A DICTATORSHIP FOR FRANCE WOULD NUT BE DISPLEASING

NO. 54

In the Form of a Commit-tee.—So Said M. Paul Boncourt in Interview Today With Newspaper.

LESS RISKY THAN SINGLE DICTATOR

Nevertheless He Is Convinced That a Less Drastic Remedy Will Be Found in Situation.

Geneva, March S.—(P)—A social-ist dictatorship in France in the form of a committee of public safety, based on the parliamentary system "but showing its fist" would not be dis-pleasing if effects forced it. M. Paul Boncourt is quoted as declarity. showing its fist" would not be displeasing if effects forced it. M. Pain Boucourt is quoted as declaring in an interview with a Swiss newspaper. Such a dictatorship would be less risky and more logical than a dictatorship by a single man, the French statesman added. Nevertheless he was convinced that a less draste remedy could be found and the constitution itself, for history proved that France always rose to meet any crisis. M. Paul Boncourt compared the parliamentary commissions to the commissions of the French revolution and the connections of that magnificent period in French history which I admire more and more," but said that bills elaborated by the specialists in the commission were destroyed by an incompetent parliament which had lost the confidence of the country.

When questioned concerning the reds in France he admitted that important centers of communist existed there. He did not think, however, that communism was dangerous to France at the present moment.

They Are Unable to Qualify as the Ideal of Converse College Students.
Spartanburg, S. C., March 7.—There is not a student at Wofford college that will come up to the ideal set up by Converse college girls in a questionnaire recently conducted at the female institution. An examination of the 498 boys at Wofford college revealed this.

In the first place the age of 26 years was a barrier. More than 98 year cent, of the boys are under this age. Then No. 10 shoes were required. Only two per cent. boast of such large feet.
