

Swine Contest in Hoop-Calling
 Des Moines, Ia., Sept. 7.—Swine have a hankering for tone and rhythm and Milford Beighly of Pierson shows better than anyone else in Iowa how to satisfy it. His high notes "who-o-o-o" echoing through the confines of the Iowa state fair grounds today won him the title of state champion hog caller of the state. Professor Thelbert MacRae, dean of Musk of Iowa State college, is the judge.

Safety Slogan
 Winston-Salem, N.C.—The need of greater safety on highways and more careful driving are so striking that The Journal inaugurates

this morning a daily feature which will emphasize points which at times the best of drivers overlook. Following the tragedy on the Lewisville highway in yesterday's Evening Star, we submit the following as the first one:
 The three "H's"—Hooch—Hugin—Haste, cause 75 per cent. of the motor accidents.

Gold was the first metal used by man, and the arbitrary value suggested to it for its supposed magical qualities initiated a world-wide search for it and made it a potent factor in shaping the history of civilization.

The pilgrimage of a Moslem to Mecca is called making the hadj.

TRUE HAPPINESS IN TOIL; NO REAL JOY IN IDLENESS

By S. W. STRAUS, President American Society for Thrift.

WE are rapidly approaching another Labor Day, which to millions means the end of the vacation period and the return to regular vocations.

While these vacations have proved enjoyable and helpful, the majority of persons will welcome again the return to work. For in the final analysis one of the great-

S. W. STRAUS

est sources of human happiness is work. And this is a truth that could be more widely learned to advantage.

Too many follow the rule that the more work they can avoid the greater will be their happiness. There is no true happiness in an idle life. Waste of time is a form of thriftlessness that is as destructive of rightful pleasure as waste of money or waste of health.

Work alone brings happiness, because work is creative and upbuilding and because all rightful impulses of the human race have found their fulfillment only in work.

This does not mean that there is no correct place in life for vacations or that diversion is not in accordance with good thrift.

You cannot transform a man into a machine and get human results. But, within the average routine of life, work brings the most satisfying happiness—work that is right, upbuilding and helpful.

Do not cherish an ambition for idleness. Wasting time never, under any circumstances, can bring lasting joy.

At the end of this vacation period it is well to remember that happiness through work is one of the fundamentals that can be continually counted on. It is a splendid type of true, constructive thrift.
