A NIGHT OF 1,000 TERRORS OND HORRORS

thousand terrors, a night of a hun-ed horrors, a night of petition and er and above all a night when inherited heroism of American nanhood came up to the highest stand

ards of the pioneer fathers.

This is vidivdly described by
Mabel Buchanan, safe at home after an endless age in the heart of

after an endless age in the heart of the Florida storm.

"My sister and myself had just arrived in Miami on our vacation. We had been in Tampa for a few days."

"Awakened at 2 a.m. by the hotel rembling we made cur way down to the front door of the hotel. We saw a huge office building across the street swaying like a drunken man. We saw, by flashes of lightning, big ships being blown up from the shores to the downtown district.

"As we stood dazed, water rushed in from the streets. We were in water up to our knees. Glass was slying everywhere. We got in the elevator shaft. We were almost alrowned when the roof was blown from the hotel and torrents of watercame down the elevator shaft.

"People were on their knees everywhere-praying. The clerk began distributing whiskey. That kept us alive through these hours. Dawn finally broke. I saw a drowned sailor's body swept down the street which was now a small river.

"Our hotel was soon turned into a hospital, Now that I'm safe back in Atlanta it all seems like a frightful nightmare. Water was being sold at 50 cents a glass when I left."

NORTH AND MIDDLE WEST SHIVER: NEW COLD WAVE COMING

To the South Cold Wave Moved Down the Lower Ohio Valley Into Texas Pan-Handle Today.

CROP DAMAGE IS NOW \$12,000,000

In Many Points in Northwest Temperatures Were Carried Well Below the Freezing Point.

Chicago, Sept. 25.—(P)—The north and middle west shivered today in the swirl of wintry blasts sweeping on a broad southeasterly band from snow-capped wheat fields on the western Canadian prairies.

To the south the cold wave moved down the lower Ohio valley into the Texas pamandle, while the winds that halted wheat harvesting in Alberta, Manitoba and Saskatchewan with a six-inch snow fall, coursed along the St. Lawrence toward the seaband.

The unseasonable temperatures sent the mercury scurrying downward to unprecedented September levels, and brought well below freezing weather at many 'northwestern points.

In the American northwest the wave assumed proportions unparalleled in the meteorological records, and threatened extensive damage to apples and other crops in Washington and Oregon.
