

Trip of County Bee Club

It is proposed that the members of the Cabarrus County Bee Club, and others interested in beekeeping, attend, in a body, a meeting of the N. C. and S. C. Beekeepers Association, at Charlotte, on Friday, September 11th, 1925. Leaving Concord at 8:00 A. M. so as to get to Charlotte by 9 A. M. There will be addresses and demonstrations throughout the day. For full particulars see the Concord Times and Tribune of September 7th.

R. D. GOODMAN, Secretary-Treasurer.

Concord, N. C., Sept. 2, 1925.

THE UNIVERSAL CAR

The service on your car should be a source of continual satisfaction. If it is not, your dealer has failed to fulfill his obligation to both you and the manufacturer of your car. Such failures, though apparently of minor importance, will not permit a permanent success. The service we can offer you as a Ford owner is worthy of consideration. At home, we will not fail you, and wherever you may go, far or near, Ford service as at your command.

NEXT TO GOOD VALUE IS GOOD SERVICE

LOCAL MENTION

All wrestlers in the city and county are asked to report at the Y. M. C. A. this evening for preliminary organization of the class.

Marriage license has been issued by Register of Deeds Elliott to W. S. Blackwelder, of Salisbury, and Miss Anna Belle Linker, of this city.

According to a deed filed Thursday at the court house Mrs. Amy V. Watkins has sold to E. C. Barnhardt for \$100 and other valuable considerations property in No. 4 township.

One hundred photographs, made by the Concord tourists, will be placed on exhibition at Ebird's next week. These views give a detailed picture account of the trip.

Rev. W. C. Jamison, of Kannapolis, has returned from his vacation and will fill the pulpit in the First Presbyterian Church, there at the usual services Sunday.

Alfred Owens, a man over 50 years of age, was committed to the jail this morning on an alleged theft of a knife from a local five and ten cent store. He will be tried this afternoon.

Irene, six-months-old daughter of Mr. and Mrs. Fred C. Lemmond, died Thursday at their home at Cabarrus. Funeral services were held today at the home and interment was made in the cemetery at Howells Church.

Seven defendants are to be tried in police court this afternoon, police officers stated this morning. Six of the defendants are charged with speeding and the other with false pretense, the police blotter shows.

The Y. M. C. A. physical program in the schools of the city will not begin next week due to the fact that this time will be necessary for getting the regular classes for the coming year. Regular classes will be begun Monday a week.

All city school teachers will meet at Central School Building Saturday afternoon at 4 o'clock. High School teachers will meet Saturday morning at 11 o'clock at the high school building. Supt. Webb requests that the teachers have their health certificates.

Kannapolis lost its game in Fayetteville Thursday, the two teams now being even in the important series for the state independent championship. The two teams are in Kannapolis for a game this afternoon and will play there again tomorrow. Hundreds of local fans went up for today's game.

Theresa Williams, the six-year-old daughter of Mr. and Mrs. R. B. Williams, died at Mercy General Hospital in Charlotte Thursday. Funeral services were held this afternoon at the home of the parents of the Norcott Mill and interment was made in Oakwood cemetery.

Miss Nancy Leutz arrived in Concord this morning to spend the day with relatives and friends. She was en route from Greensboro, where she had been visiting Mrs. Fred Correll, to Rock Hill, S. C., where she will attend school this year at Wthrop College.

Pittsburgh now has a lead of nine games in the National League, having won again Thursday while New York was idle. In the American League the leaders were idle. In the South Atlantic Charlotte smothered Augusta but Spartanburg kept the lead by winning also.

The annual picnic for Confederate veterans of the county is being held today at Rimer. Reports from the picnic ground at noon stated that hundreds of persons were present for the picnic, many Concord persons being among the guests. The program this year is said to be one of the best ever arranged for the veterans.

Those persons who thought the cold days of last week were the end of summer were badly mistaken, for Thursday was one of the hottest days of the summer. Temperatures approached the 100-degree mark in the sun during the afternoon and there was little relief from the terrific heat during the night. There are still no definite signs of rain.

Chief L. A. Talbirt, of the local police department, is scheduled to make an address before the first annual convention of the North Carolina section of the National Association of Policemen which will be held in Greensboro on September 9, 10 and 11. All local officers are members of the association and several plan to attend sessions of the convention.

Charged With Making Attack on a Young Girl. Gastonia, Sept. 3.—John Somerset, young white man of Gastonia, charged with criminal assault upon an eighteen-year-old girl of West Gastonia, is held in the local jail unable to raise a \$1,500 bond. It is alleged that the man took the girl into a patch of woods and attacked her. A farmer was attracted to the scene and stopped the assault. The girl then fled to a negro home nearby. Somerset will be tried in Superior Court.

TORCH THAT MELTS THE TOUGHEST STEEL

Liberty. There's trouble ahead for the bankers, and they know it and are arming themselves against that new peril. But their defense tactics must necessarily be reinforced greatly by science before they will be of much avail against the new "yeggman," says an article in this week's Liberty by John W. Wilson and Edward H. Smith. Wilson is a widely known reformed burglar who piled his swag in many parts of the country and was known in the underworld as "Carolina Jack." Some years ago he ceased his bank-robbing activities and has since made a name for himself in the realms of legitimate business.

After recounting a number of daring escapades in which Wilson figured during his safe blowing career, before he gave it up to launch into peaceful, lawful trade, the article continues:

"I do not tell these things out of my past because I feel any leavard. In fact, what started me to writing about this is the circumstance that such scenes are coming back, after having been almost wiped out in the course of the last dozen years.

"For now comes the oxyacetylene torch. Such a torch can be found in any garage or machine shop, and is one of the most common of modern tools. Used by a man who understands the technique, it will play havoc with any ordinary safe in a few minutes and it has the advantage of being silent. By means of it the yegg will be able to attack many banks which he did not dare tackle with the noise-making explosives. In fact, he has already pulled off upward of three hundred attacks on banks and other business houses.

"This is only a small beginning, partly because yeggs are just learning to use the torch and partly because there are later and constantly more powerful types of the torch being developed.

"I may as well mention some of them. There is the fluxing rod, used with the ordinary torch, which makes it at least twice as powerful. There are the big welding torches, recently developed.

"There is the pipe touch, which is to the ordinary thing what a siege gun is to a rifle. Finally, there is the pipe torch used under a box of graphite, giving a most terrific heat, which is capable of reducing almost any safe or vault now in use. This is called the dog house attack, for those who like the colorful terms of the craft.

"Inventions will have to be perfected to resist such frightful weapons, but it will be years before the new torch burglar can be headed off. Meantime there will be the worst siege of burglaries ever recorded, or I don't know my game.

"I said that I got out of yeggdom

because I didn't want to turn bandit, and that's the truth. He takes the most desperate chances, and when he feels the need he does not hesitate to shoot men down.

"Your first-rate yegg is never a killer. He is out for the money, and he knows that the sure way to get the law after him relentlessly and without rest is to kill some poor fellow. But while the yegg, with such exceptions as exist in all classes, refrained from killing, the officers usually shot him down at any and every opportunity."

The Pistol in the Car. Charlotte Observer. The finding of a pistol tucked away in the left side pocket of the Ford automobile in which W. W. Ormond sat when he was shot and killed by W. B. Cole is a circumstance that doubtless will play a part in the trial of the Rockingham manufacturer. Certainly the defense may be expected to make all possible use of the fact that a deadly weapon was carried in the car, a fact which usually suggests that one is "looking for trouble."

Two days following the homicide a dispatch sent out from Rockingham to the daily papers of the State, contained this unqualified statement: "No weapon of any description was found on Ormond or in his car."

The statement was sent out by a correspondent on the scene, a man who has lived in Rockingham for years and was as familiar with the circumstances of the homicide as any many could be who had no connection with it or with the parties thereto.

Now the question naturally arises, why has the discovery of the pistol in the automobile been kept from the public so long, for two weeks? The homicide was the talk of the town for days, and doubtless it is the chief topic of comment down there even yet, more than two weeks after the tragic Saturday afternoon. Every bit of information that could have any bearing on the case one way or the other was a matter of much discussion, once it came to the knowledge of the people in the streets or the stores and offices. Why was the discovery of the pistol never talked so that any newspaper man, of the several who spent much time trying to get information bearing on the homicide, might chronicle the circumstance? What motive could one have for concealing the facts? Was it regarded as an incident of no particular interest or significance?

Give "Pa Rooster" a Vacation. The Progressive Farmer. The Heys will lay just as many eggs without a rooster. Such eggs will not hatch, of course, but they keep much better, don't spoil nearly so quickly in summer as eggs from flocks where roosters run with hens.

Hence as one of our farm poets say: "Go put the rooster in a pen 'Till breeding season comes again; Or if he's just a common scrub, You'd better make him into grub."

Car Williams of the Oklahoma Farmer-Stockman is emphatically campaigning for this idea. Under the heading, "Goodbye, Pa Rooster," his paper says: "The time has arrived for Pa Rooster to take his annual vacation, and on every well-conducted farm arrangements are being made for his departure."

"His lusty crew may be missed for a time by the light sleepers, but few people will regret the absence of this harbinger of the day.

"Pa Rooster is an important individual during March and April when he performs the worthy function of being father to all the baby chicks on the farm, but after the chicks are hatched, he is of no further use and is more or less of a nuisance by being in the way, eating feed which might well go to the more useful members of the flock.

"Pa Rooster's vacation is not a matter of sentiment to the modern poultry keeper but is looked upon as a practical business proposition. The city man who orders soft-boiled eggs during July or August appreciates the fact that Pa Rooster is on a vacation when he eats a clean, wholesome egg. Should he, however, be so unfortunate as to draw eggs from a farm where the rooster stays home all summer, the quick-hunch counter is likely to lose a customer and the price of eggs takes another tumble."

"It's an ill wind," said the Kansas farmer, as his nagging wife disappeared in the tornado.
