

Misses Mission School Fund on Old Confederate Stamps.
 Lexington, Va., March 16.—(AP)—Confederate postage stamps, cast in the discard when they lost their market value following the War between the States, are to provide funds for the building of an American mission school in the interior of China.

James L. Howe, Jr., an instructor in the missionary college at Hangchow, in this country collecting the stamps from the sale of which he proposes to raise \$2,500 to found

a school for boys in the nearly inaccessible interior town of Kintebchen. A wealthy Philadelphia stamp collector has agreed to buy all the stamps.

Some Folks Grow Older and Wiser Others Just Grow Older

A good part of our retail tire business is with people who have grown wise to the "special bargain" and "extra discount" decoys. They've stopped fooling around with unreliable tire equipment. They buy Goodyear Tires from us because they have found that Goodyear quality and Goodyear serviceability are about the best safeguard against tire trouble in the world. They know, too, that they're buying mileage at the lowest quotation on the market. You'll save money with Goodyears. We have your size—with a tube to match—when you want it.

WASTE OF TIME AS BAD AS WASTE OF MONEY

By S. W. STRAUS, President American Society for Thrift.

NOT enough attention is paid to the better understanding of the values of thrift of time. Ample effort is being given to the encouragement of money thrift. The American people are not lacking for guidance in the matter of saving money. But all too little thought is bestowed in the matter of developing greater economy in the use of time.

S. W. STRAUS

Idleness is sheer thriftlessness. It is just as definitely a form of waste as is the habit of squandering money. And like financial prodigality it leads always away from peace, contentment and happiness.

The happiest persons in the world are those who work. How quickly time passes when we are in the midst of employment; how slowly it drags when we are idle. This is not said with the view of discouraging rightful pleasure and recreation. There is a place in the world for relaxed effort, for laughter, for "a good time," along sensible and moderate lines.

But it is in our work that we should find our deepest and most satisfying joy because work is creative and uplifting.

Work, and work only, has placed civilization where it is today.

The idler has contributed nothing to human progress. He has, on the contrary, ever been a dead-weight on society—a consumer, but not producer—a potential trouble-maker—a breeder of immorality and crime.

No form of thrift is more essential than time thrift—no happiness more substantial than the happiness of industry.

FIFTH BIBLE LECTURE

Is Given by Prof. Matthews Before the Women's Missionary Society. Raleigh, March 16.—(AP)—Man's eternal need for life in its fullest, broadest sense and Christ as the source of this life was the theme of the fifth Bible lecture here today by Prof. J. B. Matthews before the Women's Missionary Council of the Methodist Episcopal Church, South. The concluding lecture will be given tomorrow by Prof. Matthews.

"I have come that they may have life and have it to the full," Prof. Matthews quoted the Gospel as declaring. "This is the way the fourth gospel understands the heart of the meaning of the coming of Jesus. The word 'life' was a favorite in this gospel. Its opening message is that 'In Him was life, and the life was the light of men.' It closes by declaring that 'these signs are recorded so that you may believe Jesus is the Christ, the Son of God, and believing may have life through His name.'"

"The word life no longer means simply longevity. There was plenty of that in the Old Testament. Since Jesus, life means fathoming the depths of God; it is the opposite of shallowness. It means height, aspiring to perfection of character. Jesus was the Mt. Everest of purity. He saves us from sin of low aims. It means breadth and all-inclusive sympathy and appreciation. He saves us from the sin of narrowness. It means fullness; he pressed into every waking hour all the goodness it would hold, and he saves us from the sin of emptiness. 'The Lord of life still says to us 'I am the Way.'"

Moves of Wets in Congress Meet With Little Success.

Washington, Mar. 17.—By a vote of 32 to 2 the house today rejected an amendment to the District of Columbia appropriation bill providing that no part of the expenditure for support of the Washington police could be used for enforcement of the prohibition law.

Representative Black, Democrat, New York, who introduced the amendment said the bill being conducted by the newspaper in every state showed a swing away from the 18th amendment.

His contention was disputed by Representative Blanton, Democrat, Texas, on behalf of the drys.

A nationwide referendum to be conducted by states on the beer and light wines question was proposed today in a bill by Representative Oliver, Democrat, New York.

Ford THE UNIVERSAL CAR

Thermo-Syphon Cooling System

The circulation of water in Ford cars is entirely governed by engine temperature—the flow starting as the motor warms, and being most rapid at the points of the greatest heat. On cold mornings the Ford engine warms up quickly, because the water does not circulate from the cylinder block until it becomes heated. In hot weather, too, the Ford cooling system is equally efficient, for the capacity of the radiator is unusually large in proportion to the heating surface of the cylinders. Since there is no water pump requiring frequent need for packing, the Ford cooling system is exceedingly simple and always efficient.
