

Europe Buries War And Gives Germany Seat In The League of Nations

Amid the Applause Which Shook Hall of League Assembly Gernay Was Unanimously Elected.
FRANCE FIRST TO GIVE APPROVAL
Belgium and England Followed Next, Each Voicing Approval of Plan to Admit Enemy of War.

Geneva, Sept. 8.—(AP)—Europe buried the great war today when amid applause which shook the hall of the league of nations assembly, Germany unanimously was elected a member of the league, and unanimously also accorded a permanent seat on the league council.

When the roll call of states was taken, Foreign Minister Briand of France, pronounced a sonorous "Yes" and turned his eyes toward the press galleries as if he wanted the word to go forth throughout the world that France was first and foremost to welcome her ancient enemy into the fold of conciliation and harmony.

Foreign Minister Vandervelde of Belgium with equal enthusiasm proclaimed approval of Germany's admission, while Sir Austen Chamberlain's contribution to unanimity on behalf of Great Britain was crisp, clear and easily heard throughout the crowded auditorium.

Despite protests from the Scandinavian states against the policy of linking Germany's election with approval of an increase in the number of non-permanent council seats from 6 to 9, this augmentation was ratified also unanimously. Three seats for Latin-America on the council thus are secured.

President Nincich of the assembly, was visibly moved when he announced Germany's unanimous admission. M. Nincich is foreign minister of Jugoslavia, the country which now embraces the town of Sarajevo, the scene of the assassination of the Austrian duke Ferdinand, which was the initial incident in the outbreak of the world war.

"It shows that all," he said, "that these men of faith have done when Germany's election was blocked they were not disheartened by difficulties which seemed almost overpowering. We have accomplished today by voting Germany in, one of the most necessary, most delicate and most important acts in the development of the league of nations."

Two minutes after adjournment of the assembly until afternoon, the league's secretary, Sir Eric Drummond has flashed a telegram to foreign ministers in Brussels, Belgium, announcing Germany's election to the council. A German delegation is expected to arrive in Geneva tomorrow night to take part in Friday's session.

THE COTTON MARKET
Opened Firm at an Advance of 16 to 14 Points.—October Goes Higher.
New York, Sept. 8.—(AP)—The cotton market opened firm today at an advance of 16 to 14 points, with all months except October making new high records for the season in response to firm Liverpool cables, further advice in the future market of Egyptian cotton at Alexandria, and prospects for further showers in the South.

December sold up to 18.15 and March to 18.45, or 12 to 14 points above yesterday's closing quotations, but these prices attracted a good deal of realizing which probably was promoted by uncertainty of the showing of the government report due at midday. There also was some spot house selling which caused reactions of 8 or 9 points before the end of the first hour.

Liverpool attributed the advance there to trade calling and covering. Cotton futures opened firm: October 17.93; December 18.13; January 18.18; March 18.43; May 18.55.

SPAIN SEVERS ALL RELATIONS WITH LEAGUE
Country Declares It Has Not Been Shown Proper Consideration.
Hondaya, France, Sept. 7.—Spain's resignation from the league of nations was agreed upon at the cabinet council held in Madrid today. King Alfonso presided.

A communication will be dispatched immediately to Geneva announcing that Spain resigned from the league. The note was written and edited by General Primo de Rivera, himself in collaboration with Foreign Minister Yanguas.

It approaches the league for lack of consideration shown to Spain—her prestige, traditions and importance as the mother country of twenty nations, who speak the same language.

Regret is expressed that such a step had to be taken, but it is asserted that the sacrifices imposed by the league do not compensate Spain for what has taken place in the league assembly.

Recess Appointment for Henry Glasse.
Paul Smiths, Sept. 8.—(AP)—A temporary recess appointment was given Henry H. Glasse, Democrat, of Maryland, by President Coolidge today, to succeed himself on the tariff commission.

May Watch Fight

Released from immediate film work through the death of Rudolph Valentino, Estelle Taylor (Mrs. Jack Dempsey) expects to be able to attend the big fight on September 23 in Philadelphia.

REVENUE PAID IN BREAKS ALL RECORDS
Secretary of State's Office Turns Into Treasury \$284,452.23.
Raleigh, Sept. 8.—(AP)—Revenue paid into the treasury of the State of North Carolina by the secretary of state's office for the fiscal year ending last June 30th broke all records, it was disclosed in the biennial report just issued from the office of Secretary W. N. Everett.

The report shows that last year Secretary Everett's office turned over \$282,452.23 to the treasury, as against \$119,325.38 for the previous year. The corporation tax furnished \$226,673.22 of the total, and amounts paid in by foreign corporations ran up to \$25,117.00. Both these amounts were far in excess of last year's totals, but the corporation tax was aided by the single payment of \$130,000 by the Carolina Power & Light Company when it was consolidated and re-incorporated last year.

The increase in the foreign corporations tax was from \$9,521.18 in 1924-25 to \$25,117.00 last year. Other items showing increases were land grants, from \$876.77 to \$1,785.21; corporation fees, from \$5,598.30 to \$7,695.10, and corporation seals from \$1,800.00 to \$2,407.00. Land grant seals and fees also showed a slight increase.

The item showing the most marked decrease was the sale of legal books. Proceeds from the sale of supreme court reports dropped off from \$10,977.07 in 1924-25 to \$7,780.78 during the past fiscal year. Sale of code, laws and journals registered a decline from \$9,157.87 to \$6,404.23.

Dunning and Sharpe May Bury Charlotte, Sept. 7.—While the United States Marshall M. C. Cain, held two persons here under bond in connection with a raid on the He's Hole section of South Carolina which was conducted by M. O. Dunning, of Savannah, Ga., prohibition co-ordinator of the Carolinas, Georgia and Florida, an air of apprehension hung Tuesday over eight district headquarters.

Ben C. Sharpe, district administrator, who has been the center of a tangled situation in dry circles for several weeks, was closeted at his office during the morning with A. H. Price, of Salisbury, legal advisor of the eighth district. This conference, it was believed here, will end with wiping out the differences which are said to have sprung up between Mr. Sharpe and Mr. Dunning.

Woman Reported Killed in Accident. Hickory, N. C., Sept. 7.—(AP)—News was received here this morning from George D. Lancaster, local automobile dealer, that his mother was dead and his wife was not expected to live, as a result of an automobile accident near Kinston. Mr. Lancaster sent the telegram from Salisbury. The family is said to live in Goldsboro and was returning there from a farm near Kinston when the accident happened.

Advertising a Billion Dollar State Is the New Slogan

High Point, Sept. 8.—Advertising a Billion Dollar State is a new slogan that has arisen in the ranks of North Carolinians, Incorporated, which state-wide organization is now raising funds to carry on a national advertising program for the purpose of attracting substantial people to North Carolina. It is thought that the program will be in operation not later than January 1st. The sum of \$150,000 will be required for the first year's advertising, this amount to be subscribed during the fall months by the cities and towns of North Carolina in a big collective movement.

Meanwhile the organization committee, of which Fred N. Tate, of High Point, is chairman, is busy enlisting state-wide support and perfecting an agency for subscribing the national advertising fund through the local civic and commercial bodies of North Carolina communities. The work has been going on consistently during the summer months. Mr. Tate said today, and with cooler weather a vigorous program will be carried out.

The High Point Chamber of Commerce will be in the coming week conducting a campaign to strengthen its advertising fund, increasing it to \$15,000 annually. Of this amount \$5,000 will be contributed to the national advertising fund of North Carolina, Incorporated, this amount being High Point's quota.

In the course of a luncheon here during the past week in which community and state-wide advertising projects were discussed by the city's business men in connection with High Point's expansion movement, J. Elwood Cox pointed out that North Carolina is today more than a "Billion Dollar" State. In manufacturing, agricultural, mineral and timber industries North Carolina produces annually approximately \$1,300,000,000 worth of products. "Surely," he said, "North Carolina cities and towns can afford to spend together \$150,000 annually to tell the world about their billion dollar state." Each city in the collective movement, he said, will receive benefits vastly in excess of the amount it spends. Mr. Cox says that the plans and purposes of North Carolinians, Incorporated, are sound.

Already the announcement that North Carolina is preparing to advertise her tremendous resources and great treasuries to the nation at large has attracted wide attention throughout the country. The advertising will be designed to follow up in a more definite manner the reams of publicity the state is now receiving in a national way. The state's message will have a definite purpose, Mr. Tate says—to attract to this state thousands of substantial people, builders of industry, intelligent farmers, resort developers, pleasure seekers and tourists.

PARIS HEARS THAT PREMIER OF SPAIN WILL RESIGN SOON

Despite the Denials From Madrid of Serious Revolt, Border Towns of Spain Hear of Trouble.
REVOLT DIRECTED AGAINST PREMIER
He May Stay in Office for Present, But Soon Will Quit Is Opinion of One Noted Statesman.

Paris, Sept. 8.—(AP)—Curtain in the form of passive resistance is general throughout the entire Spanish army. It culminated thus far in actual mutiny however, only in the artillery corps. It is directed as much against the premier, Gen. Primo de Rivera, himself, as against the new army promotion regulation which provides for election instead of elevation by the old method of seniority.

This is the consensus of reliable information trickling through the Spanish censorship into French border towns like Hendaye, Bairritz and St. Jean de Luz.

Advice from Hendaye quote a leading Spanish statesman who declined to permit his name to be used, as expressing the opinion that the quarrel between the artillery bench of the army and Primo de Rivera means the downfall of the dictator. He said the premier possibly in order to save appearances might retain the office for a short time, but that the end of his rule was in sight; that the armed forces which brought it into power would destroy the dictatorship.

Various reports trickling through the border also say that the resignation of Primo de Rivera is only a question of time; that he will give up the helm of the Spanish ship of State as soon as the trouble with the army has more or less ended, and that a military man more in the confidence of King Alfonso will succeed him. General Martinez Amido, minister of the interior; Gen. Damazo Beranger, the new head of the king's military household; and Admiral Marquis de Magaz ambassador to the Vatican, are men held as possible successors to Primo de Rivera.

VICTIMS IN CINEMA TRAGEDY ARE BURIED
Forty-Eight of Fifty Who Perished Are Interred in Common Grave in Ireland.
Drum oligher, County Limerick, Ireland, Sept. 7.—Forty-eight of those who perished Sunday night in the fire which swept a flimsy wooden structure where a moving picture was being shown were buried in the local church yard in a common grave today. Twenty-six of them were charred beyond identification.

The story of the disaster which has put so many families in this district in mourning was told today at a corner's inquest. It was a story harrowing in detail, of men, women and children packed into a building almost ready to collapse and with out adequate entrance or exit, or an unprotected motion picture projector and a candle burning near inflammable films.

Then, when a spark set the mimsy affair in the crowded upper floor of the building, efforts to quench the flames or succeed in spreading them in all directions. A great panic ensued. The solitary exit soon was blocked; the rickety stairs broke through, and shortly the floor collapsed. Frightened people tried to escape by barred windows, others were caught in the struggling mass. Many did reach the outer air, but 50 were burned or crushed to death.

CALLS UPON WOMEN TO PROTECT AMERICA
Mrs. Shepard Would Place Greater Restrictions Upon Giving Foreigners Citizenship.
Charlotte, Sept. 7.—Voicing strong sentiment against foreigners acquiring full rights of citizenship, at least until they "are able to read the constitution of the United States," intelligent Mrs. Elizabeth London Shepard, national president of the United States Legion Auxiliary, distinguished guest of the Charlotte auxiliary, told auxiliaries here today that "the future of America lies in your hands—protect it!"

Mrs. Shepard, sister of the late Jael London, famous author, was speaking at a luncheon given in her honor which was attended by more than 100 auxiliaries, members from the two Carolina Legion officers, and representatives of other patriotic organizations.

Mrs. Shepard outlined the accomplishments of the auxiliary during the past year, declaring that the national organization has 240,000 paid up members—"the largest dues-paying organization in the world."

She told of the pledge of \$25,000 for child welfare work, \$19,500 of which was already paid. Praising the North Carolina auxiliary for its enterprise in being seen in the race for the Hobart trophy, Mrs. Shepard urged even greater energy in securing new members before the closing date of the contest.

The prevailing belief that girls as well as boys who attack each other or their enemies is an entirely erroneous one.

DRIVER OF MURDER CAR ARRESTED AND LODGED IN PRISON

Lennie Johnson, Negress, Alleged Driver of Car Which Killed Naomi Hudson, Held in Jail.
JIM EDGE IS ALSO ARRESTED
Couple Found at Home of White Man About Ten Miles From Greensboro. Ready for Journey.

Greensboro, Sept. 8.—(AP)—Lennie Johnson, negress, wanted for the murder of little Naomi Gene Hudson, eight months old daughter of Mr. and Mrs. H. A. Hudson of this city, was captured by officers shortly after five o'clock this morning in the home of a white man, Sam Caudle, about ten miles from here, and lodged in the city jail. Officers Gene Johnson and J. E. Swamy, who made the arrest, caught the woman with Jim Edge, a negro, who is held as an accessory after the murder.

Apparently Edge had taken two suitcases of clothes to Caudle house last Tuesday evening. He had a roll of money on him and the pair appeared ready to make a getaway. The negress said she ran from the scene of the smash where a car she was driving got out of control and killed the little white girl, wounded two negroes, and demolished the front porch of a house, and made her way out of the city by keeping to the woods.

The body of the victim was shipped yesterday to Atlanta, former home of the Hudsons, where burial is expected to take place today. The arrest followed some fine detective work by Captain W. L. Wray of the local police.

15,166,000 BALES COTTON CROP NOW INDICATED
Condition of Crop on September 1st Was 59.8 Per Cent. of Normal.
Washington, Sept. 8.—(AP)—A cotton crop of 15,166,000 bales of 500 pounds gross weight is indicated by the September 1st condition which was 59.8 per cent. of a normal, the department of agriculture announced today.

If developments during the remainder of the season are as unfavorable to the crop as during the last three years of the greatest decline a total production of 14,104,000 bales might be expected, the crop reporting board announced, but should conditions be as favorable as during the three years of greatest subsequent improvement, an output of about 16,370,000 bales might result.

The preliminary estimate of the abandonment of acreage for the season on the basis of September 1st reports was placed at 1,691,000 acres, or 3.5 per cent. of the 48,898,000 acres in cultivation on June 25, leaving the harvest season 47,207,000 acres.

The September 1st condition indicates a yield of 15.6 pounds per acre, as compared with 15.4 pounds a fortnight ago, and 16.7 pounds the fiscal year last year.

A total production of 15,248,000 bales was indicated a fortnight ago in the August 16th condition which was 63.5 per cent. of a normal. Last year's crop totalled 16,103,670 bales, and the September 1 condition was 59.2.

The preliminary estimate of the area left for harvest in thousands of acres, the condition of the crop on September 1 in per cent. of normal, and the production in thousands of bales as indicated by the September 1 condition by states includes: Virginia—Area 61; condition 66; production 45.

North Carolina—Area 2,038; condition 69; production 1,137. South Carolina—2,677; condition 54; production 983.

ALLIED TRADES UNION MEETS IN CHARLOTTE
Feasibility of Organizing New State Association Discussed by Delegates.
Charlotte, Sept. 8.—(AP)—The feasibility of organizing a new state association composed of delegates to the allied trades union, occupied the convention of that body here today.

Various group meetings were held to discuss the question. Such an organization would be known as the "allied construction industry" or some similar name, delegates said.

Ten speakers were on the general convention program today which included an address by Dr. E. C. Brooks, of Raleigh, President of North Carolina State College. His address will be delivered tonight.

With Our Advertisers. "The Exquisite Sinner," at the Concord Theatre today. Tomorrow and Thursday, "The Savage," with Ben Lyon and May McAvoy. Coming with Milton Sills in "Men of Steel."

Yulandizing at the Concord Yulandizing Co. is done with expert care. Dying and dry cleaning done right by Wrens at Kannapolis. Phone 128.

Schloss Bros. Clothes and Schoble and Stetson hats at Hoover's. The Standard Buick Co. has for sale or exchange six used cars. See ad.

All the new things in silks at the Park-Bell Company's. All kinds of special supplies, too.

In the Affairs of the World

RALPH A. CAMERON

PRINCE PIGNATELLI

C. E. BAUCH

MRS. MEDILL MCCORMICK

Senator Ralph A. Cameron, of Arizona, indicated he may change his stand to opposition of the World Court. As a result of two bloodless challenges to duels, Prince Pignatelli, Italian diplomat, may be recalled from Mexico. Lieutenant George T. Cuddihy established a new record in flying from Philadelphia to Washington in thirty minutes. Mrs. Medill McCormick, widow of the Senator, was mentioned as a candidate for Governor of Illinois.

GOV. McLEAN IN SPEECH ENCOURAGES AND WARNS

Places Particular Emphasis on Dairying as a Year Round Money Crop. (By Staff Correspondent)
Conway, Sept. 8.—A note both of encouragement and warning was sounded by Governor A. W. McLean here today in an address before the Kirby Farmers' Club of Northampton county when he commended them for the advance they have made toward diversification, but warned them that they must get more and more away from cotton and turn to dairying, poultry, truck crops and the better grades of tobacco if they were really desirous of genuine economic independence. But particular emphasis was placed on dairying because it supplies a year round "money crop," at the same time requiring a minimum amount of labor.

"One reason cotton can no longer be grown at a profit is because of the shortage of labor and the high cost of what labor is available. And these costs are mounting constantly, as you all know," the governor told the farmers. "On the other hand, here is a small dairy herd. I do not advocate a large dairy herd to begin with. Begin modestly and expand your herd as conditions may warrant. Compared with other phases of farming, a dairy herd does not begin to require the amount of labor that other phases of farming do. But it has this difference—it requires more skilled labor. But one or two good, skilled men can produce as much from a good dairy herd as half a dozen men can working cotton in the same time. And with this difference, that the dairy herd is producing a dollar crop, month in and month out, thus assuring a steady, dependable source of income throughout the year. And that is what you men need, North Carolina farmers in the past and right now, too, are too dependent upon credit. Every farmer needs something that will assure him of a cash income the year round. And only a dairy herd or a flock of chickens, or both, will do this."

Governor McLean then turned to a discussion of truck raising, the progress which has been made in truck farming in the eastern part of the state, and the benefits yet to be derived from more intensive and scientific truck farming. He also advocated more extensive poultry raising on a real scientific basis for egg production. Planting and raising of only the very best grades of tobacco was advocated by the governor.

NAMES OF DEAD MEN TO FIGURE IN TRIAL

This Indicated in Preliminaries of the Daugherty-Miller Trial.
New York, Sept. 8.—(AP)—The names of two men now in their graves will figure prominently in the trial of Harry M. Daugherty, former attorney general, and Thos. W. Miller, former alien property custodian, on charges of conspiring to defraud the government, while they held high public office.

This was made clear today when United States District Attorney Buckner, presenting the prosecution's case, mentioned repeatedly the names of the late John T. King, of Bridgeport, once Republican national committeeman from Connecticut, and the late Jesse W. Smith, aide and confidante of Daugherty, who committed suicide in 1923.

King and Smith, Mr. Buckner charged, "pulled the strings" in bringing about the transfer to allegedly German claimants of \$7,000,000 realized from the sale of American Metals Company securities, seized as enemy property when the United States entered the World War.

Richard Merton, German metal magnate, is another man who will figure prominently in the trial, appearing as a government witness. He and his family, the government contends, control the two German firms and the supposedly Swiss firm that were involved in the transfer of the \$7,000,000.

"We will show by government records of hotel, travel and other expense accounts," said Mr. Buckner, "that Miller, Smith, Daugherty, John T. King, and Merton met in New York City on April 19, 1921, and that Miller, Smith and Daugherty came here for the purpose of meeting Merton."

THE PASSING OF THE MISSISSIPPI STEAMERS
Railroads and Telegraph Have Put Them Out of Business. (By International News Service)
Memphis, Tenn., Sept. 8.—With the closing of the excursion boat season in Memphis the first of October the passing of the last of the Mississippi river's old line of packet steamers will be seen in this river port.

Railroads have made transportation cheaper and quicker, and telegraph and telephones have ended the river's usefulness for communication purposes.

Twenty years ago two dozen packet steamers were docked at New Orleans and as far north as St. Louis. But as their business grew less and less one by one these boats were sold or junked.

Finally, in one last effort to revive river transportation, the Adams and Lee line docks, rivals for half a century, united and pressed several boats into service.

But in vain. The company was soon bankrupt. So all the steamers were sold to logging outfits up and down the river for small sums.

Two were purchased and converted into excursion steamers. They have operated all summer, carrying passengers at night and picnickers in daylight hours, but when the cold weather sets in this winter they will be sold or remain idle until next summer.

Drusilla's Millions
A Picture that will live forever in the memorial of those who see it.
ADMISSION 10c and 25c
PASTIME THEATRE TODAY

SENATOR LENROOT TRAILING BLAINE ON LAST REPORT

It Seems Certain Now That LaFollette Candidate in Wisconsin Was Nominated in the Primary.
THREE SENATORS WON CONTESTS
In Nevada, Arizona and New Hampshire Primaries Republican Senators Defeated Opponents.

Washington, Sept. 8.—(AP)—Re-nomination of three Republican senators and defeat of a fourth, Senator Irvine L. Lenroot, leader of the administration's successful fight for a session to the world court, was indicated today on the basis of incomplete returns from the primaries of yesterday in Nevada, Arizona, Wisconsin and New Hampshire.

In Wisconsin the results of a struggle between Senator Lenroot and the LaFollette forces showed that Governor John J. Blaine had gained greatly on late returns from Milwaukee county and had overcome the earlier lead established by Senator Lenroot.

In the Republican gubernatorial race, Fred R. Zimmerman, secretary of state, an anti-Blaine progressive, led Attorney General Herman E. Ekers, who had the support of the LaFollette group.

Senator George H. Moses, president pro tempore of the senate, was well ahead of former Governor Robert E. Bass, of New Hampshire.

On incomplete returns from Nevada, Senator Tasker L. Oddie, world court advocate, was leading Mayor Roberts, of Reno, by a ratio 2 to 1. Ray T. Baker, former director of the mint, was well ahead in the Democratic senatorial contest.

Senator Ralph Cameron was unopposed for the Republican nomination in Arizona. Representative Carl Hayden was leading Chas. Rutherford, Phoenix attorney, for the Democratic nomination.

GEORGIA DEMOCRATS HOLDING PRIMARY
Name Candidates For United States Senate and All State Offices—Hold Senate Race.
Atlanta, Sept. 8.—(AP)—Georgia voters went to the polls today to nominate Democratic candidates for United States senator, congressional and state offices. The Democratic nomination in Georgia is equivalent to election.

R. B. Russell, chief justice of the Supreme Court, has made his campaign for the seat now held by United States Senator Walter F. George, on opposition to the world court. Senator George, whom Russell attacked for his senate vote on the resolution, has declined to recognize the world court as an issue. Both men issued over-shadowing the senatorial race in purely state interest is the gubernatorial primary in which four men have made their bid for the chief executive chair. Charges and counter charges of machine politics featured the campaigns of John N. Holder, chairman of the state highway commission; George Carswell, former president of the state senate; Dr. L. G. Hardman, and Joe Wood, former member of the state legislature.

Morrison to Explain Marketing Program.
Charlotte, Sept. 7.—Cameron Morrison, of Charlotte, former governor, will explain his plan for developing a cooperative marketing organization for farmers of this and adjoining counties tomorrow.

Kope Elias, farm demonstration agent of Mecklenburg county, probably will preside at the meeting.

Dr. James G. McClure, of Asheville, the guiding spirit of the Buncombe county farmers' federation, will deliver the principal address. His address probably will deal largely with the policies and success of the Buncombe county federation.

Mr. Morrison, who announced several years ago his intention to lead a movement of this kind in North Carolina, has given much time in recent months to the study of cooperative marketing as it particularly concerned the smaller crops.

Women Voters to Hear Lady Astor.
New York, Sept. 8.—Much interest is manifested in the address which Lady Astor has promised to deliver at the Waldorf-Astoria tomorrow evening under the auspices of the National and State League of Women Voters. It will be the only public address that she will deliver during her present visit to America.

In consenting to the request of the League of Women Voters to give a farewell message to the United States before she returns to England, Lady Astor is continuing the friendly relations which she established with that organization when she came here three years ago and spoke for the National League at the Baltimore convention and made her farewell speech, on the eve of her sailing, for the New York members of the organization.

THE WEATHER
Mostly fair tonight and Thursday. Gentle northeast winds becoming light or southeast Thursday.
