HEN DAY MAY 1ST

State to Do Homage to the Lowly Hen on That Date. Raleigh, N. C., March 19.—(AP)—The State of North Carolina, in common with the other states of the American Union, will be called upon to do homage to the lowly hen on May 1, according to an announcement from Dr. B. F. Kaupp, head of the poultry department of State College.

This date has been set aside as National Egg Day by the National Poultry Council, and will be fittingly observed by all poultry producers and those engaged in allied industries, it is said. The national organization decided to call upon the people to observe egg day, Dr. Kaupp says, because it was felt that the people would thus be brought to a realization of the great magnitude to which America's poultry industry has developed during the past decade. It stands fifth among the agricultural pursuits of the nation, when measured by the value of the products of the various agricultural fields.

According to Dr. Kaupp, "National Egg Day on May 1 will be one day on which we want all poultry producers and others to stop for a while and pay homage to an industry that stands fifth among the agricultural pursuits of the country, as measured by the value of the product. It will be a day to spread the message of the peculiar, protective properties possessed by eggs in our human diet. It will be a day in which every branch of the poultry industry can preach the gospel of the importance of poultry husbandry and poultry products in the every-day feeding of our people." Dr. Kaupp states that special committees in the various states will work out ways of properly observing the day. The National Poultry Council will send out messages relating to the hen and the use of eggs, radio talks will be broadcast, and in some sections, where the poultry industry is paramount, there will be spectacular programs arranged, in which all the people will take part.

Russell's Round Rub

Is Breaking Pneumonia in Wonderfully Short Time, For Old People or Children.

One baby with double pneumonia passed the crisis in less than nine hours; one man with pneumonia in one side in less than eight hours, and was back at work in a few days, as strong as ever.

Russell's Round Rub stopped the cutting pain in three to five minutes, breaking pneumonia within six to twelve hours.

Why suffer when Russell's Round Rub saves you pain, saves you money, saves your child from becoming a weak person, breaks flu over night? Have your doctor, then get Russell's Round Rub. When your doctor comes again he will tell you the fever has broken.

When your legs ache rub on Russell's Round Rub Salve and feel good the next morning. It is mild, you can rub it as long as you like, it will not blister or burn.

Mr. J. M. Simpson, the undertaker for Wilkinson's Funeral Home, says it is a great relief. It saved him from much pain in the appendix and an operation two years ago, and will always keep it on hand.

Mr. E. Wade Kluttz suffered from sore feet for ten years, and is now a well man after Russell's Round Rub Salve did the work.

"Aunt" Emaline Patterson, fifty-eight years old, was helpless with rheumatism for four years and could not work, but one 60c box of Russell's Round Rub Salve helped her so much that after four or five days she was able to go about her work, and last year married her second husband.

One trial will convince. Sold in 10c and \$1.00 sizes, with money back guarantee. Parter Drug Company.
