Post and Flagg's Cotton Letter.

New York, Oct. 27.—Although prices have steadied at times trading tapers off even on moderate rallies and whatever demand on a scale down might prove to be there is none as yet that feels under any compulsion to follow advances. That condition promises to exist until positive evidence is available that the supply large as it promises to be will for one reason or another prove a closer fit for requirements than is now considered at all probable in trading circles.

The report seems not to have upset the goods markets seriously though the break has led to concessions in some cases of an eighth to a quarter with mills, however, as a rule resisting any concessions. Spot dealers also report prices well maintained with the outlook that a scramble for desirable types will be seen though seven-eighths cotton is offered at rather large discounts for the present.

The actual trade finds it difficult if not impossible to believe that any such increase in the crop have taken place since September 1 as shown by the report in view of the character of the weather during the period. If the weather was responsible for a decline of over 600,000 bales in the ginning for the last to the crop, it is also pointed out that frost damage came too late to affect the reports to the crop board.

It is useless to vilify the crop board but if their more recent estimates are nothing more than a series of efforts to rectify some earlier error the board would seem to have outlined its usefulness and cannot be eliminated too quickly as the cost of its operation to the cotton trade as a whole while impossible to de-

staggering. The trade could muddle along much better by itself with nothing more than an official estimate at the end of the growing season but with the help of the ginning figures which are not so much open to the objection of being guesses arrived at by complicated formulas.

Aunt Het's Creator Is No Speech Maker.

Shelby, Oct. 26.—Robert Quillen, well known newspaper feature writer of Fountain Inn, S. C., packs a lot of punch in what he says through newspaper columns, but he is a zero or so less than nil when it comes to putting things over orally. At least one derives that idea in reading Quillen's refusal to make a public speech, in this state, Quillen, who originates "Aunt Het" and her quaint, homely sayings, was invited by Lee B. Weathers, vice president of the North Carolina Press Association, to make a speech at the newspaper institute to be held at the University next month. Quillen's reply ran thus: "Dear Mr. Withers: "I would if I could, and gladly. But I can't make a speech—never have and never shall—and no man has a right to do in public a thing he can't do well. "Thanking you for wanting me. "Cordially, "ROBERT QUILLEN."

From the brevity of the letter, a Quillen characteristic, one judges that the creator of Aunt Het will continue to "let her do the talking in public."

NOBODY LOVES YOU.

It is impossible to get anywhere if you are a crab. Nobody loves you. To be successful you must have a kindly, lovable disposition. You can not have this with an unhealthy liver and stomach.
