EFIRD'S

Outdoor Service Opens Episcopal Convention

A great open-air service opened the Forty-eighth Triennial convention of the Episcopal church at Audobon Park, New Orleans. More than 10,000 attended the service and a choir of 250 voices led the singing. It was this convention which upheld the conviction of Bishop William Montgomery Brown on charges of heresy.

THE FUTURE OF AMERICA AND OF DIXIE

Clarence Poe, in The Progressive Farmer.

Whatever may be the cause of England's decline, there can at least be no doubt that far sooner than any one would have dared predict in 1908, we are seeing the fulfillment of H. G. Wells' prophecy: already "the leadership of progress" in human affairs rests with America. The United States is not only the most rapidly developing nation of the world, but there seems no longer reason to question that the South is the most rapidly developing section of America.

The whole country has just waked up to the magnificent possibilities of Florida, which now bids fair to become "a second California" as a resort for the wealthy and as a cornucopia of fruits, flowers, and beautiful cities. Undoubtedly, the Florida "land boom"—one of the greatest sectional land booms of this generation—is going too far, and thousands of fortune-hunters who get caught with new-bought land on their hands when the boom finally bursts will be ruined. Nevertheless, after making all allowances for shrinkage and readjustments, Florida will have taken a tremendous stride forward. She will never be the same state again.

Moreover, the folks who are getting away from the wintry climates of the North will soon discover that they can find fruitful lands and a superb climate in other parts of the South as well as in Florida. We predict that the remarkable migration to Florida will prove only the beginning of a steady push southward of vast numbers of people from the North. And the coming of more northerners will doubtless have three important results:

1. It will increase the proportion or percentage of white population in the South and reduce our present unduly large proportion of negroes.
2. It will hasten farm diversification in the South, because northern and western farmers coming here not being used to cotton, rice, tobacco, etc., will be more inclined to continue with crop diversification, dairying, stock raising, fruit growing, etc.
3. Northerners settling in our cities will develop new manufacturing enterprises such as they have previously been interested in, and so help develop better markets for Southern farm products.

The cotton mills of New England are already fast acknowledging that they must come south. Southern mills last year showed an increase of 600,000 spindles, while other sections showed a loss of 300,000. Great captains of industry like Henry Ford are beginning to appreciate the South's manufacturing opportunities. America's greatest timber resources east of the Pacific Coast are in the South. The most stupendous American water-power developments now under consideration are in Dixie. Good roads all over the South are fast opening up sections previously isolated and shut out from progress.

Own Your Own Home, a Macfadden publication, for November makes its initial bow this month. In the article, "What to Look For in Selecting a Home Site," William Fitzgerald, an experienced builder, gives some good advice to home seekers. "How We Furnished a Living Room and Dining Room for \$200" is just a suggestion for brides. "Spring Flowers From Fall Bulbs," a last call for planting your spring garden. "Come Into the Kitchen," (not out of the kitchen), says Hazel T. Becker. It isn't only the bride who sings at her work these days. Any housewife who takes advantage of the latest ideas in kitchen arrangement finds her work hours as happy as any part of the day.

LIVED ON MILK AND CRACKERS FOR MONTHS

Stomach Was in Such Bad Condition She Could Not Eat Any Solid Food.—HERB JUICE Gave Relief.

"I had suffered so much from nervous indigestion that I had reached the point when I was afraid to eat any solid food. I was forced to diet myself and I lived on milk and crackers for months when as a last resort I began using HERB JUICE, which was recommended to me at Gibson's Drug Store by the HERB JUICE man for stomach trouble. Now I am thankful for having heard about this wonderful medicine and I will always be ready at any time to speak a good word for it to any one."

said Mrs. J. T. Love, of 302 North Church Street, Concord, N. C., in a recent interview with the HERB JUICE man. She further remarked: "It was no simple case of indigestion from which I suffered, I could not eat anything and have it agree with me. My stomach was completely upset all the time. I was also very constipated and no laxative I took seemed to regulate me. I grew weaker every day and could scarcely do more than just drag myself about to do my household work. No matter what I ate, my nerves on edge and constipation had ruined my health. But HERB JUICE changed my condition entirely in a short time, and to say that it has 'righted every wrong' would only make a long story short. Today I could not feel better if I had never had a day's sickness in my life. It took some time for me to realize that I could sit down to the table and eat a meal, selecting whatever I chose, and feel perfectly sure that I would have no terrific pains from indigestion immediately after I left the table, or if not then, to awake in the night to suffer for hours, gasping for breath on account of suffocating pains as I had done formerly. I have been entirely relieved of all these conditions and now feel as well as when I was young. There is absolutely no doubt in my mind that there is not another medicine obtainable today that can equal HERB JUICE for stomach trouble, indigestion and constipation."

HERB JUICE is sold and guaranteed to give satisfaction by Gibson Drug Store.

He's Pro Gridder Now

No doubt you remember Lynn Bomar, former star end of the Vanderbilt team. He was rated one of the greatest flankers ever turned out in the South and gained all-America recognition. Here he is as a member of the New York Giants professional eleven, entered in the National Pro League.

The woman who finds it something of a task to dress twice a day may find consolation in the statement that there is at least one woman who has been obliged to change her dress 126 times every week for several months on end. This is the record of a prominent actress appearing in a recent successful play on the New York

stage. Her part required her to change her costume twelve times at each performance, which, with the change into street costume meant fourteen changes a day, and double that number on each of the two matinee days—a total of 126 changes in the course of the week.

Boy of 12 Amazes Art Critics

Hollywood presents this youthful prodigy, Charles de Ravenne, 12. His oil paintings have attracted the attention of several art critics. Without any training, he has shown remarkable aptitude in copying famous works of the old masters.

J.C. Penney Co. DEPARTMENT STORES

30-54 South Union Street, Concord, N. C.

GRAIN FERTILIZER!

Brown Summit, N. C., June 10, 1925

The A. A. C. Company, Greensboro, N. C.

Gentlemen:

I used your Basic Lime Phosphate, AA Quality, for three years and I have never found anything to equal it for wheat. I also find I can get a good stand of clover where I used Basic Lime Phosphate. My crop of thirty acres of wheat this year, grown on Basic Lime Phosphate, will average 25 bushels per acre. I use 250 pounds of Basic Lime Phosphate per acre.

Yours very truly,

H. L. TROXLER.

BEWARE OF SUBSTITUTES!

Only Bags With "AAQuality" In Red Letters Are Genuine!
