TOM SIMS
Says

A gang of children about the house is a great source of pleasure if you can stand the static.

Flash caught last summer really are marvelous. Been dead for weeks now, yet they continue to grow.

When we think we think everything is all wrong we think it is time to think again.

Learn to read good people and you will find them even more interesting than reading good books.

Nothing is more tiresome than some one who is trying to be interesting instead of interested.

Figuring out the deep problems of life is a very serious business unless you realize you are liable to be wrong. (Copyright, 1925, NEA Service, Inc.)

Don't Kiss Baby Near Its Mouth Is Health Advice.

Children should not be kissed on or near the mouth, even by their parents, according to Dr. W. J. McPhaul, city health officer, who Monday issued a warning against the spread of measles.

This is the open season for measles and the time when the disease gets in its greatest work, said the health officer.

"Measles is a serious disease but fortunately the majority of the cases recover, although complications may develop. Measles frequently causes pneumonia, which reaps a deadly harvest," said Dr. McPhaul.

Children should be kept away from any person suffering from what is believed to be merely a heavy cold. They should also be kept away from any one who coughs or sneezes, whether or not that person is a member of the family.

"Never allow your child to be kissed near the mouth by any one, no matter how closely related," warned the health officer.

Stewart's WASHINGTON LETTER

NEA Service Writer.

Washington, Dec. 8.—Would a monument add to or detract from the beauty and impressiveness of the spot where the unknown soldier rests? The war department wants a monument and will ask Congress for \$50,000 to erect one. This request will meet opposition—just how much is uncertain until the question actually comes up—on the ground that the unadorned slab which marks his grave is the most appropriate memorial to the unknown. Nobody disputes his title to the highest honors the country can pay. The difference of opinion relates only to the manner of paying them.

Congressional investigations are noted for the ingenuity with which they achieve any worth-while results. It remained, however, for Vice Chairman E. C. Plummer, of the United States shipping board, to describe the utility of such inquiries along at least one line, with the maximum of crispness and compactness of style.

"For 56 years," said Plummer, addressing the Atlantic Deeper Waterways Association at Miami recently, "Congress has been investigating the problem of an American merchant marine. The printed matter that has resulted from these efforts would fill a good-sized room. Yet not a single important fact has been established that did not appear in the modest volume presented by the Lynch commission of 1869."

Plummer boils the essential part even of the Lynch report down to a 100-word paragraph urging a ship subsidy.

With the recent dismissal of the last of its war fraud indictments the government completes a perfect score. One hundred per cent. of its war graft prosecutions have been lost.

NEGROES RENEW FIGHT FOR ANTI-LYNCH LAW

Industrial Commission to Halt Boastful and Study Labor Problem

Washington, Dec. 7.—Negro leaders here have launched a campaign for an anti-lynching law at the coming session of Congress. They propose an industrial commission to study negro problems, provision for a monument to negro soldiers, public bathing facilities with the whites in the District of Columbia and federalization of Howard University.

Representative L. C. Dwyer, of Missouri, will re-introduce his anti-lynching bill, which passed the House two years ago, but failed of a vote in the Senate. This measure was opposed by southern senators who asserted it was aimed at the South.

Negro advocates admitted today they do not expect to pass unless the rules of the Senate are changed to make cloture easy. The negro industrial commission bill will provide for a commission of five persons, three of whom shall be negroes, to be appointed by the President, the salaries not to be more than \$5,000 except in the case of the chairman, who would receive \$7,000.

The duties of this commission, it was explained, would be "to study economic conditions and labor problems affecting the negro, to discourage boisterous and to formulate a policy of understanding and confidence between the races."

ASSESS STOCKHOLDERS 100 PER CENT OF STOCK

Order Signed By Bond Affecting Bank of Vanceboro Which Failed in 1923.

New Bern, Dec. 7.—Stockholders of the defunct Bank of Vanceboro are to be assessed one hundred per cent of the capital stock, in all \$25,000, according to an order signed by Judge W. M. Bond in Superior Court upon petition of the receiver, Henry P. Whitehurst, of this city. The bank was closed by the State bank examiner on December 13, 1923. T. A. Uzzell, of Greensboro, formerly president of the People's Bank here, who disposed of \$2,500 worth of stock on December 5, eight days before the bank was closed, is held liable for this amount, it is understood, together with the parties to whom the stock was sold.

MONROE TO FEATURE CHIEF COMMODITY

Will Construct Home For Trade Body in Shape of Bale of Cotton

Monroe, Dec. 7.—Thomasville and High Point have both realized their chief industry, the former by building a large chain, and the latter by constructing a dresser of sufficient size to house its chamber of commerce. Monroe boasts of being the best cotton market in the South, and to Union county as standing paramount in quality and length of staple in cotton production.

T. P. Dillon, president of the Monroe-Union county chamber of commerce, thinks it fitting that honors should be done to the chief commodity of the section, and has proposed that the local organization construct a bale of cotton, in which it might in the future have its offices.

The matter was brought before the directors of the chamber of commerce, and met with hearty approval. Accordingly, the big bale will be constructed near the central part of town on highway No. 29, and the chamber of commerce will move to the quarters thus provided.

Here Is What Red Grange Did as His Team Beat Giants.

New York World.

Here is what Red Grange did on his first New York appearance at Polo Grounds yesterday:

Ran with ball from scrimmage eleven times for total gain of forty-five yards.

Longest run from scrimmage, 15 yards on a slice-off tackle.

Made three forward passes, of which one was incomplete and two were completed for gains of 22 yards and 15 yards respectively.

Received one forward pass for a gain of 24 yards.

Intercepted one New York pass and ran 25 yards to a touchdown.

Received one punt and ran back three yards before being tackled.

One defense he broke down one forward pass, shared in two touchdowns and aided materially in the two touchdowns scored by Joe Sternaman by fine interference, in which he took out not one but two would-be tacklers.

Was effective, rather than spectacular.

For drawing 70,000 men and women to the game he earned at least \$25,000, of which 50 per cent. will go to his agent.

RUTHERFORD ACCEPTS OFFER OF B. N. DUKE

Steps Are Taken For Raising \$50,000 to Supplement Amount to Be Donated by Magistrate.

Hickory, Dec. 8.—Acceptance of the offer of B. N. Duke, tobacco magnate of New York, to donate \$50,000 toward an endowment fund for Rutherford college, located about 12 miles west of Hickory, provided a like amount be raised by friends of the institution, was made this afternoon by the board of trustees.

A special session of the board was called at 2 o'clock at Rutherford college by the chairman, Rev. H. H. Jordan, to map out plans of campaign. Individual members of the board are expected to raise a certain amount and it is probable that a solicitor will be placed in the field, Mr. Jordan said.

ON THE TOP HAIR RESTORER.

The only genuine preparation that gives back the natural color to grey hair (no dye). Absolutely cures dandruff; stops falling hair and itching scalp; immediately grows hair on bald heads where the roots are not dead. This treatment of the scalp is a discovery of Dr. Fitzwater, of Hot Springs, Arkansas, and is absolutely the best known remedy of this kind sold on the market by any institution in America. Sold exclusively at Cline's Pharmacy. Money back proposition if results are not obtained. Be sure to call for On The Top.

ADEQUATE NUTRITION BRINGS WEIGHT UP

Salisbury Boy Quickly Jumps From Sixty-Five to Seventy-Two Pounds

Salisbury, Dec. 7.—Oliver Hoffman, twelve-year-old pupil of the Wiley School, in Miss Merle Shoal's class in health work, holds the distinction of being the first pupil in the Salisbury schools to make sufficient gain in weight, under the nutrition campaign now being conducted here, to bring up to normal weight.

The lad of twelve years (L. 51-3-3) inches in height and when he began to carry out the instructions in health work as carried on in this nutrition campaign he weighed 65 pounds. His normal weight should have been 72 pounds. He was prompt and regular in doing the things those in charge of the nutrition campaign told him to do and at the beginning of the fourth week had gained a little over seven pounds, enough to put him on the other side of the line in weight and bring him up to the point where he could tip the scales at normal or a little over.

What this boy did can be done by others, those conducting the campaign assert, that is drinking plenty of milk, regular hours of sleep, proper indulgence in every way, and plenty of outdoor air. There must be plenty of play, but also sufficient rest.

The Kwanian Club is to give a prize to this boy because he was the first to overcome underweight and reach normal weight by reason of this campaign. It is said the Woman's Club will give a prize to the girl making the first gain in weight sufficient to bring her from underweight to normal, and that a prize is also to be given the school showing the greatest percentage in gain along this line.

The campaign is continuing and will be carried to every school in the city. It is one of the phases of health work being conducted through the Rowan county health department, headed by Dr. C. W. Armstrong, and is in charge of Miss Theresa Dunsdale, who is connected with the State health department.

Something Else Besides Prayer Needed.

Monroe Enquirer.

A good Union county citizen a few days ago said he, together with a number of other good folk, on Sunday afternoon, had conducted a fine prayer meeting for the old persons at the county home.

I remember some time ago of being out at the self same county home, and I inquired of an old lady, an inmate of the institution, if I could send her something from town. Her ready response was, "Please send me some ginger pop."

Now good friends, I would not for this world disparage prayer, but I don't want a feat. What those old childish and feeble-minded persons out at the county home really want above all else is a little kindness shown them and gifts in the way of trinkets, fruits and candies.

And, incidentally, a prayer will not hurt them.

Physician: "Suppose you had a box of cigars but no matches. How could you light a cigar?"

Chemist: "I'm sure I don't know."

Physician: "Why, simply take one cigar out of the box; the box will then be a cigar lighter."

A GROUCH NOT WANTED.

There is nothing so harmful to success as being a grouch. Stomach, liver and intestinal trouble make one grouchy. May's Wonderful Remedy will help overcome these and usually gives complete results.

Our advice to everyone troubled in this way, especially when accompanied with bloating in the stomach, is to try this remedy. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which caused practically all stomach, liver and intestinal ailments, including appendicitis. At the Gibson Drug Store and druggists everywhere.
