UP IN THE AIR ON FARM RELIEF.

The Coolidge administration, we suppose with the consent of President Coolidge, at last has given some idea of its position in regard to farm relief. When the present Congress was convened it was generally agreed that farm relief legislation was one of its most im-

opposing it. His opposition has brought forth comment of all kind, including a retort from Representative Dickinson, Republican, Iowa, who declared "when the statement of Secre-tary Mellon is stripped of all specious pretext it means that the interests for whom he spoke are not willing that the protective system shall mean anything for the American farmer." Representative Dickinson hails from Iowa it should not be overlooked. His attitude as a Republican should give light to those per Representative Dickinson, Republican, Iowa,

a Republican should give light to those persons who perhaps have wondered why Senasons who perhaps have wondered why Sena-tor Cummins was defeated in the recent pri-mary by Col. Smith W. Brookhart. The atti-tude of Mr. Dickinson is similar to that of thousands of other persons in Iowa and the farming west and northwest. They are fired of the Republican promises, many of which were made at the time President Coolidge was elected. The Republicans want to please the farm vote, yet at the same time they don't want to do anything that will antagonize the special interests which control the party. It is so

interests which control the party. It much easier to promise than to carry out the FIRST OFFERED \$6,000 FOR TIMBER, HE GOT promises and they are still hopeful, apparently,

THE WEALTH OF AMERICA

When one reads of the great national wealth of the United States it is not so hard to understand why people of other nations think this is the promised land. Our great wealth as a nation also makes other nations jealous, and in cases at least, makes people of other nations expect many financial favors from us. The Federal Trade Commission, meeting in

Washington, has just made public, at the request of the Senate, a report on the National wealth of the United States. It has reached the colossal sum of \$353,

000,000,000, and is increasing in a manner still nore amazing.

The national income is figured at \$70,000, 000,000 annually. The annual income of the United States is twice the entire National wealth of Italy, and six times that of Belgium. Our wealth is \$40,000,000,000 more than that of Great Britain, France, Germany, Italy, Out of the city and by mall in North Carolina the Belgium, Hungary, and Denmark combined. Bowing prices will prevail: \$5.00 States still balances the scale.

VALUE OF THE COUNTRY SUNDAY SCHOOL. Clarence Poe, in The Progressive Farmer.

Reviewing the country Sunday school 's another op-portunity that should have attention new. It may be that in your neighborhood the Sunday School runs on all through the winter, as it should, but in many neighborthrough the winter, as it should, but in many neighbor-hoods this is not the case. Anyhow, any neighbor-hood where there is now no Sunday school in easy reach of everybody should present itself as an appeal, a chal-lenge, and a cull to any subscriber who is qualified to teach or to help organize such a Sunday school.

farm relief legislation was one of its most important tasks, yet we find the members about important tasks, yet we find the members about ready to go home for the summer with nothing done. The same matter of fact the administration was willing to let things rock along until Secretary Mellon was forced to say something. The idea, as old as politics itself, was to make all sorts of promises and that reason it was impossible to get anything done. The farm people that for this reason and that reason it was impossible to get anything done. The farm people were wise this time, however, and when the Haugen bill, with its equalization fee feature, was defeated they went to the administration to know the reason why. The same fee plan is offered in the McNairy bill and Secretary Mellon, as one of the leading members of the Coolidge official family, is opposing it. His opposition has brought forthis

"If I had the opportunity to say a hnal word to all the young people in America it would be this: Don't think too much about yourself. When all you can think about is yourself you are in a bad way." Dr. Elliot could well have given this ad-vice to older people as well as to young ores. We find selfishness as the root of many of our present-day evils, creating a condition that does not recognize service, friendship, broth-erly love and co-operation. Where there is no present-day evils, creating a condition that does not recognize service, friendship, broth-erly love and co-operation. Where there is no present-day evils, creating a condition that does not recognize service, friendship, brothdoes not recognize service, friendship, broth-erly love and co-operation. Where there is no thought for others there is no sweetness in life, and where there is no sweetness there is little right living. The selfish man becomes irritable, greedy and self-contered, ready at all times to strike a bargain that is often too hard. He builds only for himself, loses his touch of fellowship and sets as his goal in life self aggrandize-

ment. Dr. Elliot has lived long and wrought well. His life has been rich with faithfu' associa-tions and true comradeships. In this case he has spoken wisely, giving out drice that if followed would eliminate war, religious contro-versies, political scandals and every day crime.
