

Proper Cleansing involves almost infinite details.

There is the necessity for understanding the changes in fabrics constantly coming out, the late shades and modes in colors; the new styles and ways of draping.

Attention to these details gives our cleansing the up-to-date-ness that makes it distinctive.

ROCKY RIVER. This section was visited with good showers during the week-end, and also with a good deal of wind early Sunday morning. The cotton crop is all practically gathered and has been for several weeks. We believe the crop generally all over the South with the exception of a few favored localities, is about gathered and has turned out nine million and a half bales ginned. Where are the other six millions coming from that our governments will be made? Miss Lee Plot recently had an operation in Charlotte for appendicitis. She was doing fine at last report. Looks like nearly all our boys are trying to get in the Ford plant, attracted by the good wages paid. The work, while not so hard, is very no-

notorious and tiresome, say some who have tried it. A very good program was given at the community club meeting last Thursday night. Some of the Sun-derland Hall teachers were present and rendered some good music. Excellent readings were given by Mrs. Howell, of Concord, and Miss Barnett, of our local teaching force, but the chief attraction seemed to be the negro sermons by Mr. Agee, of Concord. Our school is progressing nicely with Miss Acreson as principal and Miss Nash and Miss Barnett and Mrs. Roger as assistants. A. SCRIBBLER.

LOCUST. Another shocking tragedy was added to the large list when Joseph Monroe Easley, aged 31, of Stanfield, shot himself last Thursday supposedly on purpose. While doing service in France he was shell-shocked and gassed and had never recovered from the effects, although he was treated in a government hospital for some time after returning home, he suffered greatly and was unable to work. He was sitting on the front piazza of his home, while his wife was preparing dinner and when the baby of a few months began crying his mother called him to attend it. He answered and immediately she heard the report of a shotgun. It will never be known whether it was an accident or done on purpose. One shoe was off but as he had an in-growing nail it was not an unusual thing for him to pull it off. He was rushed to the hospital at Albemarle but died at 2:15. One the way to the hospital he said, "I am going home to be with Jesus." He was a member of Stanfield Baptist Church, a kind loving father and husband. Funeral services were held Thursday afternoon at the Baptist Church here, conducted by Rev. J. S. Harris, interment following in the country. A packed house paid their last respects to the deceased and their sympathy to the bereaved. A wife, four small children, parents, nine sisters and two brothers survive. The many beautiful flowers bespeak their silent testimony of love and friendship. P.

Stewart's Washington Letter

BY CHARLES P. STEWART NEA Service Writer WASHINGTON.—The ways and means committee of the House of Representatives is an extremely important body but usually its deliberations attract little popular attention. Big business, the industries and banking, always are interested in them, of course. So are politicians, for they know that the legislation which the committee originates will have its reflex later at the polls, favorably for themselves or otherwise. Most of its sessions, however, are too dry and statistical to have much appeal to the bulk of the people, materially as their pocket-books are bound to be affected, in due season. JUST now is an exception. The committee's present meeting, to frame a tax bill
