

New Outbreaks Along Frontiers Of Greece And Bulgaria Today

Each Country Blames the Other For the Incidents Which Make Peace Parley More Difficult.

GREEKS MAY NOT LEAVE BULGARIA

They Charge They Were Fired on While Evacuating Country Under the League of Nations Order

New incidents along the frontier of Greece and Bulgaria threaten to interfere with the pacifying efforts of the league of nations.

Each side blames the other for the fresh outbreak. Sofia officially states that the Greeks opened fire on the Bulgarian frontier posts early this morning, while Athens says Greeks near Roumania in Greek territory, were attacked.

A report from Saloniki, Greece, claims the Greeks were attacked while withdrawing from Bulgarian territory in conformity with the orders of the league council, and that as a result of this incident it is believed the evacuation must have ceased.

Meanwhile representatives of both countries appearing before the league council in Paris apparently prior to receipt of news regarding the reported outbreak, assured the council that its orders would be carried out.

Bulgaria Blames Greece

Sofia, Oct. 28.—(AP)—Despite the warning of the league of nations council, Greek troops at daybreak continued to occupy Bulgarian territory and there were no signs that they intended to withdraw.

Bulgarian officials in making this announcement said a number of villages were bombarded during the early morning hours.

Extracts from articles in the Turkish press are published here to show that there is sentiment in Turkey favoring intervention to protect Bulgaria from Greek aggression.

Says Water Shortage Due to Tree Destruction

Gastonia, Oct. 27.—"If there had been more forest preservation in the mountains of Western Carolina," declared Judge Thad Bryson here today, there would not have been this woeful shortage of hydro electric power. When the trees are cut from the mountain sides and the surface is left like a concrete street or sidewalk and the water runs off into the rivers and streams and is consequently lost as far as reserve supply is concerned, there is none left in the ground to furnish a supply in time or need like last summer."

JUST THREE MORE WORKING DAYS OF THE SECOND PERIOD

As the Night of October 31st Approaches Enthusiasm Has Grown by Leaps and Bounds.

COMPETITION IS VERY KEEN

During the Third Period of Two Weeks All Subscriptions Will Count Less Number of Votes.

Just three working days remain of the "Second Period" vote offer of The Tribune-Times campaign. In that short space of time some fortunate contestants may have secured the winning votes with which to capture the four leading valuable fiscal prizes. As the night of October 31, the end of this period, approaches, enthusiasm has grown by leaps and bounds. Keen competition is evidenced on every hand as contestants awake to the full realization that it is NOW or NEVER. The winning votes MUST be secured this all-important period.

During the "Third Period," which is just two short weeks, duration, subscriptions count a lesser number of votes. There will then remain but one short week of the election, during which time all subscriptions must be cast in a sealed ballot box with the smallest vote offer of the entire election prevailing. There remains but one solution—victory will come only to those who avail themselves of the present possibilities. The next three days, without question spell success or failure for you. After Saturday night you will find that it will take considerable more effort to go the same distance in the vote count.

Final Week. During the final week all subscriptions will be cast in a sealed ballot box, which remains locked and sealed until the campaign has been declared closed. The judges of the election will then break the seals, unlock the box and the final count will begin. In this way NO ONE can possibly know the voting strength of the various candidates.

Secure Lead Now

Compare the final week vote schedule with the present votes. Stop and consider just what anyone would have to do to secure the winning votes the final week if YOU avail yourself of the present vote possibilities. REMEMBER there will be NO extra votes for extensions the final week as there is in this period.

Figure this out for yourself and secure your winning votes NOW while there is yet time.

DEPUTY ARRIVES IN NICK OF TIME

Finds Jailer Grappling With Desperate Yeggman Armed With Pistol.

Greensboro, Oct. 27.—Arrival of a deputy sheriff with a prisoner for the Guilford county jail tonight was reinforced for the jailer, who was grappling with an alleged notorious yeggman, the latter having a gun, and a jail delivery of a dozen men was prevented.

When Jailer Dallas went to the men's corridor in the county jail here tonight to take some apples a prisoner had bought, he found himself looking into a pistol in the hands of Jerry Farlow, alleged yeggman, indicted here in federal court on a charge of robbing the postoffice at Pilot Mountain.

Dallas attempted to close the door, which has an automatic lock, but the desperate prisoner jammed it with his foot and attempted to open it and let out all other prisoners. At this time, H. P. Causey, deputy sheriff, arrived, and Farlow trained the gun on him. Dallas then grabbed Farlow's arm and took the pistol.

In the jail, among the other prisoners, were two other alleged safe-crackers and three youths who recently robbed the bank of Summerfield.

THREE MEMBERS OF MITCHELL'S COURT MUST BE REPLACED

Major Gen. Summerall, President of Court, One of Officers Who Will Be Replaced.

GENERAL BOWLEY ANOTHER ONE

Officers Charged With Being Prejudiced Against the Defendant, Colonel Mitchell.

Washington, Oct. 28.—(AP)—Col. Wm. Mitchell began his defense at his court martial here today by drawing from the bench three members of the court, including its president, Maj. Gen. Chas. Summerall.

Gen. Summerall withdrew on his own motion after he had been charged with prejudice against the defendant, and Brig. Gen. A. J. Bowley was disqualified by his colleagues on the court after a defendant challenge had been lodged against him on similar grounds.

"Challenges were based on utterances of the two generals against a separate air department favored by Mitchell, and in support of which he used language which led to his court martial on a charge of violating good discipline.

A sharp verbal clash between Gen. Summerall and Representative Frank R. Reid, of Illinois, counsel for Col. Mitchell, preceded Summerall's request that the court excuse him from further attendance.

In support of his challenge—Mr. Reid read statements made by Gen. Summerall before the President's air board, and coupled with them extracts from the report of Colonel Mitchell after he inspected the air defense of the Hawaiian department at that time commanded by General Summerall.

Gen. Summerall's retirement places Major General Robert L. Howze, commanding officer of the Fifth Corps Area at Columbus, Ohio, in the president's chair.

A peremptory challenge then was made by Mr. Reid against Major General Frew W. Sladen, superintendent of the military academy at West Point, N. Y. This form of challenge permitted of no argument, and Gen. Sladen was excused.

Only one peremptory challenge is permitted under the practice of courts martial, but any number may be challenged for cause, as were Gen. Summerall and Bowley. It is not required that the defendant state the reasons for a peremptory challenge.

Vacancies caused by challenges are filled in army courts, the remaining members retaining full authority to act. With the challenges disposed of, the court was sworn with its original membership of thirteen reduced to ten.
