PREBYTERIAN FINANCES WILL BE CONSIDERED

Governor A. W. McLean Calls Meeting of 100 Leading Laymen of Church.
Greensboro News, 18th.
One hundred of the leading Presbyterian laymen of North Carolina have been called by Governor Angus Wilton McLean to meet in Greensboro on Thursday, April 29, for the purpose of considering the financial condition of the Presbyterian church in this state, and with a view to taking whatever action may be considered necessary to improve that condition. Announcement of the approaching meeting here was confirmed last night by Dr. Charles F. Myers, pastor of the First Presbyterian church, who was not, however, able to give the names of other local men invited by the governor to attend.

The meeting will be convened at 11 o'clock on the morning of April 29 on the 17th floor of the Jefferson Standard Life Insurance company's building. It will be the first meeting of the kind so far as could be learned last night, ever held in the state and the hope was expressed that it would make some notable Presbyterian history for the synod.

Laymen will be brought together as Presbyterians who are leading in banking, manufacturing and merchandising as well as in the professions, and it is held if they show the same initiative and judgment for the church that they do in promoting their own affairs, the church will move forward at a new rate.

Dr. Myers declared last night that he had no intention as to the plans of Governor McLean in calling the conference of Presbyterian laymen, and that all he knew was what the notification he received from the governor stated, and that was a mere announcement of and invitation to attend the Greensboro gathering.

The fact that the governor of North Carolina has been interested in the meeting and plans to attend, and that the call for it has come from him is believed of ample import to insure the attendance of Presbyterian laymen from all sections of the state.

Rev. J. H. Henderlite, D. D., pastor of the First Presbyterian church at Gastonia, is aiding in arousing interest in the meeting and has written fellow pastors to the effect that "we ministers know each other and meet often in church courts, but the laymen do not have the same opportunity of getting acquainted and exchanging their views as to how the business of the church should be conducted."

WOUNDS WIFE, KILLS HIMSELF IN MT. AIRY

James Duncan Goes to Father-in-Law's Home and Sends Bullet in Wife's Body.

Mount Airy, April 17.—James Duncan, aged 30, tonight shot his wife, aged 25, here, probably inflicting a mortal wound, and then turned the pistol upon himself, sending a bullet through his heart. He died instantly, being found on the floor of a room in the house of his father-in-law, John Klutz with an unlighted cigarette in his mouth.

Duncan had borrowed a pistol from a clerk in a hardware store here, on the pretext that he was going to visit his father, John Duncan, in Laurel Fork, Va., and might need it. At 9 o'clock tonight he went to the home of Mr. Klutz, and in few minutes accosted his wife and shot her.

She ran screaming into the street, telling passersby to notify her father that she was shot. She was removed to a hospital, where it was seen that she was in a desperate condition. The bullet, from a .22 caliber pistol, entered her breast near her heart.

Duncan, a native of Carroll county, Virginia, formerly lived here. Several years ago he went to Pittsburgh, Pa., his wife going with him. She was before marriage Miss Janie Klutz, of this place. About two weeks ago she returned to her home here, having left a note for Duncan, stating that she was leaving Pittsburgh. He came here about a week ago. No one suspected that a tragedy was in the making.

COTTON MANUFACTURE PROBLEM DISCUSSED

Conference Decides It Is Up to Individual Producer to Cope With the Question.
Spartanburg, S. C., April 16.—Curtailment of cotton goods production is a problem for the individual manufacturer and no concerted action can be taken, South Carolina manufacturers decided here today.

In a statement issued by J. C. Joyce Evans, president of the North Carolina Cotton Manufacturers' association, after a conference of textile men and commission house representatives, the cotton situation was pronounced dangerous for manufacturers, but Mr. Evans said "each man must formulate his own policies."

The condition which the statement said had existed for sixty days was attributed to the sale of cotton futures at prices lower than the prevailing spots.

Cotton goods buyers, it said, feel that under present conditions the cloth market will be lower in future and the demand for cotton goods "is extremely poor."

Only two kinds of cloth, the manufacturers decided, are being sold at a profit and producers not making these particular goods are operating at a loss.

The meeting was called, Mr. Evans said, to enable manufacturers and commission men "to secure an accurate and comprehensive survey of the condition now existing in the industry."

The trouble with our music is it originates in New York where every one is in such a hurry. Practice makes perfect. It takes quite a bit of practice to kiss like an amateur.

SAYS HERB JUICE GAVE HIM PEP

Now He Is Feeling Fine and Can Do a Real Day's Work Since Taking the Herb Remedy.

"At last I have found the right medicine to keep me in active condition. That medicine is HERB JUICE. I had stomach trouble for years, was always constipated, but try as I did, I never could find the right medicine to overcome these ailments until I began taking HERB JUICE." The above statement was made recently by J. W. Aycoth, a farmer, Monroe, N. C., Route 8, while in conversation with the HERB JUICE man. "I had no appetite," continued Mr. Aycoth, "Nothing tempted me to eat, I slept so little on account of nervous indigestion that on arising in the mornings I always felt tired and as if I had had no rest or sleep during the night, and very little did I get as a result of a chronic case of stomach trouble. The gas pains in my stomach were very much annoying and I was often nauseated. It just seemed that there was no relief in store for me, but through a friend who had used HERB JUICE with great results advised me to try it, right there is where my trouble began to end. I went immediately and bought a bottle and began using it as it directed and it was really surprising to me how quickly this medicine improved my condition. Today I am a well man and I know HERB JUICE is due full credit for it. I seem to have one hundred per cent. more vim and vitality since I have taken this great herb remedy. I get up in the mornings full of pep and feeling fine in every respect, but never have I found anything that could equal HERB JUICE as a laxative and system purifier. Now I have a splendid appetite, everything I eat I enjoy. I have gained considerably in weight and feel so good in every way that living is now a pleasure. I can now do a good day's work with ease. I am most grateful to the friend that insisted that I try HERB JUICE, and to the medicine itself, the one medicine that gave me a new lease on life."
