

Rain Fails To Halt Fine Interest In Big Cabarrus Fair On The Second Day

FIREWORKS RAINED OUT DURING NIGHT

But All Other Features of Regular Program Were Carried Out on Schedule Time.

DOG SHOW NEW FEATURE TODAY

Usual Free Acts and Fireworks Will Be Given Tonight, Starting at 6:30 O'clock.

Rain that fell practically throughout the day failed to interrupt the regular program at the second day of the Cabarrus County Fair Wednesday, and several thousand persons were on hand to witness the races and the free acts and to enjoy other features provided at the fair grounds.

The rain Wednesday was a continuation of the shower that started Tuesday night, but fair officials took it with calm, realizing that such things are to be expected. Some persons remained at home with the belief that the regular program of activities would be interrupted, but Dr. T. N. Spencer, fair secretary, kept things moving throughout the day and the free acts and races went off on time.

The rain did not interfere with the exhibits in the various buildings, and this fact undoubtedly accounted for the large attendance. Persons in charge of the various exhibits declared the attendance throughout the day and night was unusually good.

A new feature offered today at the fair grounds is the dog show, and the animals have drawn hundreds of persons to their exhibit hall. Some of the dogs were placed yesterday afternoon and the remainder this morning, the exhibit being much larger than it was last year. As the dogs are on exhibition today only, hundreds of persons have forsaken other features that will remain during the entire week to pay favor to their canine favorite. The dog show is being conducted in the building that adjoins the poultry house.

Another feature of the day was a horse-shoe pitching contest, prizes of \$20 being awarded to the three winners. This is the first time such a contest has been staged at the fair and it created such interest that it is certain to be retained on the program for next year. The contest, by the way, brought out some remarkable horse-shoe pitchers in the country.

No attempt was made to show the fireworks last night and the program planned for that time will be offered in conjunction with the regular program set for the balance of the week. This means that the pyrotechnical displays tonight, tomorrow night and Saturday night will be bigger than ever.

Winners in Poultry Announced.

J. Ivey Cline, in charge of the poultry department at the fair, completed his premium list Wednesday, and thus gains the distinction of being the first department manager to submit a list of winners.

Mr. Simmons, of Charlotte, judge of the poultry, was outspoken in lauding the birds entered for exhibition this year. The judge stated that he had seen larger exhibits but few chickens that were better than some he handled here. He was especially struck with the Buff Rocks exhibited by Mr. Cline, and he also spoke a word of praise for the Reds, Plymouth Rocks and other breeds entered. He stated to friends that several Plymouth Rock pullets he examined were among the best he had ever seen anywhere.

Mr. Simmons also praised the fair management for the manner in which the birds were shown. The coops were wide enough apart to give the chickens plenty of air and at the same time the arrangement offers visitors to the poultry building sufficient walking space.

Prizes, as announced by Mr. Cline, after the judge had made his decision, follow:

Injunction Dismissed.

New Orleans, Oct. 15.—(P)—Federal Judge Louis H. Burns today dismissed on the grounds that the court was without jurisdiction the injunction proceedings filed by former Bishop Win. Montgomery Brown in which he sought to enjoin the House of Bishops of the Protestant Episcopal Church of the United States of America from deposing him.

Some society, civil, political, social and religious organizations in the church are praying most earnestly that our good women may be saved from the disaster that is impending.

Alongside of that there is the most promising sign of the time, and that is the men are coming back to the altars.

"Men are not only going to Mass on Sundays now, but on weekdays as well. They are going to the sacraments not merely once a year or twice a year, but monthly and weekly and many of them daily."

"We are grateful and sometimes, I might say, sadly disturbed and anxious about our good women, especially our young women. Within a short time there has been a radical and revolutionary upset of principles that have eaten into the very home and that has desecrated the fireside, and is still menacing the very foundations of our

WOULD BUY CLUB FOR "BIG TRAIN"

Fans of Oklahoma Want Friends to Buy Baseball Club for Walter Johnsonson.

Muskogee, Okla., Oct. 15.—(P)—A movement to raise a fund among baseball fans of America for the purchase of a baseball club for Walter Johnson, the "big train" of the Washington Senators, has been launched here.

The plan originated with Claude Williford, president of the Eastern Oklahoma Playgrounds Association and local business men.

"A million fans give a million dollars for a baseball team for Walter" is the slogan of Williford's campaign.

In less than an hour last night 55 local men and women gave \$1 each to

the fund.

Williford, who is acting as trustee for the fund, recalls that after the 1924 world series Johnson expressed a desire to retire from active play and attempt to buy a minor league club.

Washington, Oct. 15.—(P)—The leading feature of the morning session was the reports of the eleven presiding elders. These indicate that this has been a year of fine progress throughout the conference. Many new church buildings have been erected, more than two millions of dollars having been expended or will be when those enterprises are finished. The Sunday school and Epworth League work has had marvelous growths, and there have been many thousand converted and added to the church on profession of faith. In spite of drought and curtailment of work in the center of industry the financial reports show the largest amount paid to all causes in the history of the church.

Rev. L. E. Todd, D.D., secretary of the board of finance, delivered an address before the conference in the interest of the superannuate fund that is being raised by the Southern church. This fund is to take care of the worn-out preachers and widows and orphans of dead ministers and is to be ten million dollars when complete.

A large number of ministers are referred to the committee on conference relations for the superannuate and superannuate relations. A class of young ministers are elected to the office of elder.

At the first session Bishop Denny put the conference in high gear and never changed until the adjournment at noon, consequently much of the routine business was transacted this morning.

The afternoon was given over to the anniversary of the board of temperance and social service, and Dr. W. P. King, of the North Georgia conference, delivered a most interesting and eloquent address on the "Golden Rule." The night session reports show the largest amount paid to all causes in the history of the church.

Have you stopped to figure out what one or two five-year subscriptions would do for anyone in this campaign now? If new would count about ONE MILLION VOTES, Five year subscriptions can make new leaders in every district. Five year subscriptions are not to be found growing by the wayside. They must be planned for and worked for. Everybody can get one, maybe two and perhaps more. They can mean the difference between an automobile prize or one of lesser value in the end. Get them NOW when they count for the most.

Midnight of Monday, October 19th, should be the time toward which you figure all things. Will it see you on the road toward a car of your own or will it find you following the path of lesser resistance where little is accomplished? Decide this question for yourself, BUT DECIDE NOW!

To Continue State Fair Through Saturday.

Raleigh, Oct. 15.—(P)—A change in the program of the State Fair here will run the fair through 11 o'clock Saturday night, officials announced.

Heretofore it has been as most of the exhibits are concerned, on Friday. This year, however, arrangements have been perfected whereby the fair will continue through Saturday night.

SOME FEATURES OF PROPOSED TAX LAW WILL BE RETAINED

Treasury Ready to Suggest Maximum Surtax of 20 Per Cent. Be Written Into the Next Law.

OFFICIALS ARE STUDYING PLAN

They Have Not Agreed As to the Maximum Amount by Which Tax Bill May Be Reduced.

Washington, Oct. 15.—(P)—The Treasury is prepared to suggest to Congress that a maximum surtax of 20 per cent. be written into the next tax law, but Secretary Mellon has been unable thus far to arrive at a figure which may be proposed as the maximum amount by which the nation's tax bill may be reduced.

The Secretary and Under Secretary Wilson are figuring on how much the total tax receipts may be cut, and are expected to have statistics ready when the House Ways and Means Committee on Monday begins consideration of a new bill. Both officials will appear before the committee at that time.

There has been no change in the Treasury's views with respect to elimination of a number of the miscellaneous taxes, and for repeal of the publicly provision of the present law.

The Treasury secretary is not present at this time, however, to give details of his ideas. He said today that the Treasury would make no formal recommendation, but would confine itself to pointing out to the committee the possibilities of revision so far as they affect the volume of receipts by the government.

Drastic Power Cut For Gastonia Plants.

Gastonia, Oct. 14.—The shortage of electric power has again been forcibly brought home to Gastonia industry when orders were issued putting lumber plants, foundries and some other industries on a part time operating schedule.

Some of these concerns are meeting the emergency by rigging up gasoline power plants from automobiles or tractors.

Printing plants were at first included in the order, but were later allowed to resume operations under electric power.

Conditions are drastic and the curtailment process may extend to all industries except those which are absolutely necessary, it is said by authorities.

Salisbury Woman Burned.

Salisbury, Oct. 15.—(P)—Mrs. Curtis Moose, of this city, was seriously burned about the face and body this morning when a 5-gallon oil can exploded in the kitchen of her home, setting the house on fire. It is believed she was in the act of starting a fire in the kitchen stove, when the accident occurred.

When our men realize their opportunities in that direction, it means nothing else but our salvation; it means the glory of God; it means the salvation of your own souls and the souls of others; it means the safety of society; it means a guarantee to our American ideals of life and of health.
