

No Better Time Than Now to Get In Our Big Subscription Campaign

Concord Tribune-Times Great "Everybody Wins" Campaign for Subscriptions Is Now On.

THE EARLY BIRD CATCHES THE WORM

Subscriptions Count More Now Than Afterwards. Now Get in the Race and Let's Go.

"S. O. S." That is a call for help. It is a call to help yourself. The Concord Tribune and Times great "Everybody Wins" campaign is on. To be frank about it, comparatively few candidates have entered so far. That, of course, is The Tribune and Times funeral. You are not interested. But you ought to be. Especially if you have considered being a candidate.

It ought to dawn on you that, with a condition like this, your chances are better. If you will use your head, you'll see the light. The four new enclosed cars and the \$4,400 in cash prizes will be awarded. That fact is certain.

Now the man or woman with a "go-get-tem" spirit is in better shape than if contestants were clamoring to get in.

Too Many Prizes. Just the why of this—that is the question. Perhaps the great array of prizes has scared some of you. Were the prizes of much less value you would fall all over yourselves to get in. But because \$10,000 is put up you think you will have to have too many votes.

Godness alive, it doesn't make any difference how many or how few votes are cast. The high man gets his choice and others get prizes in proportion.

Get Busy Now. It is all in your head. It's a condition. Get your thinking apparatus to functioning and you'll see it all in a light that will make you wonder why you haven't seen it before.

Subscriptions received now, you know, count more than afterwards.

The early bird catches the worm. That's the cream of the easy pickings. And the easy pickings, with the great vote credits may be the deciding factor in this election. Now, get in. Let's go.

Remember, there is only one way to make nominations. Candidates must either nominate themselves or be the choice of some friend who will do it for them. The management is not going to place any names in the campaign, and if you want to be sure that your name is among those from which the owner of the grand prize is to be chosen, the surest way is to send or bring on your nomination blank yourself. Do this at once.

Office Open Evenings. During the big prize campaign the election headquarters in room 200, Cabarrus Savings Bank building, will be open every evening until 9 o'clock to answer inquiries, receive votes, etc. Phone 570.

Bear in mind it will not take long to win one of the big prizes. The campaign will be a very short one. And, at the close of the campaign, the votes will be counted by a committee of prominent business men. Those who have obtained the greatest number of votes will be formally presented with the handsome prizes that are won simply by collecting votes in spare time.

Now Is the Time. Now, right now, TODAY, is the time to begin.

If you want any one of the four splendid new cars so that you can ride when you wish and take your friends or your family driving, there is no reason why you can't win it. Think of having a car like this for your very own to go where you wish and stop as long as you like—a car that has a reputation for reliability and all the way through, luxurious, comfortable and powerful. That's just what you can have if you are willing to put forth a little effort and a little hustle and energy during your spare time.

People Say "I Can't." Nearly every candidate will say: "Oh, I may try, but I know that I can't win." All will be of about the same opinion. But the man or woman, boy or girl who first decides that he or she is going to win and has the

Program Week of Sept 14 to 19 STAR THEATRE Monday and Tuesday "LONG LIVE THE KING" With Jackie Coogan. A picture every child should see: Little Jackie Coogan always thrills you. Metro Special. Friday Only "HONOR AMONG MEN" With Edmund Lowe. It's a Fox picture and a good one. Comedy: "RADIO RIOT" Saturday JACK PERRIN IN "THE CANYON RUSTLERS" Also a Comedy WE SHOW THE BEST OF ALL THE REST

BIG MONEY PRIZE AWAITS NON-STOP ATLANTIC FLIER

A \$25,000 Prize Offered by Raymond Orteig, of New York. Washington, Sept. 14.—(AP)—While there are several trophies in America offered for outstanding events in aircraft performance, officials of the National Aeronautic Association here know of only one cash prize now open to competition. This is the \$25,000 prize offered by Raymond Orteig of New York, and open to aviators crossing the Atlantic between Paris or the shores of France and New York on a non-stop flight, in either direction.

The money is now on deposit in an American bank and has been available since 1919. Recently two groups of aviators, one in France and one in the United States, have started plans to capture it. Mr. Orteig formally extended the time for the prize award until June 1, 1920.

Should a non-stop trans-Atlantic flight begin in New York, officials of the National Aeronautic Association would have charge of the official inspection. The Aero Club of France would handle the inspection at Paris.

Carl F. Schory, official timer of the National Aeronautic Association, explains that in non-stop flights, such as the Orteig prize, containers, the gasoline tanks of the aircraft are sealed to prevent refilling. Officials are also able to keep tabs on the movements of a non-stop aircraft through use of a sealed barograph. This instrument, which looks like a small box, contains a recording pen which works in harmony with the pressure of the barometer and registers on a revolving cylinder the height at which a plane flies and the time it remains in the air.

STATE BOOM IN WEST DRAWS FROM FLORIDA

Charters Show That Carolina Real Estate Projects Are Popular in the South.

Raleigh, Sept. 13.—North Carolina's boom in the west is better known in Florida than in the Tar Heel Kingdom, business men say, but daily charters from the secretary of state's office betray the fact that the state is thriving.

The six charters Saturday all came from the west. One of these was for a Saturday morning's papers because it carried the grandiose plans of Thomas Dixon and others. But the other five institutions are in the west. The state is getting set to go and Florida folks will come up and trade.

They see in the state the increase from summer's heat that their state offers from winter's cold. Realtors in Raleigh and Greensboro have put themselves on record as favoring start of a big boom two years ago but for one and another reason the thing collapsed. Perhaps the spirit which makes men go to foreign parts was behind this failure. Anyway, the country is coming to North Carolina and the charters show that the section is busy.

Deny Henry Ford Has Bought Gas.

Gastonia, Sept. 13.—Local officials of the Manville-Jencks Company, owners of the Luray Mills here, deny that the plant has been sold to Henry Ford a figure between \$6,000,000 and \$7,000,000, it being rumored here today that the automobile king is using it to make tire fabric.

confidence to do his or her very best is very likely to be proclaimed among the winners of the very biggest prizes.

More Votes Given Now. Understand, too, that more votes are given now for subscriptions than at the end of the campaign. This is done in fairness to the ones that get out and hustle at the start and will not allow anyone to step in at the last minute and win.

You can't buy these prizes—but you can win them by your honest and enthusiastic efforts. Votes positively will not be sold.

Get Started Today. Of course, you can accomplish nothing towards sharing in the grand gift distribution until you get started. So it is very important that you cut out the nomination coupon in this issue and send or bring it in this very day. Once started, if you are the ambitious sort, you will become the possessor of the kind of enthusiasm that will lead you to greater things—enthusiasm that should make one of the big prizes yours.

Get in and Win. Read the announcement of the campaign and start today. Bear in mind that every active participant who does not land one of the big prizes will be paid in cash for his or her efforts.

Important to Candidates. The names of the candidates who are being nominated in the mammoth "Everybody Wins" election will be published within a few days. All persons who wish to share in the gift distribution should send in their names immediately so that they may be included in the list.

The entire campaign is so extremely short in its duration that an early start is imperative to those who desire the larger prizes.

If you have not yet done so and wish to share in the greatest distribution of gifts ever made in Concord and vicinity, rush your nomination blank to the election headquarters of The Tribune and Times at once. Phone 570.

Digging For Boy Buried by Landslide

The steam shovel used to dig for the body of Thomas Zygil, 14-year-old boy of Chicago, who was buried under tons of earth, when playing in a brick clay pit. The arrow points to the spot where the body is believed to be entombed under the sticky clay. A companion similarly caught was rescued by the fire department.

JUSTICE HOKE WILL BE BURIED TUESDAY NEAR FORMER HOME

The Services Will Be Held In St. Luke's Episcopal Church at Lincolnton, His Former Home.

SERVED STATE FOR 34 YEARS Was Associate Justice and Chief Justice of Supreme Court of State For Number of Years.

Raleigh, N. C., Sept. 14.—(AP)—North Carolina today mourns the passing of one who had given 34 years of his life to her service as a jurist. Wm. Alexander Hoke, former chief justice of the Supreme Court, died here yesterday morning of heart failure while apparently recovering from a slight and successful operation upon the thyroid glands. Death came peacefully to the aged jurist, who was in his 74th year. He had been talking to a nurse at the hospital when he turned his head slightly to one side and died instantly. "Heart block," the stoppage of blood flowing from a main artery to the heart, was given as the cause of death.

Today funeral arrangements had been completed, which provided for burial at Lincolnton, N. C., in his former home, on Tuesday at noon, in St. Luke's Episcopal Church. The body, accompanied by relatives and friends and the entire membership of the Supreme Court, will leave here tonight on a special car for Lincolnton. This afternoon the body will lie in state under the dome of the capitol while the public buildings of Raleigh will be draped in mourning.

INECESSANT DOWNPOUR IN OHIO KILLS TWO

Rain, Falling For 24 Hours, Suspends Streets Car Service and Damages Property.

Lorain, O., Sept. 13.—Rain which fell almost incessantly for 24 hours today caused the death of two persons and the suspension of street car service between Lorain and Elvria. Much property damage was caused by flooded cellars in south Lorain where sewers failed to carry off the rain. Richard Hart and Clara Trumbull were drowned, when, after their automobile stalled in South Lorain, they attempted to circle the flooded street. They stepped into a ditch more than eight feet deep. Another couple with them clung to the shrubbery and waded to safety. Rain was falling tonight.

Rainfall Relieves Drought in Western Part of State.

Asheville, Sept. 13.—Drought conditions in the western section of North Carolina have been greatly improved by rains in the past three days. Although the water supply in the mountains has not yet greatly responded to the showers, continued daily precipitation has fostered the hope here that the drought has really been broken. Cooler weather has also greatly alleviated the suffering of the past dry weeks.

Big Stock of Goodyear Tires at Less Than Cost.

Beginning today, York & Wadsworth Co. will put on sale \$10,000 worth of Goodyear tires at less than cost—all sizes and styles, no seconds. The sale will last for one week only. This is all fresh stock, and it will pay you to buy your supply for six months. See page ad, in both The Tribune and Times today.

Names Board To Make Inquiry Relative To Shenandoah Disaster

Nothing Remarkable About Burning Well. Dynamite Expert Spills Another Good Kinston Story.

Kinston, Sept. 13.—The "burning well" at the town of Richlands is no natural phenomenon, nor supernatural, according to a report had here today from George A. ("Dynamite") Wilkins, explosive expert and one who has been making an examination of the well. The well, sunk in the main street of the town many years ago, caught fire the evening of September 5. A gaseous substance on the surface blazed for many minutes. Subsequent fires were started by interested residents. Wilkins, arriving here on the 7th, stated that he had made a cursory examination, "exonerated" filling stations and arrived at the conclusion that practical jokers had nothing to do with the fires. Wilkins returned for another investigation. Though the nearest gas station is fifty feet or farther from the well, Wilkins today reported that the "inflammable substance is refined gasoline, seepage from a filling station some distance away." He stated that the leak would be stopped and the well redeemed as a source of drinking water. Earlier examinations of the filling stations in the neighborhood had shown no leak.

Hamilton Holt Now College President

Woodstock, Conn., Sept. 14.—(AP)—Hamilton Holt, unsuccessful Democratic candidate for the U. S. Senate at the special Connecticut election last December, has accepted the presidency of Rollins College, Winter Park, Fla., and is on his way to Florida by automobile to take up his new duties. Mr. Holt is a graduate of Yale. For many years he was editor and owner of the Independent.

High Point College Will Open Tuesday

High Point, Sept. 13.—High Point College will begin its fall term Tuesday with a large enrollment. At the college today it was stated that more than 200 students are expected to register this week.

Admission Prices For Local Fair Are Reduced This Year

Although the Cabarrus County Fair this year is to be the biggest and best yet offered, admission prices will be less than they were last year, according to an announcement made by Dr. T. N. Spencer, secretary of the fair association. Admission prices this year will be: During day, 50 cents for adults and 25 cents for children; at night, 25 cents for all. Last year adults had to pay 75 cents to get in the ground, it was pointed out by Dr. Spencer, and regardless of the fact that the fireworks, free acts and races are to cost more this year than ever before, admission prices are reduced. "We planned last year to make the admission price 50 cents this year," Dr. Spencer said, "but it has been reported to me that in some manner it has been circulated in the county that the price was to be raised to a dollar. There is nothing to such reports, of course, for we have never contemplated raising the price. In fact, we decided last year to reduce the price." Dr. Spencer is confident that visitors to the fair this year are going to be surprised at the excellency of attractions to be offered. While unusually fine free acts, races and fireworks have been offered the past two

COTTON USED LAST MONTH SHOWED AN AVERAGE FOR YEAR

While Amount Used Was Less Than During July There Was Little Difference in Two Months.

MORE ON HAND THAN LAST YEAR

Of the Total On Hand the Most Is Held In Compresses and Storage, the Figures Indicate.

Washington, Sept. 14.—(AP)—Cotton consumed during August totaled 448,656 bales of lint and 63,583 of linters, compared with 482,896 of lint and 62,513 of linters in July this year; and 357,000 of lint and 44,926 of linters in August last year, the census bureau today announced. Cotton on hand August 31st was held as follows: In consuming establishments 680,527 bales of lint and 97,230 of linters, compared with 866,250 of lint and 128,478 of linters on July 31st this year; and 552,789 of lint and 82,816 of linters on August 31st last year.

In public storage and at compresses, 1,040,178 bales of lint and 22,747 of linters, compared with 514,196 of lint and 28,628 of linters on July 31st this year; and 802,064 of lint and 44,239 of linters August 31st last year. Imports for August totaled 9,296 bales, compared with 9,227 in July this year and 4,136 in August last year.

BABE RUTH BACK IN HIS OLD-TIME FORM

Topped the List of Big League Home Run Sluggers During the Past Week.

Chicago, Sept. 13.—"Babe" Ruth displayed the greatest activity among the home run hitters in the major league during the last week. He cracked out four blows that were good for the circuit. The King of Swat said that his eye was as good as ever, but that earlier in the season he did not possess the strength, appears to be back in his old-time stride. The quartet of four-baggers ran the Bambino's total to 19. The Babe's clouting was an inspiration to Henry Gebrigg, the school-boy first baseman, and to Benjie Paschal, former Southern Association star. The pair of Yankees, checked in with three home runs each. None of the other sluggers under the big ten did as well. Rogers Hornsby, of the Cardinals, bagged one four-base run, thereby running his count to 36, while Bob Meusel, of the Yankees, his nearest rival for home run honors cracked out one and brought his total to 28. Leading home run hitters: Bob Meusel, New York, 28; Williams, St. Louis, 25; Simmons, Philadelphia, 24; Ruth, New York, 13.

WILL AID ANOTHER BOARD OF INQUIRY

Board Named by Secretary Wilbur Will Work With Board Appointed Last Week by the President.

Washington, Sept. 14.—(AP)—A court of inquiry to investigate the Shenandoah disaster with Rear Admiral Hilary P. Jones, chief of the navy's general board as its president, was appointed today by Secretary Wilbur. The work of this board will supplement that of the special board of 9 men appointed by President Coolidge to delve thoroughly into the question of the nation's air policies, which has been the subject of broad controversy since the Shenandoah disaster. The announcement of the personnel of the board to investigate the Shenandoah crash came on the heels of a denunciation of navy critics by Rear Admiral Moffet, chief of the navy's bureau of aeronautics. Those who will serve with Admiral Jones in conducting the inquiry are: Capt. Frank H. Clark, aide to the assistant secretary; Capt. Louis B. McBride, of the navy construction corps; Commander John H. Towers, lieutenant-commander Ralph C. Penney, Captain Paul Foley, director of the experimental laboratory at Bellevue, District of Columbia, and Lieutenant Commander Pierce will be his adviser. At the time Mr. Wilbur was announcing the personnel of the Shenandoah Board, the War Department made plans to have Col. Wm. Mitchell, chief figure in the whole controversy, available as an expert witness for the President's commission when that body begins its inquiry. It was explained at the War Department that neither disciplinary proceedings which have been initiated

Only \$1 in Bank

Leonard Wood, Jr., son of the governor-general of the Philippines, filed a petition in bankruptcy at Brooklyn, stating his bank account had dwindled to \$1. His liabilities exceeded \$14,000 due to losses in theatrical productions. He is a brother of Osborne Wood, who made a "killing" in Wall Street and then squandered his fortune in Paris.

THE COTTON MARKET

Opening Firm at Advance of 18 Points to Decline of 4 Points—December at 24.70.

New York, Sept. 14.—The cotton market showed renewed strength early today. Traders evidently were fearful that further rains reported over Sunday were damaging open cotton in Texas, and this view of crop conditions combined with relatively firm Liverpool cables and reports of an active demand for cotton goods led to further advances. The opening was firm at an advance of eighteen points to a decline of four today. Realizing caused some irregularity after the call, but offerings soon were absorbed and before the end of the first hour active months were 2 0/32 points net higher, with December selling at 24.70, or 260 points above the recent low level. Part of the buying seemed to come from the trade, while brokers reported a broadening commission house demand with comparatively little hedge selling from the South.

ROGERS PREPARES TO KEEP PRESENT POST

Would Rather Stay on Sea Duty Than Go With Bureau of Aeronautics.

Washington, Sept. 14.—(AP)—Commander John Rogers, of the PN-9 No. 1, appointed assistant chief of the bureau of aeronautics, advised Secretary Wilbur today that his personal preference is to remain on sea duty with airplanes. Commander Rogers added, however, that he would accept the position if in the opinion of the secretary "my services will be more valuable in the department." The message was sent by Rogers by radio from Honolulu. It conveyed the thanks of the crew of the PN-9 No. 1, and his own appreciation for "the honor attached to my selection as assistant chief of the bureau."

Cool Weather and Clouds Bring Relief to Charlotte.

Charlotte, Sept. 13.—Cooler weather today with cloudy conditions brought some relief from heat in this section. In all local churches today prayers were offered for rain. Government records here indicate a deficiency in rainfall for the year of nearly 17 inches. There has been no shortage of water and none is anticipated in Charlotte.

Supreme Court to Meet Tomorrow.

Raleigh, N. C., Sept. 14.—(AP)—The North Carolina Supreme Court will begin its third week of the fall term Tuesday, September 15th, and will hear appeals from the third and fourth districts.

Appeals from the first district were heard the first week of the term, and last week second appeals were brought before the court. Only appeals from the third district will be called on Tuesday; beginning Wednesday, appeals will be called as docketed.

Helmy Keeps at Channel Swim.

Cape Gris Nez, France, Sept. 14.—(AP)—Nine hours after the start of his Channel attempt, Isiah Helmy, Egyptian swimmer, was 12.4 miles north and 3.1 miles east of this place, his starting point. The water and weather conditions continue favorable.

Max Pam Is Dead.

New York, Sept. 14.—(AP)—Max Pam, noted lawyer, organizer with Vice President Chas. G. Dawes of the Central Trust company of Illinois, and founder of the University of Notre Dame School of Journalism, died today at his home here from a heart attack. He was 62 years old.

Bad Meat Kills 30.

Badajos, Spain, Sept. 14.—Thirty persons are known to have died in the villages of Badajos Province from eating bad meat, and many others have been made seriously ill. The authorities have ordered the destruction of all suspected meat.

ed against Col. Mitchell nor his official duties as chief of the air service in the 8th corps area would be permitted to interfere with his appearance before the special board.

The War Department will make it clear to the board that it does not wish to restrict in any way the testimony of Col. Mitchell. He may be asked to give, and that the board itself will be the only body with power to control the scope of its inquiry into the charges Col. Mitchell has made.

CAMPAIGNS IN NEW YORK CITY TO END IN NIGHT MEETINGS

One of Most Sensational Campaigns in History of City Will End With Tomorrow's Voting.

WALL STREET IS BETTING HEAVILY

Waging Odds Against Mayor Hylan.—The Democrats Furnish Most of the Fireworks.

New York, Sept. 14.—(AP)—One of the most sensational campaigns in the history of New York City will develop tomorrow into the nomination of democratic, republican and socialist candidates for mayor, and the sensations seemed likely to continue until the election a month hence. The fireworks have been largely on the democratic side. John F. Hylan, elected mayor for two four-year terms with Tammany support, is opposed for renomination by State Senator James J. Walker, Tammany designee, who has had the active support of Governor Smith. By both republican and democratic spokesmen the campaign has been interpreted as a battle between Governor Smith and W. R. Hearst for control of the democratic party in the state with a view to presidential politics in 1928. The governor, giving up a vacation, came from Albany to stump for Walker. Exchanges between the governor and Mr. Hearst at long distance and between the governor and the mayor at close range have been sharp and personal.

The mayor has ignored demands of Walker that he say whether he will support the democratic nominee and Tammany supporters, confident of support in the primaries, are looking forward to the election with less assurance because what seems to them the possibility of Hylan heading an independent ticket. Republican hopes of electing the executive of this highly democratic city run high. In fact, the organization candidate for the republican nomination, Frank D. Waterman, pen manufacturer, has largely ignored his opponents for the nomination, and centered his attacks on both Hylan and Walker, and saying they had been telling the truth about each other, and that Tammany which supports Hylan for two terms, has been just as responsible as Hylan for eight years of misrule.

Wall Street betting odds are from three and one-half to four and one-half to one against Hylan. Tammany leaders predict Walker's victory by 100,000 votes, assuming that fifty per cent of the 794,652 eligible democratic voters will go to the polls. John T. Cohan, campaign manager, predicts a similar victory for the mayor.

BELIEVE DROUGHT HAS FINALLY BEEN BROKEN

Rains Generally Throughout Drought Area—Many Prayers For Rain.

Atlanta, Sept. 14.—(AP)—Morale was revived today in the Southland as the southern folks saw an answer to their prayers for relief from the unprecedented drought and industrial plants were hopeful of resuming on a full time basis their activities at present curtailed by a shortage of electric power. Rains were general throughout the affected area yesterday, and additional rainfall was predicted for today along with a recession of humidity. Ministers in many sections joined their congregations in prayer for a break of the drought at the morning services yesterday and returned to their places of worship in the evening and said a word of thanks.

Alluring

Laure—siren of the Gold Country, who wrecked lives to gain—love. A virile romance of the Klondike, primitive passions and gold.

Read Winds OF Chance By REX BEACH In Large Daily Instalments Beginning in a few days

SAT'S BEAR SAYS: Fair in west and showers in east portion tonight; Tuesday fair, slightly cooler in northeast portion tonight. Moderate southwest winds.
