

Great Britain In Big Strike Feels The Grip Of Labor's Might As Millions Go Idle

STREETS PACKED DURING THE DAY

Millions of Workers Quit Their Job at Midnight Under Orders Issued by Union Congress.

NON-UNION MEN SEEKING PLACES

Radicals on Hand in Some Instances to Keep Them From Jobs—Motor Traffic Now Very Heavy.

London, May 4.—(AP)—Great Britain today felt the grip of labor's might. At midnight the millions of workers under the aegis of the trades union congress quit their labors in a struggle to enforce the coal miners' stand against lower wages and increased hours.

By noon the streets of the capital were a madhouse of milling pedestrians and crawling motor vehicles with the unaffiliated workers striving to get their places of business.

Conditions in Piccadilly Circus, Trafalgar Square, Parliament Square and other points where traffic converged became so hopeless that passengers were forced to desert their taxicabs and motor cars and make their way to work on foot.

The government's first news bulletin issued over the wireless this morning was a notification from railway information bureaus that the transport service for the supply of milk was working out according to schedule.

Reports from the provinces were meager owing to the restricted news services, but conditions similar to those in London obtained there.

Edinburgh with the aid of volunteers maintained a skeleton service of tram cars and buses and the two evening newspapers continued to publish.

In Manchester no trains are running and except for the volunteer service, the whole transport organization of the city is at a standstill.

The principal Manchester stations were picketed shortly after midnight and no trains left for London.

The Manchester Guardian proposes to give the people the news in a small typewritten sheet.

While the tie-up of traffic continues throughout the city and many expressed apprehensions as to the outcome of the great struggle efforts were continuing toward settlement.

The general council of the trades union congress met during the morning in Eccleston Square, and left shortly after one o'clock for the House of Commons.

Former Premier Ramsey MacDonald, J. H. Thomas, secretary of the national union of railway men; Arthur Henderson, Home Secretary of the labor government; Herbert Smith, vice president of the miners' federation; and A. J. Cook, his chief, participated in the conference.

The executive committee of the miners' federation was summoned to the House of Commons to participate, it is believed, in a conference with the trades union council.

The beginning of the strike had a dramatic setting in London. Large crowds had gathered about the parliament houses and Whitehall, where they whirled away their time singing the "Red Flag."

Big Ben boomed out twelve. A man clinging to the railing of the House of Parliament yelled hoarsely: "Comrades, the hour has struck."

Then the great mass of people began to swirl and eddy into a procession which started toward the West End.

Near the Treasury the police seized a red flag and there was a brief unsuccessful struggle to capture it. Then the marchers passed through Trafalgar Square to Regent street, and Piccadilly to Hyde Park corner.

Finding the great park closed they continued down the quiet back streets. Suddenly at Eaton Square the police escort turned and scattered the marchers. Some of the men fell in their flight, others were chased by the hobbles, and then the demonstration broke up.

Strike Breakers Employed. London, May 4.—(AP)—Strike breakers are being hired by the Southern and Great Western Railways in order to maintain their services which were interrupted by the general strike.

The Southern Railway which operates an extensive suburban service, expects to open an hour service on some of its lines, possibly this evening.

First Approach to Violence Reported. London, May 4.—(AP)—The first approach to violence in the general strike came this morning at the east-end

west India cargo docks in the heart of the communist district of London. Large bodies of men compelled scores of vehicles to turn back and some of the lighter vehicles were overturned. The attitude adopted toward those proceeding to work, even women and girls, was far from friendly.

All work ceased on the docks. Strike Is Complete. London, May 4.—(AP)—The British general strike is complete in every particular, it was officially announced at labor headquarters early this evening. The union officials said the reports receiving them surpassed all expectations.

House of Commons Affected by Strike. London, May 4.—(AP)—For the first time in parliamentary memory, no order papers were available for the member when the House of Commons assembled today. The printers joined the other workers in the general strike and members of the House were forced to put their questions verbally.

When the questions were disposed of the labor and liberal leaders announced that they would not today oppose by prolonged debate the budget resolution as they wanted to leave as much time as possible for the more urgent business relating to the strike.

THE COTTON MARKET. After Opening at Decline Market Held Fairly Steady.—May 4 to 18.62.

New York, May 4.—(AP)—The unsettling influence of the British labor situation was reflected in a restricting volume of business rather than by any price movement of importance in the cotton market early today.

Cables were lower than due, but the decline in Liverpool was comparatively moderate.

After opening steady at unchanged prices to a decline of 3 points, the market held fairly steady. May sold off to 18.62 and there was scattered liquidation due to the circulation of a few additional notices.

There also may have been a little selling of late deliveries on favorable early view of the weather map. On the whole the market showed no particular tendency during the first hour, prices ruling about 2 to 4 points net lower.

Cotton futures opened steady. May 18.65. May 18.18. Oct. 17.24. Dec. 16.90. Jan. 16.83.

AVIATION AND FARM LEGISLATION DISCUSSED. At Meeting of Bankers Being Held at Carolina Hotel in Pinehurst.

Pinehurst, N. C., May 4.—(AP)—Aviation and farm legislation among a number of national problems law before the executive committee of the American Bankers Association which went into business sessions here today.

Aside from the question of national movement not directly connected with the banking business, the committee considered a mass of technical routine relating to the promotion of better banking relations.

Declaring there is a demand in this country for the government air subsidiary the commission recommended the establishment of a civil aeronautics bureau in the Department of Commerce.

MOUSE STILL WORKING ON FARM RELIEF BILL. Leaders Not Able to Predict What Will Be the Outcome.

Washington, May 4.—(AP)—Conflicted with three widely divergent bills, the House today finally took the task of evolving farm relief legislation with leaders themselves unable to predict just what would be the outcome.

Four days of debate faced the membership, and after that a lot of work on amendments must be done before anything like a complete bill can be put together.

The Haugen bill to create a \$375,000 revolving fund to stabilize agricultural prices was made the order of business. After discussion of this measure has been completed, the Tincher credit measure endorsed by Secretary Jardine and the Curtis-Aswell commodity marketing bill will come up as substitutes.

About Ordered Released. Rome, May 4.—(AP)—An investigating magistrate today ordered the immediate release of John Adams Abbot, socially prominent in Boston, who has been held in jail here for the last week. The charge that he had insulted Premier Mussolini was shown to be unfounded.

Large Cigarette Production in 1925. Winston-Salem, May 3.—One and one-third times as many cigarettes as there have been seconds since the birth of Christ were manufactured in the United States last year, according to figures shown newspapermen yesterday by a caller at the Chamber of Commerce.

This man stated that last year tax was paid on 70,975,654,131 cigarettes and on 372,431,000,572 pounds of tobacco. After a few moments figuring he announced that in the past 1926 years there have been 59,906,304,000 seconds, or that there will be when this year has expired.

These figures would mean that last year the United States manufactured approximately a cigarette for every second during the past 2,500 years.

How many cigarettes has Winston-Salem contributed or how many millions of dollars in revenue have been paid on local products he was unable to say, though the number of cigarettes manufactured locally last year on the basis of more than thirty cars per day, must run into the billions, it was pointed out.

CAMPAIGN AGAINST EVOLUTION THEORY IN STATE STARTED

Plans Looking to Anti-Evolution Law to Be Made in Charlotte During the Week.

OUTSIDE HELP IS NOT ASKED

More Than 200 Persons Present at First Session.—Want Law Passed by This State.

Charlotte, May 4.—(AP)—The fundamentalist mass meeting of North Carolina, aimed at launching a campaign to forbid the teaching of evolution in the schools of the state, opened in the Carnegie public library auditorium here this morning.

The session was called to order shortly after 11 o'clock with Judge Walter H. Neal, of Laurinburg, presiding.

Approximately 250 persons were present at the meeting.

Offers of assistance by outside organizations in the "North Carolina campaign" for legislation to prohibit the teaching of the evolution theory in the tax-supported schools were summarily rejected, Judge Neal declared in his address opening the session.

He declared the committee of 100 which is sponsoring the drive on evolution and modernism does not want the assistance of any teacher who believes in the theory of evolution, whether or not that instructor teaches the belief in the classroom.

GATHER TODAY TO FIGHT LIBERALISM. Fundamentalists to Start Campaign Against Teaching of Evolution.

Charlotte, May 3.—Leading Fundamentalists of North Carolina are gathering here to attend a State mass meeting Tuesday, when a campaign against teaching the theory of evolution in tax-supported schools will be launched.

Interest of Modernists and Fundamentalists is centered in the conference. For the struggle in this State between this group is regarded as one which will end in a victory exerting an important influence on the Nation's controversy, over the evolution theory.

Indications are that a large crowd from all parts of the State will be present. W. E. Price, of Charlotte, is secretary of the committee.

Judge Walter H. Neal, of Laurinburg, chairman of the committee, arrived in Charlotte Monday to complete the details in connection with the meeting.

Dr. T. T. Martin, field director of the Anti-Evolution Society of America, will be present and will make an address. He arrived several days ago.

To Launch Campaign. The purpose of the session is to launch the North Carolina campaign to influence enactment by the legislature of a measure which will prevent the teaching of any subject in the public schools which discredits Bible teachings.

Several preliminary meetings of North Carolina Fundamentalists, who have assembled in Charlotte in recent weeks, led up to the announcement April 16th that the campaign would be started with the mass meeting here Tuesday.

Great interest was aroused in the State, this being heightened by the arrival here of leaders in the Anti-Evolution Society of America, notably Dr. Martin, field director. He announced that he will conduct an anti-evolution campaign either individually or jointly with that of the Committee of One Hundred. Dr. Martin said North Carolina is the key State of the Nation in the Fundamentalist-Modernist controversy at this time and a victory in this State will be equivalent to a victory in the Nation.

The meeting will be held in the Carnegie library auditorium. With the purpose of further strengthening the effort of the committee in its fight for a law concerning the teaching of matters regarded as tending to discredit the Bible, Dr. A. B. Shaw, Presbyterian minister of Charlotte, acting for the committee extended a formal invitation to officers and members of the Charlotte parent-teachers' associations to attend and take part in the discussions Tuesday.

DELLINGER GOING TO PHILADELPHIA THIS WEEK. Will Make Trip With Mrs. P. S. Starr, Second Cousins to Members of Ross Family.

Charlotte, May 4.—(AP)—Julius Coleman Dellinger, of Denver, N. C., told the Associated Press here today that he expected to leave his home this week for Philadelphia to meet the relatives of Charlie Ross, who was shot by Mr. Dellinger said that Mrs. P. S. Starr, second cousin of Ross, had advised him that she would call in an automobile to start east with him in an effort to prove he is the long lost Charlie Ross who disappeared fifty years ago.

"I am now just sitting quiet—the world will know soon how well founded is my belief to be Ross," Dellinger said.

"I expect to establish my claim and then dig into a hole and retire peacefully for the remainder of my life."

Mr. Dellinger added that Mr. Starr would join the party at Greensboro, N. C., and travel to Philadelphia with them. From there he expects to go to New York. "He declined to say how long he might be gone, but said he expected to convince any 'doubtful' ones of his identity."

"This is not a new thing with me," Mr. Dellinger in his statement said. "I have for 47 years been engaged in trying to learn who I am, and I have much evidence to support my belief."

The principal evidence that he indicates reliance in to aid him in proving he is Charlie Ross is the birth mark he bears. He also said he had a lock of hair from his head cut when he was 4 years old, which proves valuable.

NO CHOICE YET MADE OF PRISON CHAPLAIN. Governor Has Received Letters Discussing Successor to Shacklette's Place.

Raleigh, May 4.—A successor to Rev. W. S. Shacklette, prison chaplain, to give the position its legal title, welfare officer, probably will be appointed by the prison board in its next meeting, May 11th, it was learned yesterday.

Officially, the position has been vacant only since May 1st, although Rev. Mr. Shacklette was relieved of his duties in early April. In the same resolution which informed the chaplain that his "usefulness was at an end," the prison board permitted him to occupy the house which he had been furnished until May 1st and given his salary to that date.

There has been no little sentiment for doing away altogether with the office of welfare officer, but there is said to be a law requiring that some service such as only a minister can render be made available to prisoners and it seems likely that the position will be filled as soon as it is possible.

So far as is known, no action has been taken by the board, either individually or collectively, toward the selection of a successor, but Governor McLean said yesterday evening that he had received several letters recommending various ministers for the place. The governor, of course, has nothing to do with the appointment of the welfare officer, but the letters, presumably, will be turned over to the board for whatever action it sees fit to take.

Until passage of an act by a recent legislature, the welfare work among prisoners has been cared for by local ministers. That act, however, is said to make the appointment of a full time officer obligatory.

Over \$1,000 Paid to Poultry Raisers. Lumberton, N. C., May 4.—(AP)—More than \$1,000 in cash was paid to poultry farmers in Robeson county on the opening day of the local poultry market, reports Miss F. G. Andrews, home agent. The market is in charge of James Price, a poultry club boy, and poultry is being received every Saturday from 7 until 12 o'clock. The market is paying cash upon delivery.

E. C. Locklear, of Embroke, received over \$200 in cash on the opening day.

As a result of these sales, says the home agent, farm women in the county are installing water systems and other conveniences in their homes. Already more than 35 water systems have been planned, and Miss Andrews expects more than 50 to be installed during the summer.
