing From 1880 to 1882 Are Repeating Themselves. Long Island, Aug. 16.—Father Gabriel, of France, is not the only one who has been predicting a long and hard winter for 1925-26, according to Fred H. Lytton, of this place.

Reformers and counter reformers alike found their best means of conquest to be educational means. The alliance between the Church and education has been long often proved.

On the negative side, "Dr. Calhoun continued, "Christian men and women must learn to be as mercilessly critical of slovenly or dishonest thinking, both without the Church and within, as the most scrupulous of secular scholars can be.
